Representing Defendants in Personal Injury Cases Dan Gioia, WEST GROUP, James W Jennings, Jr, Prince C Chambliss, Jr, Barbara Jane Barron, Jefferson S Smith, Herbert Subin, 2011 Representing Defendants in Personal Injury Cases provides an authoritative, insider's perspective on developing a successful defense strategy when litigating a personal injury dispute. Featuring partners and shareholders from law firms across the country, these experts guide the reader through the various components of defending against a personal injury claim, including analyzing liability, conducting discovery, and preparing for litigation. These top lawyers reveal their advice on choosing expert witnesses, presenting evidence to a jury, and deciding whether to settle or litigate a dispute. From understanding the importance of juror instructions to developing a winning argument, these authors explain the challenges many young lawyers face when formulating a defense strategy and the importance of training under more experienced practitioners. These leaders also discuss the benefit of alternative dispute resolution in resolving personal injury cases. The different niches represented and the breadth of perspectives presented enable readers to get inside some of the great legal minds of today, as these experienced lawyers offer up their thoughts around the keys to preparing and executing a winning defense strategy in personal injury disputes.

Winning Personal Injury Cases Evan K. Aidman, 2011 In this book, I examine every aspect of personal injury litigation, from attracting new clients to jury trials, and beyond. The personal injury laws vary from state to state and between state and federal court. Since 1983, I have been a trial lawyer in Pennsylvania and New Jersey. Much of the information presented involves those experiences. The law in your state may be different. Nevertheless, there is much uniformity throughout the states. The information in this book can be used by personal injury litigants and their counsel in any state. You may have to refer to local sources for the law or practice that applies to your situation. -- INTRODUCTION.

So You've Been in an Accident, Now What? Daniel C. Cuppett, First Last, 2015-02-25 Most people feel two things after they've been in a car accident--or any accident: Fear and anger. As a result, they don't always make good decisions about how to act and what to say in the aftermath. Lawyers and insurance companies know this--and take ad

Winning Personal Injury Cases Evan Aidman, 2015-11-10 Everyone has an opinion about personal injury litigation. Many people feel that the right to sue for injuries should be severely limited in hopes that insurance costs will decrease. Others fear that legislation enacted to restrict the right to sue will make big business, the insurance industry, and medical practitioners less accountable to the public. They also fear the loss of financial compensation for injuries caused by a negligent or careless act. In this book, I examine every aspect of personal injury litigation, from attracting new clients to jury trials, and beyond. The personal injury laws vary from state to state and between state and federal court. Since 1983, I have been a trial lawyer in Pennsylvania and New Jersey. Much of the information presented involves those experiences. The law in your state may be different. Nevertheless, there is much uniformity throughout the states. The information in this book can be used by personal injury litigants and their counsel in any state. You may have to refer to local sources for the law or practice that applies to your situation. The law is dynamic and ever-changing. It is flexible enough to accommodate a changing world. When the first automobile accident lawsuit was filed, the judge was not deterred by the fact that there were no automobile laws for guidance. The judge simply looked to the legal logic of horse-and-buggy cases. Similarly, when new technologies cause injuries in the future, the law will evolve to accommodate this. The federal and state legislatures constantly pass new laws. The courts rule every day on disputes that require interpretation of new laws and old. When a court decides a dispute, the court's ruling becomes precedent for the future. In other words, the interpretations that the judges dispense become the laws by which future litigants can be guided. This concept is known by the Latin term stare decisis. Sample Forms and Worksheets A book like this one cannot possibly include every procedural requirement of every jurisdiction in our country. The sample forms provided are general in nature, but are designed to give you a good idea of the types of forms that are used in most locations. Your state, county, and/or judge will have rules and forms that are not included in this book. Check with the court clerk and/or court website for your case to review any local rules and forms that apply. Often, such forms require the same information as the forms in this book, and are merely laid out differently or use slightly different language. You must follow the court's rules and use its forms. When those forms conflict with mine, use theirs.

Injured in an Accident? Donald Marcari, Donald Marcari Esq, Richard E. Spalding, Douglas R Zanes Esq, 2014-09-26 Injured In An Accident? - An injury can turn your life upside down in a matter of seconds. A truck driver falls asleep at the wheel. A defective tire blows out while you're driving on the highway. Suddenly, your life is about hospitals, medical bills, and coping with pain, disability and loss. If you're hurting, out of work and the medical bills are mounting, a quick settlement may be tempting, but how do you know if the settlement is fair and reasonable? When we decided to publish this book on personal injury, we set out to identify the legal leaders on that subject and get their insights on the major issues relating to personal injury accidents. It is not just one lawyer's insights on personal injury accidents, but ten of the top personal injury attorneys in the United States, from different regions of the country, sharing with you the fruit of their years of experience. You will discover that the claim process is fraught with hidden landmines. You will learn what many of the landmines are and how to avoid them. The information contained in this book could mean the difference between getting \$5,000 versus \$100,000 for your injuries.

Local Marketing for Personal Injury Lawyers Casey Meraz, 2020-02-07 The purpose of this book is to empower you with the strategies and tactics you need to dominate the local pack in your market. I will cover the exact tactics I have used and refined over the years to become successful in the most competitive markets time and time again. Paid search for personal injury lawyers is expensive and can cost hundreds of dollars per click. While paid search has a place and shouldn't be ignored, as a marketer, I have always believed in organic and local search. These channels, when used with a comprehensive strategy, can generate leads at a fraction of the cost. These are the channels that have allowed me to help law firms abandon sky-high spending on yellow pages ads and scale back expensive pay per click campaigns. This book is written for law firm owners, managers, and marketers that are looking to start their own firm or have been around for years. Even though some of the details in this book are aimed at new law firms, I still recommend you read those sections.
