Neglected Plant Foods Of South Asia Tariq Ismail,Saeed Akhtar,Claudia E. Lazarte,2023-10-20 According to the global hunger index, South Asia has worldwide highest rate of undernourished people. Such a burden of food insecurity and various forms of malnutrition are directly associated with the existing food production system that ignores biodiversity, food affordability, and sustainability. During the last five decades, food production system has witnessed a global shift from ethnic to mainstream staple cereals production and promotion. Such an approach has badly affected the regional genetic pool of a diverse range of nourishing, economical, and sustainable edible plant species which are now referred to as neglected or underutilized food crops. Neglected Plant Foods of South Asia collects and preserves existing knowledge of underutilized, minor, wild, neglected and traditional food plants of South Asia, and their utilization for the production of value-added food products. Aiming at introducing plant - based food solutions to address the increasing burden of food insecurity among marginalized communities of South Asia, this manuscript covers a plethora of nutrient-dense plant species including fruits, vegetables, roots, tubers, cereals, pseudo-cereals, and pulses. In addition to having an overview of each plant's origin, cultivation practices and production statistics, researchers will find comprehensive information on nutritional composition, food manufacturing properties, value-addition and traditional uses of neglected plant foods. Recent updates on strategies to combat toxicological risks associated with the consumption of neglected food plants have also been included. With this volume, researchers will have complete information on neglected, underutilized traditional edible plants of South Asia, and their potential to increase food security under the emerging challenges of climate change.

Some Girls Jillian Lauren,2010-04-27 A jaw-dropping story of how a girl from the suburbs ends up in a prince's harem, and emerges from the secret Xanadu both richer and wiser At eighteen, Jillian Lauren was an NYU theater school dropout with a tip about an upcoming audition. The casting director told her that a rich businessman in Singapore would pay pretty American girls \$20,000 if they stayed for two weeks to spice up his parties. Soon, Jillian was on a plane to Borneo, where she would spend the next eighteen months in the harem of Prince Jefri Bolkiah, youngest brother of the Sultan of Brunei, leaving behind her gritty East Village apartment for a palace with rugs laced with gold and trading her band of artist friends for a coterie of backstabbing beauties. More than just a sexy read set in an exotic land, *Some Girls* is also the story of how a rebellious teen found herself-and the courage to meet her birth mother and eventually adopt a baby boy.

How Stella Learned to Talk Christina Hunger,2021-05-04 INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn't take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn't they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word "outside" when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. *How Stella Learned to Talk* is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella "spoke" her first word, and the other breakthroughs they've had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, *How Stella Learned to Talk* will be the indispensable dog book for the new decade.

Tehran Children: A Holocaust Refugee Odyssey Mikhal Dekel,2019-10-01 Fleeing East from Nazi terror, over a million Polish Jews traversed the Soviet Union, many finding refuge in Muslim lands. Their story—the extraordinary saga of two-thirds of Polish Jewish survivors—has never been fully told. Author Mikhal Dekel’s father, Hannan Teitel, and her aunt Regina were two of these refugees. After they fled the town in eastern Poland where their family had been successful brewers for centuries, they endured extreme suffering in the Soviet forced labor camps known as “special settlements.” Then came a journey during which tens of thousands died of starvation and disease en route to the Soviet Central Asian Republics of Uzbekistan and Kazakhstan. While American organizations negotiated to deliver aid to the hundreds of thousands of Polish Jews who remained there, Dekel’s father and aunt were two of nearly one thousand refugee children who were evacuated to Iran, where they were embraced by an ancient Persian-Jewish community. Months later, their Zionist caregivers escorted them via India to Mandatory Palestine, where, at the endpoint of their thirteen-thousand-mile journey, they joined hundreds of thousands of refugees (including over one hundred thousand Polish Catholics). The arrival of the “Tehran Children” was far from straightforward, as religious and secular parties vied over their futures in what would soon be Israel. Beginning with the death of the inscrutable Tehran Child who was her father, Dekel fuses memoir with extensive archival research to recover this astonishing story, with the help of travel companions and interlocutors including an Iranian colleague, a Polish PiS politician, a Russian oligarch, and an Uzbek descendent of Korean deportees. The history she uncovers is one of the worst and the best of humanity. The experiences her father and aunt endured, along with so many others, ultimately reshaped and redefined their lives and identities and those of other refugees and rescuers, profoundly and permanently, during and after the war. With literary grace, Tehran Children presents a unique narrative of the Holocaust, whose focus is not the concentration camp, but the refugee, and whose center is not Europe, but Central Asia and the Middle East.

Corruptíveis Brian Klaas,2022-07-01 O poder corrompe ou são as pessoas corruptas que são atraídas para o poder? Empresários e políticos que roubam e policiais que matam são resultado de sistemas mal projetados ou são apenas pessoas más? Para responder a essas e outras perguntas, Brian Klaas entrevistou mais de 500 líderes mundiais – dos mais nobres aos mais sórdidos –, entre eles, presidentes e filantropos, bem como dissidentes políticos, líderes de seitas, terroristas e ditadores. Algumas das mais fascinantes conclusões nos explicam como a fisionomia determina quem escolhemos como líderes; por que os narcisistas ganham mais dinheiro; por que algumas pessoas não querem absolutamente poder algum e outras são atraídas para ele por um impulso psicopático e por que ser o beta (segundo no comando) pode realmente ser a posição ideal para sua saúde e bem-estar. Baseado em uma pesquisa profunda e sem precedentes, Corruptíveis desafia suas suposições sobre como se tornar um líder e o que pode acontecer com sua cabeça quando chegar lá. Fornece também um roteiro para evitar as tentações clássicas, sugerindo uma série de mudanças que levarão pessoas melhores a conquistar posições de poder.
