Half Empty David Rakoff,2011-09-06 In this deeply smart and sneakily poignant collection of essays, the bestselling author of *Fraud* and *Don't Get Too Comfortable* makes an inspired case for always assuming the worst—because then you'll never be disappointed. Whether he's taking on pop culture phenomena with Oscar Wilde-worthy wit or dealing with personal tragedy, Rakoff's sharp observations and humorist's flair for the absurd will have you positively reveling in the untapped power of negativity.

Where Is My Flying Car? J. Storrs Hall,2021-11-30 From an engineer and futurist, an impassioned account of technological stagnation since the 1970s and an imaginative blueprint for a richer, more abundant future The science fiction of the 1960s promised us a future remade by technological innovation: we'd vacation in geodesic domes on Mars, have meaningful conversations with computers, and drop our children off at school in flying cars. Fast-forward 60 years, and we're still stuck in traffic in gas-guzzling sedans and boarding the same types of planes we flew in over half a century ago. What happened to the future we were promised? In *Where Is My Flying Car?*, J. Storrs Hall sets out to answer this deceptively simple question. What starts as an examination of the technical limitations of building flying cars evolves into an investigation of the scientific, technological, and social roots of the economic stagnation that started in the 1970s. From the failure to adopt nuclear energy and the suppression of cold fusion technology to the rise of a counterculture hostile to progress, Hall recounts how our collective ambitions for the future were derailed, with devastating consequences for global wealth creation and distribution. Hall then outlines a framework for a future powered by exponential progress—one in which we build as much in the world of atoms as we do in the world of bits, one rich in abundance and wonder. Drawing on years of original research and personal engineering experience, *Where Is My Flying Car?*, originally published in 2018, is an urgent, timely analysis of technological progress over the last 50 years and a bold vision for a better future.

Exploring Zynq Mpsoc CROCKETT H. DAVID LOUISE (NORTHCOTE. CRAIG, RAMSAY.),Northcote David,Ramsay Craig,2019-04-11 This book introduces the Zynq MPSoC (Multi-Processor System-on-Chip), an embedded device from Xilinx. The Zynq MPSoC combines a sophisticated processing system that includes ARM Cortex-A53 applications and ARM Cortex-R5 real-time processors, with FPGA programmable logic. As well as guiding the reader through the architecture of the device, design tools and methods are also covered in detail: both the conventional hardware/software co-design approach, and the newer software-defined methodology using Xilinx's SDx development environment. Featured aspects of Zynq MPSoC design include hardware and software development, multiprocessing, safety, security and platform management, and system booting. There are also special features on PYNQ, the Python-based framework for Zynq devices, and machine learning applications. This book should serve as a useful guide for those working with Zynq MPSoC, and equally as a reference for technical managers wishing to gain familiarity with the device and its associated design methodologies.

The Desire Map Danielle LaPorte,2014-01-01 Your bucket list. Quarterly objectives. Strategic plans. Big dreams. Goals. Lots of goals and plans to achieve those goals—no matter what. Except ... You're not chasing the goal itself, you're actually chasing the feeling that you hope achieving that goal will give you. Which means we have the procedures of achievement upside down. We go after the stuff we want to have, get, or accomplish, and we hope that we'll be fulfilled when we get there. It's backwards. And it's burning us out. So what if you first got clear on how you actually wanted to feel in your life, and then created some Goals with Soul? With *The Desire Map*, Danielle LaPorte brings you a holistic life-planning tool that will revolutionize the way you go after what you want in life. Unapologetically passionate and with plenty of warm wit, LaPorte turns the concept of ambition inside out and offers an inspired, refreshingly practical workbook for using the Desire Map process: Identify your core desired feelings in every life domain: livelihood & lifestyle, body & wellness, creativity & learning, relationships & society, and essence & spiritualityCreate practical Goals with Soul to generate your core desired feelingsWhy easing up on your expectations actually liberates you to reach your goalsSelf-assessment quizzes, worksheets, and complete Desire Mapping tools for creating the life you truly long for Goal-setting just got a makeover. There are more than 10,000 Desire Mappers who have worked through this system. Every day I get stories about inner clarity, quitting jobs, dumping the chump, renewing vows, pole-dancing classes, writing memoirs, moving on, says Danielle. This is about liberation. And pleasure. And self-determination. This is about doing much less proving, and way more living. If you've had enough of trying to trick yourself into happiness through affirmations or bucket-listing your hopes into some distant future, then you're ready for *The Desire Map*—a dream-fulfilling system that harnesses your soul-deep

desire to feel good.

The Fervor Alma Katsu,2022-04-26 The acclaimed author of the celebrated literary horror novels The Hunger and The Deep turns her psychological and supernatural eye on the horrors of the Japanese American internment camps in World War II. 1944: As World War II rages on, the threat has come to the home front. In a remote corner of Idaho, Meiko Briggs and her daughter, Aiko, are desperate to return home. Following Meiko's husband's enlistment as an air force pilot in the Pacific months prior, Meiko and Aiko were taken from their home in Seattle and sent to one of the internment camps in the Midwest. It didn’t matter that Aiko was American-born: They were Japanese, and therefore considered a threat by the American government. Mother and daughter attempt to hold on to elements of their old life in the camp when a mysterious disease begins to spread among those interned. What starts as a minor cold quickly becomes spontaneous fits of violence and aggression, even death. And when a disconcerting team of doctors arrive, nearly more threatening than the illness itself, Meiko and her daughter team up with a newspaper reporter and widowed missionary to investigate, and it becomes clear to them that something more sinister is afoot, a demon from the stories of Meiko’s childhood, hell-bent on infiltrating their already strange world. Inspired by the Japanese yokai and the jorogumo spider demon, The Fervor explores the horrors of the supernatural beyond just the threat of the occult. With a keen and prescient eye, Katsu crafts a terrifying story about the danger of demonization, a mysterious contagion, and the search to stop its spread before it's too late. A sharp account of too-recent history, it's a deep excavation of how we decide who gets to be human when being human matters most.
