American Newspaper Journalists on Film Johnny D. Boggs, 2022-11-11 When talking pictures first appeared in cinema theaters in the late 1920s, films about newspaper journalists quickly became a Hollywood mainstay. These were a variety of responses from working reporters, editors, and photographers. The newspaper film was a popular genre in the 1950s, and famous films such as All

the President's Men (1976) and Spotlight (2015) have depicted the power of the press. Journalists have also been portrayed in films that are not specifically about newspapers, appearing in noir films like Woman on the Run (1950), Westerns such as Fort Worth (1951), comedies like The Ghost and Mr. Chicken (1966), musicals like Wake Up and Live (1937) and historical epics like Lawrence of Arabia (1962). A film historian and former newspaper writer, the author investigates how accurately films have portrayed journalists across the decades. The book also details what journalists thought of the depictions at the time, contributing to brief histories and analyses for each film. Featured journalist archetypes include airy reporters, screaming editors, photographers, sportswriters and war journalists. Classics, misfires, Westerns, obscure treasures and films the press both adored and detested are all included in this comprehensive here.

in Metropolitan Chicago Chicago Tribune, 1956

The Press and the Suburbs Warren Sloat, 2013-10-30 The changing economic and demographic patterns of the United States have many measurements; few of them, however, are more comprehensive than the new circulation realities of the press. This volume tells the story of the twenty-six daily newspapers of New Jersey from the 1960s to the 1980s and in so doing tells the story of the rise of suburbia and the golden age of suburban journalism. In an intense effort to keep pace with the changing location of their readers--and most particularly with the upscale consumers--the shift to the suburbs was marked by changes in news coverage, advertising, and promotion. Though people have predicted the decline of newspaper business for more than fifty years, they were proven wrong by the rise of the suburban press and by the survival of most newspapers, urban and suburban alike, through the 1980s and 1990s. But in the twenty-first century, the news and information industry has changed, and the national and international economy has faltered. In his new preface, David Sachsman takes

the reader on a tour of what happened to each of the New Jersey daily newspapers since the publication of the original. The twenty-six newspapers studied have dwindled to sixteen, and huge losses in circulation have caused drastic cutbacks and mergers. The decline in New Jersey newspaper readership is part of a national trend. This is an essential book for all American historians, journalists, and communication specialists.
