Dart! J.D. Miller_,2016-03-12 Sid finds happiness growing up in the watershed of Long Point Bay. Sometimes the path to true contentment includes a lot of duck hunting. Like the waters of Big Creek, Sid is drawn to the Bay, not by some magic, but by natural processes that affect every part of the universe. In a journey of self-discovery, Sid meanders from Big Creek's headwaters, down-stream, to school, to love, to loss, to the Bay. Like his father, through the wing-beats of the diving ducks, Sid learns to smile radiantly into the icy late-season duck hunting winds.

Darts Beginning to End George Silberzahn,2009-06-25 Your techniques have given me the tools to become the best player I can be. Joe Everett (aka: dart face) New York City Certainly from reading the additional information in George's book (a must for all dart players) I now understand and feel when my stroke is good and bad and also I'm in a position where I am able to correct it if the first dart thrown is poor. Antony Sharrett (aka: Tanman) Harrogate,

England I know it's working for me because now what feels like a bad night would have been considered a great night 6 months ago. Mark Kelly (aka: Drac0) Australia I have never felt more controlled and focused with my darts. The drills, the reading material, all of it are a huge help. Greg Kanes (aka: P-man) S. Africa The way George writes makes you wanna read it. Davin Burgess, (aka: davin) Nashville, Tennessee, U.S.A.

Instead We Became Evil Sleiman, Dart Adams, 2022-08-09 A powerful story of struggle, survival, and hope for the future is told by one of Denmark's most successful artists. The violent, compelling debut, co-written with journalist Dart Adams, provides a complex portrait of one man and the various ways in which every social system that was supposed to help him failed him, while also delving into the psychology of immigrant gangs and the young men who fall into them. But ultimately, it's a narrative about tenacity, survival, and optimism for the future. Sleiman was born in Lebanon during the 1982 bombardment and is a Palestinian. His family eventually moved to Denmark, but their new life there was far from perfect. Sleiman was subjected to domestic violence as well as social rejection as a Muslim immigrant. Angry and powerless, he found himself drawn to gang life. Sleiman had dropped out of school and was one of his gang's most feared and revered members as a teenager. He was involved in hundreds of crimes during his peak, but after surviving an attempted assassination, he addressed his demons and permanently abandoned the gang life. Sleiman is now narrating his story in his own words

in the hopes of discouraging others from following in his footsteps.

Bones Lewis R. Binford, 2014-05-10 *Bones: Ancient Men and Modern Myths* focuses on bone structures and characteristics, including bone modifications, breakage, processing, and destruction by animals. The publication first elaborates on the transitions to relics to artifacts and monuments to assemblages and middle-range research and the role of actualistic studies, including artifact and assemblage phase and relic and monument phase. The text then takes a look at the patterns of bone modifications produced by nonhuman agents and human modes of bone modification. Discussions focus on breakage related to other forms of bone processing, morphology of bone breakage, chopping and bone breakage as butchering techniques, butchering marks, bone breakage and destruction by animals, tooth marks, and previous approaches to understanding the significance of broken and modified bone. The manuscript ponders on patterns of association stemming from the behavior of man versus that of beast, as well as control collections of animal-structured assemblages; information on kill behavior and comparisons; observations of wolves and their behavior; and studies of assemblage composition caused by beasts. The publication is a valuable source of information for researchers interested in bone structure and modifications.

Dawson's Fall Roxana Robinson, 2019-05-14 A cinematic Reconstruction-era drama of violence and fraught moral reckoning In *Dawson's Fall*, a novel based on the lives of Roxana Robinson's great-grandparents, we see America at its most fragile, fraught, and malleable. Set in 1889, in Charleston, South Carolina, Robinson's tale weaves her family's journal entries and letters

with a novelist's narrative grace, and spans the life of her tragic hero, Frank Dawson, as he attempts to navigate the country's new political, social, and moral landscape. Dawson, a man of fierce opinions, came to this country as a young Englishman to fight for the Confederacy in a war he understood as a conflict over states' rights. He later became the editor of the Charleston News and Courier, finding a platform of real influence in the editorial column and emerging as a voice of the New South. With his wife and two children, he tried to lead a life that adhered to his staunch principles: equal rights, rule of law, and nonviolence, unswayed by the caprices of popular opinion. But he couldn't control the political whims of his readers. As he wrangled diligently in his columns with questions of citizenship, equality, justice, and slavery, his newspaper rapidly lost readership, and he was plagued by financial worries. Nor could Dawson control the whims of the heart: his Swiss governess became embroiled in a tense affair with a drunkard doctor, which threatened to stain his family's reputation. In the end, Dawson—a man in many ways representative of the country at this time—was felled by the very violence he vehemently opposed.

ASK THE PASTOR Roscoe L. DeChalus M. Min., 2023-04-24 Have you ever wondered how many people went to Egypt with Jacob? Or perhaps you're confused by what seem to be contradictions in the Old and New testaments. Roscoe L. DeChalus,

president and senior pastor for Lord of Hope Ministries, draws on his expertise to answer those questions and many more in this book that will bolster your faith in the Lord—and help you share His word with others. Other questions include: · Is open-air preaching a requirement for all Christians? · As Christ died for all our sins, why will we be judged in heaven? · What is the origin of the cross and church steeples and are they related to phallic worship? · Why do people listen to false prophets? Whether you're a Christian seeking to bolster your understanding of the Bible or a nonbeliever who is open about starting a relationship with the Lord, the answers in this book will satisfy your curiosity and move you to accept the Lord Jesus as your savior.

Heart of Dart-ness Ned Boulting,2018-11-29 In *Heart of Dart-ness*, TV's Ned Boulting sets out to answer the forty-something year old question: What exactly is darts? Is it a sport, a freak show, a side-show, a pantomime, a riot or a party? From Purfleet to Minehead, Milton Keynes to Frankfurt, Ned embarks on a journey back to the beginning of the modern game. He tracks down some of the household names who graced childhood television screens and are still among us; names such as Andy Fordham, whose fifty bottles of Pils a day habit led to his near death on the oche, Cliff Lazarenko, whose prodigious drinking was the stuff of legend even among his not exactly abstemious peer-

group, Phil Taylor, the greatest of all time, as well as the Europeans, Michael van Gerwen, and Raymond van Barneveld. Is it entertainment, or exploitation? To answer that question, as well as every other, he learns that all roads lead to the Heart of Dart-ness, and the biggest character the game has ever produced, Eric Bristow. Perhaps darts is after all, just exactly what it sets out to be; an anti-sport sport, a two-fingered salute to the establishment, a piss-up in a brewery, the ultimate escape. The best night out.

A Century of Nature Laura Garwin, Tim Lincoln, 2010-03-15 Many of the scientific breakthroughs of the twentieth century were first reported in the journal *Nature*. *A Century of Nature* brings together in one volume *Nature*'s greatest hits—reproductions of seminal contributions that changed science and the world, accompanied by essays written by leading scientists (including four Nobel laureates) that provide historical context for each article, explain its insights in graceful, accessible prose, and celebrate the serendipity of discovery and the rewards of searching for needles in haystacks.
