

# Datadiary

C Cleary

**Dear Data** Giorgia Lupi, Stefanie Posavec, 2016-09-13 Equal parts mail art, data visualization, and affectionate correspondence, Dear Data celebrates the infinitesimal, incomplete, imperfect, yet exquisitely human details of life, in the words of Maria Popova (Brain Pickings), who introduces this charming and graphically powerful book. For one year, Giorgia Lupi, an Italian living in New York, and Stefanie Posavec, an American in London, mapped the particulars of their daily lives as a series of hand-drawn postcards they exchanged via mail weekly—small portraits as full of emotion as they are data, both mundane and magical. Dear Data reproduces in pinpoint detail the full year's set of cards, front and back, providing a remarkable portrait of two artists connected by their attention to the details of their lives—including complaints, distractions, phone addictions, physical contact, and desires. These details illuminate the lives of two remarkable young women and also inspire us to map our own lives, including specific suggestions on what data to draw and how. A captivating and unique book for designers, artists, correspondents, friends, and lovers everywhere.

**Operating Systems and Infrastructure in Data Science** Josef Spillner, 2023-09-22 Programming, DataOps, Data Concepts, Applications, Workflows, Tools, Middleware, Collaborative Platforms, Cloud Facilities Modern data scientists work with a number of tools and operating system facilities in addition to online platforms. Mastering these in combination to manage their data and to deploy software, models and data as ready-to-use online services as well as to perform data science and analysis tasks is in the focus of Operating Systems and Infrastructure in Data Science. Readers will come to understand the fundamental concepts of operating systems and to explore plenty of tools in hands-on tasks and thus gradually develop the skills necessary to compose them for programming in the large, an essential capability in their later career. The book guides students through semester studies, acts as reference knowledge base and aids in acquiring the necessary knowledge, skills and competences especially in self-study settings. A unique feature of the book is the associated access to Edushell, a live environment to practice operating systems and infrastructure tasks.

**Practical Python Data Wrangling and Data Quality** Susan E. McGregor, 2021-12-03 There are awesome discoveries to be made and valuable stories to be told in datasets-- and this book will help you uncover them. Whether you already work with data or just want to understand its possibilities, the techniques and advice in this practical book will help you learn how to better clean, evaluate, and analyze data to generate meaningful insights and compelling visualizations. Through foundational concepts and worked examples, author Susan McGregor provides the concepts and tools you need to evaluate and analyze all kinds of data and communicate your findings effectively. This book provides a methodical, jargon-free way for practitioners of all levels to harness the power of data. Use Python 3.8+ to read, write, and transform data from a variety of sources Understand and use programming basics in Python to wrangle data at scale Organize, document, and structure your code using best practices Complete exercises either on your own machine or on the web Collect data from structured data files, web pages, and APIs Perform basic statistical analysis to make meaning from data sets Visualize and present data in clear and compelling ways.

**TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2017/18** TERI, 2019-03-01 TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by The Energy and Resources Institute (TERI) since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household), and local and global environment sectors (environment and climate change). The publication also provides a review of the government policies that have implications for the sectors of the Indian economy. In TEDDY, an account of India's commercial energy balances is given, which provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for researchers, scholars, and organizations working in the energy sector. After the introductory chapters, for the ease of readers, TEDDY has been divided into sections on energy supply, energy demand, and local and global environment. Interactive graphs, figures, maps, and tables have been used throughout the chapters to explain facts, which make the book an interesting read. In addition, detailed tables at the end of each chapter represent statistical data on each of the above-mentioned sectors. The publication is accompanied by a complimentary CD containing full text. The publication has more than 15,000 readers across the globe and is often cited in international peer-reviewed journals and policy documents.

**TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2020/21** TERI, TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Recent changes in the energy sector and environment are depicted with the help of graphs, figures, maps, and tables. The publication also reviews government policies associated with energy and environment. TEDDY 2020/21 gives an account of India's commercial energy balances, extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. Contents of the book are organized into three sections—Energy Supply, Energy Demand, and Local and Global Environment. Interlinkage of SDGs with energy and environment also forms the subject matter of TEDDY 2020/21. The thirty-sixth edition continues to remain less prose intensive with inclusion of more data, represented with the help of infographics, thus making the publication an authentic and interesting read. Key Features: • Provides a review of government policies, programmes and initiatives that have implications for the petroleum and natural gas sector and the Indian economy • New chapters on Air Pollution, Solid Waste Management, Water Resource Management, and Land and Forest Resource Management • Exhaustive data from energy supply, energy demand, and local and global environment sectors Contents: Energy and environment: an overview Energy supply: Coal and lignite • Petroleum and natural gas • Power • Renewable energy Energy demand: Agriculture • Industry • Transport • Household energy • Buildings Local and global environment: Air quality and pollution • Solid waste management • Water resource management • Land and forest resource management • Climate change Audience: Researchers and Professionals from industries, government organizations, and public sector undertakings. Research scholars from different NGOs, bilateral and multilateral institutions, and academic

institutions. Shelving: Energy, Environmental Sciences and Studies, Industry (Coal and lignite, oil and gas, power, renewable energy), climate change, Agriculture sector, Transport sector, domestic sector For sample chapters and Sankey diagram, please visit: [www.teriin.org/projects/teddy](http://www.teriin.org/projects/teddy) List of Tables Energy and Environment: An Overview 1. SEC Indian industries 2. Trend in consumption of select petroleum products in the transport sector in India (in MT) · Commercial energy balance (2019/20) · Commercial energy balance (2020/21) (P) Coal and Lignite 1 New environmental norms for TPSs 2 FGD implementation status of TPSs—general summary (capacity in MW) 3 FGD implementation status of TPSs situated in NCR (capacity in MW) · Pithead run of mine price of non-coking coal applicable for Eastern Coalfields Limited, Bharat Coking Coal Limited, Central Coalfields Limited, Northern Coalfields Limited, Mahanadi Coalfields Limited, South Eastern Coalfields Limited, and North Eastern Coalfields Limited, with effect from 27 November 2020 · Revised price of coking coal for NRS · Pit head price of non-coking coal applicable for Western Coalfields Limited, with effect from 27 November 2020 Petroleum and Natural Gas 1 Proved and probable reserves status during 2019/20 2 LNG terminals in India 3 Trend in installed refining capacity of Indian refineries 4 Trend in subsidies for the sale of petroleum and natural gas in India 5 List of taxes for the production and sale of crude oil in India 6 List of taxes for the production and sale of natural gas in India 7 Retail selling price and taxes on petrol and diesel in India and other countries in 2019/20 8 Trend in CNG stations, CNG vehicles, and CNG sales quantity in India · City gas distribution bidding parameters · Year-wise work programme for successful CGD bidders · Crude oil pipelines and capacity status · Petroleum products pipeline infrastructure status · Status of existing natural gas pipeline infrastructure · Price build-up of LPG in Delhi · Price build-up of superior kerosene oil (LPG) in Mumbai · Price build-up of MS in Delhi · Price build-up of HSD in Delhi · Status of domestic PNG connections, industrial, commercial PNG, and CNG connections (as on 31 May 2021) Power 1 Progress of substations in India up to March 2020 2 Import /export of energy by India into/from countries during 2019/20 3 Status of construction of Green Energy Corridors as on 31 December 2019 4 Works accomplished under IPDS 5 State/UT-wise AT&C loss performance (in %) 6 Average cost of supply, average revenue, and revenue gap 7 Selected state-/union territory-average tariff for sale of electricity in India (2007/08 to 2013/14) (in paise/kWh) 8 Sanctioned smart grid pilot projects and implementation status Renewable Energy 1 Status of solar parks in India 2 Top five players in solar PV 3 Benchmark costs for various solar thermal technologies Agriculture 1 Production, imports, and consumption of fertilizers ('000 tonnes of fertilizers) 2 Source-wise net irrigated area in India (in Mha) 3 Distribution of GHG emissions by sub-sectors from the agriculture sector in 2010 and 2016 (in GgCO<sub>2</sub>e) 4 State-/UT-wise cold storage capacity as on 31 December 2019 5 Irrigation water productivity of rice, wheat and sugar cane in major growing states 6 State-/UT-wise cumulative installation of solar water pumps (as of 31 December 2020) 7 On-farm solar energy interventions linking water and land use in different states in India · Policy categories and key nodal agency impacting energy use in agriculture · Electricity consumption in the agriculture sector Industry 1 Brief overview of different PAT cycles for aluminium sector 2 Production of aluminium by primary aluminium producers (in tonnes) 3 SEC in aluminium smelting 4 Brief overview of different PAT cycles for cement sector 5 Cement production 6 Average and best practice energy consumption values for Indian cement plants by process 7 Brief overview of different PAT cycle for chlor-alkali sector 8 Production of chlor-alkali 9 Section-wise energy consumption in caustic soda production 10 Brief overview of different PAT cycles for fertilizer sector 11 Production of urea, DAP and complex fertilizers (in MT) 12 Benchmarking energy consumption in the fertilizer sector 13 Brief overview of different PAT cycles for iron and steel sector 14 Crude steel production and capacity utilization 15 Comparison of Indian and international SEC for steel industry 16 Brief overview of different PAT cycles for pulp and paper sector 17 Benchmarking energy consumption in different industry groups of pulp and paper sector 18 Brief overview of different PAT cycles for textile sector 19 Production of yarn and fabric in India 20 Typical energy requirements for different process in the textile industry 21 Brief overview of different PAT cycles for petrochemical sector 22 Production (in MT) of major petrochemicals in India 23 Share of different types of energy consumption in petrochemical plants (in %) 24 Energy for ethane and naphtha crackers Transport 1 Trend in consumption of select petroleum products in India 2 India's road network 3 Lane-wise length of national highways in India (in km) 4 Freight and passenger movement by roads 5 Major port-wise capacity utilization during 2018/19 (in MT) 6 Cargo traffic handled at ports in India (in MT) 7 Traffic handled at non-major ports (in MT) 8 Funds allocated under Sagarmala scheme to coastal states/ UTs (2015/16–2018/19) 9 Cargo movement through inland waterways transport 10 Airports in India 11 Passenger traffic carried by scheduled airlines (in million) 12 Freight traffic carried by scheduled airlines (in thousand tonnes) 13 App-based transport projects under Smart Cities Mission 14 Operational metro rail length in Indian cities as of April 2021 · New acts/bills/rules · Status of various construction projects · Policies and programmes · Green initiatives Household Energy 1. A timeline of government acts, policies, and schemes for providing energy access to households · Per capita consumption of electricity · Per capita consumption of electricity in India · Total energy consumption by countries/regions · Village electrification in India · Reliability of power supply in rural and urban areas · DISCOM-wise monthly average duration of interruptions (July 2021) in 11kV rural and mixed feeders · Consumers (total and residential) of electricity in India · Distribution of households based on energy source for lighting · Source of energy for cooking in residential sector in India · Percentage distribution of households by primary energy source for lighting (2001/02–2011/12) · Percentage distribution of households by primary energy source for cooking (2001/02–2011/12) · Consumption of LPG and kerosene · Residential consumption of LPG and kerosene · Residential consumers of LPG · Electricity consumption and consumers in the residential sector Buildings 1. India's energy projections 2. Electricity demand by 2030 3. Air-conditioning and cooling capacity of India in 2016 4. Final energy consumption for space cooling in buildings 5. Status of energy-efficiency policies in India Air Quality and Pollution 1. State-wise distribution of manual and continuous monitoring stations in operation under NAMP for 2020 2. Revised ambient air quality standards (2009) 3. Breakpoints for AQI scale 0–500 4. State-wise estimates of 24 h concentrations of PM<sub>2.5</sub> in kitchens from the use of solid cooking fuels 5. Stack emission standards for major air polluting industries 6. New emission standards for TPPs 7. Emission standards for two-wheeler and three-wheeler categories 8. Emission standard for four-wheeler (4W) category 9. Emission norms for heavy diesel vehicles 10. Emission standards for generator sets (gensets) 11. Dose response study of short-term effects of criteria air pollutants on all daily mortality in India 12. Dose response study of short-term effects of criteria air pollutants all-cause mortality around the globe 13. Recent policies in different sectors to improve air quality in India · Comparison of ambient air quality standards of different countries · Number of days different cities/towns exceeded the NAAQS of PM<sub>2.5</sub> in 2018 · Summary of source apportionment studies during the last decade in India · Studies conducted relating to health effects of air

pollution Solid Waste Management · MSW gasification technologies · Recycling facilities located in Delhi and Ahmedabad · Management of C&D waste in major cities of India · Various treatment technologies for plastic waste and their environmental impacts Water Resource Management 1. Water resource potential (in BCM) in river basins of India 2. Criteria for categorization of assessment units 3. Sustainable Development Goal 6: National Indicator Framework Land and Forest Resource Management 1 Nutrient-wise consumption of fertilizer material in India (1999/2000–2018/19) (in lakh MT) 2 Category-wise total area under wastelands 3 Changes in area under wetlands from 2005/06 to 2011/12 4 Status of wetland conservation in India 5 Number of forest fire alerts issued by FSI from November 2018 to June 2019 6 State/UT-wise funds released under National Afforestation Programme (INR in crore) 7 Year-wise funds released under Green India Mission from 2016/17-2020/21 (INR in crore) 8 State-/UT-wise funds released under Compensatory Afforestation Funds by Ad-hoc CAMPA 9 Number of floral species, their endemism, and threat status 10 Number of faunal species, their endemism, and threat status 11 Animals, plants, fungi, and protists in the International Union for Conservation of Nature Red List Categories 12 PAs in India 13 Some key acts related to the forestry and biodiversity sector in India Climate Change 1 Emission scenario 2 Level of CO<sub>2</sub> emissions (in billion tonnes of CO<sub>2</sub>) 3 Emission trends across four major CO<sub>2</sub> emitters 4 Global emissions and emission gap under the implementation of INDC for 2030 (median and range in GTCO<sub>2e</sub>) 5 Sector-wise national GHG emission in MT for 2016 6 Current status of state action plans on climate change · Carbon dioxide emissions across regions (in MtCO<sub>2</sub>) · Missions under National Action Plan on Climate Change · (a) Projects sanctioned under National Adaptation Fund on Climate Change · (b) Projects sanctioned under National Adaptation Fund on Climate Change List of Figures Energy and Environment: An Overview 1 Energy mix in 2020/21 2 Sankey diagram for 2020/21 (P) 3 Industry-wise consumption of raw coal 4 Coal transportation by various modes for 2020/21 Total balance recoverable crude oil and natural gas reserves in India 4 5 Trend in domestic crude oil production 6 Crude import, product imports, and total imports (in '000 MT) 7 Trend in natural gas production, imports, consumption and import dependency 8 Installed generating capacity in India by mode (utilities) 9 Growth of gross electricity generation in India by mode 10 Growth of renewable energy sources 11 HSD and LDO consumption in the agriculture sector 12 Trends in electricity consumption in the industry sector 13 Consumption of selected petroleum products in the industry sector 14 Trend in fuel consumption in the Indian Railways 15 All-India annual per capita consumption of electricity since 2006 16 Consumption of electricity by the domestic sector from 2011/12 to 2020/21(P) 17 Percentage distribution of households by primary energy source for cooking (2001/02 and 2011/12) 18 Electricity consumption (kWh) in BU for commercial building segments 19 Commercial and residential energy consumption by use 20 Annual ambient concentrations of (i) SO<sub>2</sub> and (ii) NO<sub>2</sub> pollutants across the country (2008–20) 21 Annual ambient concentrations of PM<sub>2.5</sub> across the country (2014–20) 22 Annual ambient concentrations of PM<sub>10</sub> across the country (2008–20) 23 Per capita water availability in relation to population 24 Municipal solid waste management status in 2018/19 25 Trend of average water table in India from 1980 to 2015 26 Percentage of land area under various uses in 2017 27 Land-use change from 2010/11 to 2014/15 28 CO<sub>2</sub> emissions in India as compared to GDP (PPP) 29 CO<sub>2</sub> emissions within sub-sectors in India · Sankey diagram for 2019/20 Coal and Lignite 1 Coal reserves in India as on 1 April 2020 2 Lignite reserves in India (as on 1 April 2020) 3 Coal and lignite production in India 4 Target versus actual coal supply (in MT) in India 5 Coal production by CIL and SCCL 6 Production of coal (in %) from opencast and underground mining 7 Coal off-take (in %) by different sectors in India during 2020/21 8 Lignite off-take (in %) by different sectors in India during 2020/21 9 Coal transportation by various modes for 2018/19 10 India's import of coal (in percentage share) 11 Coal imports and production trend (in MT) 12 India's export of coal (in percentage share) 13 Fly ash generation and utilization (in MT) between 2015 and 2021 14 Mode of fly ash utilization during 2019/20 Petroleum and Natural Gas 1 Total balance recoverable crude oil and natural gas reserves in India 2 Basin-wise ultimate hydrocarbon reserves as on 31 March 2020 3 Basin-wise in-place hydrocarbon reserves as on 31 March 2020 4 Trend in domestic crude oil production 5 Crude import, product imports, and total imports 6 Crude import, product imports, and total imports 7 Trend in production of petroleum products from refineries and fractionators 8 Country-wise crude oil imports by India 9 Trend in petroleum products' consumption in India 10 Status of petroleum products' consumption during 2019/20 11 Trend in domestic natural gas production 12 Trend in natural gas production and import dependency 13 Trend in consumption of natural gas by different sectors 14 Trend in consumption of imported and domestic natural gas by different sectors 15 Crude throughput of Indian refineries 16 Trend in gross refining margin of Indian refineries 17 Trend in subsidies for the sale of petroleum and natural gas in India 18 Share of tax/duties to total contribution of petroleum sector to exchequer 19 Contribution of taxes from the oil and gas industry to the central exchequer 20 Trend of Excise Duty on petrol and diesel vis-à-vis crude oil price in India 21 Contribution of taxes from the oil and gas industry to the state exchequer 22 State-wise collection of sales tax/VAT/SGST/UTGST from the oil and gas industry in 2019/20 23 Trend in retail selling price and taxes of gasoline in India vis-à-vis other countries 24 Trend in retail selling price and taxes of diesel in India vis-à-vis other countries 25 Trends in the price of domestic gas produced in India on GCV basis 26 Trend in the geographical areas offered and awarded under city gas distribution bidding 27 Status of state-/UT-wise piped domestic, commercial, and industrial connections · Indian sedimentary basins Power 1 Installed generating capacity in India by mode (utilities) as on 31 March 2021 2 Installed generating capacity in India by sector (utilities) as on 31 March 2021 3 Growth rate of installed generating capacity in India (2020/21) 4 CAGR of installed generating capacity in India (2012–20) 5 Growth rate of electricity generation in India (2019/20) 6 Electricity generation in India (2012–20) 7 Growth of gross electricity generation in India by mode 8 PLF of coal- and lignite-based power plants 9 Power supply position: energy 10 Power supply position: peak 11 Growth rate of peak demand and met (2011–21) 12 Growth rate of energy requirement and availability 13 Sector-wise electricity consumption pattern 14 Electricity intensity of economy 15 AT&C and T&D losses 16 Per capita electricity consumption 17 Sustainable Development Goals Renewable Energy 1 Linkages of other SDGs to SDG 7 2 Grid power and their percentage share till March 2021 3 Growth of renewable energy sources (till March 2021) 4 Top 10 states in renewable installation (till March 2021) 5 Installed solar capacity (2015–21) 6 Top 10 states grid-connected installed solar capacity (till 28 February 2021) 7 Solar tariff (till March 2020/21) 8 Top 10 states by targets rooftop capacities 9 Net solar PV installed (2017–2020) 10 State-wise wind power potential at 100 m above ground level 11 Growth of wind energy sector (till July 2019) 12 State-wise installed capacity (as on December 2020) 13 Cumulative biomass power, gasification and bagasse cogeneration projects (up to June 2019) 14 State/UT-wise cumulative commissioned biomass power, waste-to-power, and bagasse cogeneration grid connected projects (up to 30 June 2019) 15 Family-size biogas plants (up to June 2019) 16 State-/UT-wise maximum waste generation and processing in urban areas in India .. (as on 31 December 2018) 17 Cumulative waste-to-

energy/power projects (up to June 2019) 18 State-wise ethanol manufacturing capacity in India 19 Year-wise cumulative installed capacity till June 2019 20 Tidal energy potential 21 Target for geothermal energy deployment Agriculture 1 Production of different agricultural products in India 2 HSD and LDO consumption in the agriculture sector 3 Electricity consumption in the agriculture sector 4 Region-wise electricity consumption in the agriculture sector 5 Production of urea, diammonium phosphate, and other complex fertilizers (in MT) 6 Trend in GHG emission from the agriculture sector in India (in GgCO<sub>2</sub>e) 7 Percentage share of major farm machineries used in Indian agriculture 8 Farm power availability and foodgrain yield 9 Share of major crops in the gross cropped area in India (in %) 10 Number of tractors sold 11 Number of power tillers sold 12 Number of diesel and electric pumps used in India 13 Selected state UT-wise area covered under microirrigation (drip and sprinkler) in India Industry 1 Share of different processes in crude steel production Transport 1 World transport sector energy balance 2 Share (in %) of GHG emissions in transport sector in India 3 India transport sector energy balance 4 Total number of registered motor vehicles in India 5 Trend in electrification of route network of railways 6 Gauge-wise growth in network of the Indian Railways 7 Addition made to capacity through new lines, gauge conversion, and doubling of lines by the Indian Railways 8 Trend in passenger traffic movement on the Indian Railways 9 Trend in railways freight segment earnings on average rate per tonne kilometre basis 10 Trend in fuel consumption in the Indian Railway 11 Share of commodity groups in total traffic at major ports in 2017/18 12 Growth in capacity in Indian shipping industry in terms of number of vessels and gross tonnage 13 Trend in passenger load factor of scheduled Indian airlines in the domestic market Household Energy 1 Residential consumers of LPG 2 Percentage of power consumption in residential sector to total power consumed by all sectors 3 Consumption of LPG and kerosene in the residential sector 4 LPG refills from May 2016 until June 2019 5 Growth of LPG consumers in India 6 Consumption of LPG consumers in India 7 Consumption of LPG (in %) in residential sector 8 Growth of residential consumers in India 9 Consumption of electricity by residential sector Buildings 1 Consumption of electricity by sectors in India in 2019/20 2 Commercial energy consumption by use 3 Residential energy consumption by use 4 Building typologies as per ECBC, 2017 5 Building typologies as per Eco-Niwas Samhita, 2018 6 HVAC load break-up (in %) 7 Energy-efficient building design process 8 Building form and orientation for passive design 9 Shading design strategies 10 Structural and thermal loads 11 Façade with different WWR 12 Daylighting as a passive design strategy 13 Types of ventilation 14 Energy reduction with increase in design indoor temperature 15 Percentage growth of cooling requirement in India Air Quality and Pollution 1 Annual ambient concentration of different pollutants across the country during 2008–20 2 State/UT-wise average ambient air quality status of different pollutant parameters for the period of 2008–20 3 Sectorial contribution to ambient PM<sub>10</sub> and PM<sub>2.5</sub> 4 Institutional framework of air quality governance in India Solid Waste Management 1. Trajectory of average MSW generated in India between 2011 and 2019 2. MSW management status in India 3. MSW composition for waste received from Gurugram 4. Status of solid waste treatment 5. Major e-waste contributing states in India 6. Composition of plastic waste in major plastic waste generating cities in India as of 2015/16 7. GHG emissions from solid waste disposal sites and reduction potential 8. Emission points from MSW sector · Status of MSW generation in each state/UT of India · Major recycling infrastructure in some of the states of India · Plastic waste generation in some of the Indian states/UTs · Management of plastics in India · Average constituents of C&D waste · C&D waste generated in major cities of India · C&D waste management in India · C&D waste recycling in a typical recycling facility Water Resource Management 1. Per capita water availability in relation to population (a) Category of groundwater exploitation in monitored blocks in India and (b) the number of groundwater assessment units 2. Depth to water-level maps for (a) pre-monsoon and (b) post-monsoon in 2018 3. Trend of average water table in India from 1980 to 2015 4. Number of districts with fluoride in groundwater above the permissible limit 5. Number of locations in different states with arsenic concentration in groundwater above the permissible limit (0.01 to 0.05 mg/L and > 0.05 mg/L) 6. Number of districts with electrical conductivity in groundwater above the permissible limit 7. Number of districts with iron in groundwater above the permissible limit 8. Number of districts with nitrate in groundwater above the permissible limit (45 mg/L) 9. Net irrigated area in India 10. Access to safe drinking water in rural households (in %) 11. Access to safe drinking water in urban households (in %) 12. BOD trends of waterbodies in India (in mg/L) 13. Total coliform (in MPN/100 mL) trends of waterbodies in India 14. Faecal coliform (in MPN/100 mL) trends of waterbodies in India Land and Forest Resource Management 1. Percentage of area under various uses in 2017 2. Land-use change from 2010/11 to 2014/15 3. Linkage of SDG 15 to other SDGs 4. Forest cover in terms of percentage to the total geographical area 5. Trend analysis of forest cover in India between 2005 and 2019 6. Forest area of six regions of the country along with annual fire alerts 7. Trend in afforestation from 2007/08 to 2014/15 by MoEFCC 8. Endemic and threatened endemic species of India 9. The area under protected areas in India Climate Change 1 Annual total number of extreme climatic events in India 2 All-India annual mean temperature anomalies for 1901–2020 (based on the 1981–2010 average) 3 Spatial patterns of linear trends of (a) maximum and (b) minimum temperatures 4. Spatial pattern of trend (°C/100 years) in mean annual temperature anomalies (1901–2020) 5. Decadal means of all-India summer monsoon rainfall (in percentage departure from mean) 6. All-India annual mean percentage departures for 1901–2020 (based on the 1961–2010 average) 7. Sub-divisional trends of (a) seasonal and (b) monsoon rainfall for 1901–2003 8. Time series of active (upper panel) and break (lower panel) during the monsoon season 9. Cyclone tracks of depressions and cyclonic storms formed during 2020: a) monsoon season b) other seasons 10. Emission trends across four major CO<sub>2</sub> emitters 11. CO<sub>2</sub> emissions (in MTCO<sub>2</sub>) in India in comparison to GDP (PPP) 12. CO<sub>2</sub> emissions within subsectors in India 13. Emissions by fuel type in India 14. Comparison of coal cess collected, amount transferred to, and financed from projects recommended under NCEEF List of Maps Petroleum and Natural gas 1. Crude oil and product infrastructure in India 2. Natural gas infrastructure in India Renewable Energy 1. Solar potential of Indian states/union territories 2. State-wise wind energy potential at 100/120 m above ground level 3. Biomass power, bagasse cogeneration, and waste-to-energy 4. Small hydro potential in India 5. Geothermal potential in India Agriculture 1. State-wise annual land-use cover change in India: 2003–05 to 2011–13 Building 1. Climate zone map of India Water Resource Management 1 Places with fluoride concentration more than 1.5 mg/L 2 Locations with arsenic concentration in groundwater above the permissible limit (0.01 to 0.05 mg/L and > 0.05 mg/L) 3 Distribution of electrical conductivity in India Land and Forest Resource Management 1 Wasteland map of India 2 State-wise number of wetlands in India 3 Forest types in India 4 Forest cover in India

TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2019/20 TERI, 2021-07-01 TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors

(coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Recent changes in the energy sector and environment are depicted with the help of graphs, figures, maps, and tables. The publication also reviews government policies associated with energy and environment. TEDDY 2019/20 gives an account of India's commercial energy balances, extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. Contents of the book are organized into three sections—Energy Supply, Energy Demand, and Local and Global Environment. Interlinkage of SDGs with energy and environment also forms the subject matter of TEDDY 2019/20. The thirty fifth edition continues to remain less prose intensive with inclusion of more data, represented with the help of infographics, thus making the publication an authentic and interesting read. Key Features: • Provides a review of government policies, programmes and initiatives that have implications for the petroleum and natural gas sector and the Indian economy • New chapters on Air Pollution, Solid Waste Management, Water Resource Management, and Land and Forest Resource Management • Exhaustive data from energy supply, energy demand, and local and global environment sectors Contents: Energy and environment: an overview Energy supply: Coal and lignite • Petroleum and natural gas • Power • Renewable energy Energy demand: Agriculture • Industry • Transport • Household energy • Buildings Local and global environment: Air quality and pollution • Solid waste management • Water resource management • Land and forest resource management • Climate change Audience: Researchers and Professionals from industries, government organizations, and public sector undertakings. Research scholars from different NGOs, bilateral and multilateral institutions, and academic institutions. Shelving: Energy, Environmental Sciences and Studies, Industry (Coal and lignite, oil and gas, power, renewable energy), climate change, Agriculture sector, Transport sector, domestic sector

*TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2016/17* TERI,2018-03-22 TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by The Energy and Resources Institute (TERI) since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household), and local and global environment sectors (environment and climate change). The publication also provides a review of the government policies that have implications for the sectors of the Indian economy. In TEDDY, an account of India's commercial energy balances is given, which provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for researchers, scholars, and organizations working in the energy sector. After the introductory chapters, for the ease of readers, TEDDY has been divided into sections on energy supply, energy demand, and local and global environment. Interactive graphs, figures, maps, and tables have been used throughout the chapters to explain facts, which make the book an interesting read. In addition, detailed tables at the end of each chapter represent statistical data on each of the above-mentioned sectors. The publication is accompanied by a complimentary CD containing full text. The publication has more than 15,000 readers across the globe and is often cited in international peer-reviewed journals and policy documents.

**TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2015/16** ,2016-03-15 TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by The Energy and Resources Institute (TERI) since 1986. It is the only comprehensive energy and environment yearbook in India which provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, residential, and commercial sectors), and environment (local and global). The publication also provides a review of the government policies that have implications for these sectors of the Indian economy. Each edition of TEDDY contains India's commercial energy balances for the last four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for researchers, scholars, and organizations working on energy and related sectors. After the introductory chapters, for the ease of readers, TEDDY has been divided into sections on energy supply, energy demand, and local and global environment. The thirtieth edition of the publication, TEDDY 2015/16, comes with several interesting features. The Green Focus at the end of each chapter highlights sustainable initiatives and successful practices, which are of current interest in the sectors discussed under the sections on energy supply, energy demand, and local and global environment. The publication also features a section that discusses sustainable development goals and air pollution and health. Interactive graphs, figures, maps, and tables have been used throughout the chapters to explain facts, which make the book an interesting read. In addition, detailed tables at the end of each chapter represent statistical data on each of the above-mentioned sectors. The publication is accompanied by a complimentary CD containing full text. The publication has more than 15,000 readers across the globe and is often cited in international peer reviewed journals and policy documents. Key Features: • Exhaustive compilation of data from energy supply and demand sectors • Recent data along with data for the past years presented in the form of structured and easy to understand tables • Recent advances made in the energy sectors are covered in the book • Self-explanatory figures and graphs showing the latest trends in various sectors are also part of chapters • The "Green focus" section in every chapter highlights a topical issue • The book comes with a complimentary CD that contains all the chapters and additional tables Contents: Energy and environment: an overview, Commercial energy balance tables and conversion factors • Energy supply: Coal and lignite, Petroleum and natural gas, Power, Renewable energy sources and technologies • Energy demand: Agriculture, Industry, Transport, Household energy • Local and global environment: Environment, Climate change • Energy and environment goals: Sustainable development goals and implications for India, Air pollution and health

Big Data for Qualitative Research Kathy A. Mills,2019-03-14 Big Data for Qualitative Research covers everything small data researchers need to know about big data, from the potentials of big data analytics to its methodological and ethical challenges. The data that we generate in everyday life is now digitally mediated, stored, and analyzed by web sites, companies, institutions, and governments. Big data is large volume, rapidly generated, digitally encoded information that is often related to other networked data, and can provide valuable evidence for study of phenomena. This book explores the potentials of qualitative methods and analysis for big data, including text mining, sentiment analysis, information and data visualization, netnography, follow-the-thing methods, mobile research methods, multimodal analysis,

and rhythm analysis. It debates new concerns about ethics, privacy, and data surveillance for big data qualitative researchers. This book is essential reading for those who do qualitative and mixed methods research, and are curious, excited, or even skeptical about big data and what it means for future research. Now is the time for researchers to understand, debate, and envisage the new possibilities and challenges of the rapidly developing and dynamic field of big data from the vantage point of the qualitative researcher.

*TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2018/19* TERI, 2020-11-11 *TERI Energy & Environment Data Diary and Yearbook (TEDDY)* is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Additionally, the publication reviews government policies and analyses latest policy discourses that have implications on India's energy and environment sector. TEDDY 2018/19 gives an account of India's commercial energy balances, extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. After the introductory chapter, TEDDY 2018/19 is divided into three sections—Energy Supply, Energy Demand, and Local and Global Environment. One of the main highlights of TEDDY 2018/19 is the addition of a new chapter—Buildings—under Energy Demand section. This chapter gives an in-depth analysis of India's energy consumption by the buildings sector, and highlights the role of energy efficiency in buildings from the perspectives of both economy and environment. The thirty-fourth edition of TEDDY continues to remain less prose intensive with inclusion of more data, represented with the help of infographics, thus making the publication an authentic and interesting read. TEDDY 2018/19 also features a section on interlinkages of SDGs with energy and environment. Key Features: • Provides a review of government policies, programmes and initiatives that have implications for the petroleum and natural gas sector and the Indian economy • New chapters on Air Pollution, Solid Waste Management, Water Resource Management, and Land and Forest Resource Management • Exhaustive data from energy supply, energy demand, and local and global environment sectors Contents: Energy and environment: an overview Energy supply: Coal and lignite • Petroleum and natural gas • Power • Renewable energy Energy demand: Agriculture • Industry • Transport • Household energy • Buildings Local and global environment: Air quality and pollution • Solid waste management • Water resource management • Land and forest resource management • Climate change

TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2021/22 A TERI Publication, *TERI Energy & Environment Data Diary and Yearbook (TEDDY)* is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Recent changes in the energy sector and environment are depicted with the help of graphs, figures, maps, and tables. The publication also reviews government policies associated with energy and environment. TEDDY 2021/22 gives an account of India's commercial energy balances, extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. Contents of the book are organized into three sections—Energy Supply, Energy Demand, and Local and Global Environment. Interlinkage of SDGs with energy and environment also forms the subject matter of TEDDY 2021/22. The thirty-seventh edition continues to remain less prose intensive with inclusion of more data, represented with the help of infographics, thus making the publication an authentic and interesting read. Key Features: - Provides a review of government policies, programmes, and initiatives that have implications for energy sector and the Indian economy - The analyses are based on the exhaustive data, sourced from energy supply, energy demand, and local and global environment sectors - Traces the trend exhibited by energy generation and consumption and its association with the environment Contents: Energy and environment: an overview Energy supply: Coal and lignite • Petroleum and natural gas • Power • Renewable energy Energy demand: Agriculture • Industry • Transport • Household energy • Buildings Local and global environment: Air • Solid waste management • Water resource management • Land and forest resource management • Climate change Audience: Researchers and Professionals from industries, government organizations, and public sector undertakings. Research scholars from different NGOs, bilateral and multilateral institutions, and academic institutions. Shelving: Energy, Environmental Sciences and Studies, Industry (Coal and lignite, oil and gas, power, renewable energy), climate change, Agriculture sector, Transport sector, domestic sector For sample chapters and Sankey diagram, please visit: [www.teriin.org/projects/teddy](http://www.teriin.org/projects/teddy) List of Tables Coal and Lignite 1 New environmental norms for TPSs 2 FGD implementation status of TPSs—general summary (capacity in MW) 3 FGD implementation status of TPSs situated in NCR (capacity in MW) • Pithead run of mine price of non-coking coal applicable for Eastern Coalfields Limited, Bharat Coking Coal Limited, Central Coalfields Limited, Northern Coalfields Limited, Mahanadi Coalfields Limited, South Eastern Coalfields Limited, and North Eastern Coalfields Limited, with effect from 27 November 2020 • Revised price of coking coal for NRS • Pit head price of non-coking coal applicable for Western Coalfields Limited, with effect from 27 November 2020 Petroleum and Natural Gas 1 Hydrocarbon reserve status (as on 1 April 2021) 2 Trend in installed refining capacity of Indian refineries (in MTPA) 3 Trend in subsidies for the sale of petroleum and natural gas in India 4 List of taxes for the production and sale of crude oil in India 5 List of taxes for the production and sale of natural gas in India 6 Retail selling price and taxes on petrol and diesel in India and other countries in 2019/20 7 Phasing of minimum work programme 8 Trend in CNG stations, CNG vehicles, and CNG sales in India 9 Allocation for MoPNG under the budget estimate for 2021/22 • City gas distribution bidding parameters • Year-wise work programme for successful CGD bidders • Major crude oil and product pipeline network (as on 1 April 2022) • Existing major LPG and petroleum products' pipelines in India (as on 31 March 2021) • Status of existing natural gas pipeline infrastructure • Price build-up of subsidised domestic LPG in Delhi as on 1 April 2022 • Price build-up of PDS SKO in Mumbai as on 1 April 2022 • Price buildup of MS (petrol) in Delhi as on 1 April 2022 • Price buildup of HSD in Delhi as on 1 April 2022 • Present status of CGD infrastructure in India Power 1 Sector-wise fuel-wise break-up of achieved capacity addition (in MW) 2 Addition in transmission lines and transformation capacity 3 Plan-wise growth of transmission lines (220 kV and above) 4 Import/export of energy by India from/to neighbouring countries (in MU) 5 Status of eight states as on 31 March 2021 6 Comparison of length of lines operating at various voltages as on 31 March 2021 7 Achievements in infrastructure under electrification schemes by

Ministry of Power 8 Set targets and achievements under IPDS system 9 Details of electricity infrastructure created under DDUGJY (including additional infra) as on 31 October 2021 10 Set targets and achievements under UDAY scheme 11 Inter-regional power transfer capacity of national grid during the last three years 12 Sanctioned smart grid pilot projects and implementation status Agriculture 1 Production, imports, and consumption of fertilizers (thousand tonnes of nutrients) 2 Shift in different sources of commercial energy consumption in Indian agriculture (in %) 3 Source-wise net irrigated area in India (in Mha) 4 Irrigation water productivity of rice, wheat, and sugar cane in major growing states 5 On-farm solar energy interventions linking water and land use in different states in India · Policy categories and key nodal agency impacting energy use in agriculture · Electricity consumption in agriculture sector Industry 1 Brief overview of different PAT cycles for aluminium sector 2 Production of aluminium (in tonnes) 3 SEC in aluminium smelting 4 Brief overview of different PAT cycles for cement sector 5 Cement production 6 Indian and global average specific energy consumption of cement plant 7 Brief overview of different PAT cycle for chlor-alkali sector 8 Production of alkali chemicals 9 Section-wise energy consumption in caustic soda production 10 Brief overview of different PAT cycles for fertilizer sector 11 Production of urea, DAP and complex fertilizers (in MT) 12 Benchmarking energy consumption in the fertilizer sector 13 Brief overview of different PAT cycles for iron and steel sector 14 Crude steel production and capacity utilization 15 Comparison of Indian and international SEC for steel industry 16 Brief overview of different PAT cycles for pulp and paper sector 17 Benchmarking energy consumption in different industry groups of pulp and paper sector 18 Brief overview of different PAT cycles for textile sector 19 Production of yarn and fabric 20 Brief overview of different PAT cycles for petrochemical sector 21 Production (in MT) of major petrochemicals Transportation 1 Road category along with the length (in km) for 2018 and 2019 2 Cargo traffic handled at major ports (in tonne) in 2021/22 3 Cargo traffic handled at non-major ports (in tonne) for 2021/22 4 Number of projects and project cost under Sagarmala · App-based solution project in round II cities · Growth of metro rail over the years · Number of E-buses sanctioned under FAME-II scheme Household Energy 1 A timeline of government acts, policies, and schemes for providing energy access to households · Per capita consumption during 2019 · Per capita consumption of electricity in India · Energy consumption by countries · Village electrification in India · State-wise monthly average duration of power cuts in urban areas at 11 kV feeder level during May 2019 · Distribution of households based on energy source for lighting · Source of energy for cooking in residential sector in India · Percentage distribution of households by primary energy source for lighting (2001/02–2011/12) · Percentage distribution of households by primary energy source for lighting (2001/02–2011/12) · Percentage distribution of households by primary energy source for cooking (2001/02–2011/12) · Consumption of LPG and kerosene · Residential consumption of LPG Buildings 1 Climate characteristics 2 Suggested P/A ratios for cooling dominated regions 3 Climate-specific shading responses for passive cooling 4 Green building rating systems and daylight benchmarks 5 Status of energy-efficiency policies in India Air 1 State-/UT-wise distribution of manual and continuous monitoring stations in operation under NAMP 2 Revised ambient air quality standards 3 Breakpoints for AQI scale: 0–500 4 Active fire counts on crop land in different states of India during the last 10 years 5 Stack emission standards for major air-polluting industries 6 New emission standards for thermal power plants 7 Emission standards for two-wheeler and three-wheeler categories 8 Emission standards for four-wheeler category 9 Emission norms for heavy diesel vehicles 10 Emission standards for generator sets 11 Deaths attributable to air pollution along with total and per-capita economic loss due to premature deaths and morbidity attributable to air pollution in the states of India 12 Dose response study of short-term effects of criteria air pollutants on all daily mortality in India 13 Dose response study of short-term effects of criteria air pollutants all-cause mortality around the globe 14 Recent policies in different sectors to improve air quality in India 15 Planned and proposed source apportionment studies under NCAP and their status as of May 2022 · Comparison of ambient air quality standards of different countries · Number of days different states exceeded the NAAQS of PM<sub>2.5</sub> · Summary of estimated source contributions including the contribution of sources outside the city air sheds · Studies conducted relating to health effects of air pollution Solid Waste Management · MSW gasification technologies · Various treatment technologies for plastic waste and their environmental impacts · Recycling facilities located in different cities of India · Management of C&D waste in major cities of India Water Resource Management 1 Estimated utilizable flows and average annual potentials of the main basins of the country 2 Criteria for categorization of assessment units 3 Irrigated area covered under different forms of irrigation 4 Indicators developed by MoSPI for tracking/monitoring the progress of nationally defined SDGs Land and Forest Resource Management 1 Forest cover of India 2 State-wise forest cover of India 3 Forest cover under different fire-prone classifications 4 Forest carbon stock under different pools and changes w.r.t. previous assessment 5 Key statistics of Indian hotspots 6 Floral diversity of India 7 Distribution of species in different IUCN categories 8 Protected areas of India (as on December 2021) 9 Current statistics as per 2020/21 SDG INDIA for SDG 14 and SDG 15 Climate Change 1 Emission scenario 2 Level of CO<sub>2</sub> emissions 3 Emission trends across four major CO<sub>2</sub> emitters 4 Global emissions and emission gap under the implementation of NDCs for 2030 (median and range in GTCO<sub>2e</sub>) 5 Sector-wise national GHG emission (in MT) 6 Current status of state action plans on climate change · Carbon dioxide emissions across regions (in MTCO<sub>2</sub>) · Missions under National Action Plan on Climate Change · Projects sanctioned under National Adaptation Fund on Climate Change · State-wise projects with outlay sanctioned under National Adaptation Fund on Climate Change List of Figures Energy and Environment: an overview 1 Fuel-wise end-use energy consumption in 2020/21 2 Overall energy supply and consumption in India in 2020/21 3 Coal reserves in India as on 1 April 2021 4 Coal transportation by various modes 5 Trend in natural gas production and import dependency 6 Trend in petroleum products' consumption in India 7 Installed generation capacity (as of March 2022) 8 Growth rate of electricity generation (2021/22) 9 Grid power and their percentage share till May 2022 10 Growth of renewable energy sources 11 Installed solar capacity (2017–22) 12 Electricity consumption in the agriculture sector 13 Number of diesel and electric pumps used in India 14 Global CO<sub>2</sub> emission from transport subsectors (2000–20 15 Percentage of electricity consumers in residential sector to total power consumed by all sectors 16 Commercial energy consumption by use 17 Residential energy consumption by use 18 State-/UT-wise average ambient air quality status of different pollutant parameters for 2008–21 19 Per capita water availability in relation to population 20 Trend of average water table in India from 1980 to 2015 21 Forest cover of India 22 Emission trends across four major CO<sub>2</sub> emitters 23 CO<sub>2</sub> emissions (in MTCO<sub>2</sub>) in India in comparison to GDP (PPP) 24 CO<sub>2</sub> emissions within subsectors in India Coal and Lignite 1 Coal reserves in India as on 1 April 2021 2 Lignite reserves in India as on 1 April 2021 3 Coal and lignite production in India 4 Coal production by CIL and SCCL 5 Production of coal (in %) from opencast and underground mining 6 Coal off-take (in %) by different sectors in India during 2020/21

7 Lignite off-take (in %) by different sectors in India during 2020/21 8 Coal transportation by various modes 9 Year-wise import of coal in India (in MT) 10 Source-wise import of coal in India (in MT) 11 India's export of coal (in %) Petroleum and Natural Gas 1 Status of hydrocarbon reserves 2 Total balance recoverable crude oil and natural gas reserves in India 3 Basin-wise ultimate hydrocarbon reserves as on 1 April 2021 4 Basin-wise in-place hydrocarbon reserves as on 1 April 2021 5 Trend in domestic crude oil production 6 Crude import, product imports, and total imports 7 Crude import, product imports, and total imports 8 Country-wise crude oil imports by India 9 Trend in production of petroleum products from refineries and fractionators 10 Trend in petroleum products' consumption in India 11 Status of petroleum products' consumption during 2021/22 12 Trend in domestic natural gas production 13 Trend in natural gas production and import dependency 14 Trend in consumption of natural gas by different sectors 15 Crude throughput of Indian refineries 16 Trend in gross refinery margin of Indian refineries 17 Trend in subsidies for the sale of petroleum and natural gas in India 18 Share of tax/ duties to total contribution of petroleum sector to exchequer 19 Contribution of taxes from oil and gas industry to the central exchequer 20 Contribution of taxes from oil and gas industry to the state exchequer 21 Trend of excise duty on petrol and diesel vis-a-vis crude oil price in India 22 State-wise collection of States Tax/ VAT/ SGST/ UTGST from the oil and gas industry in 2021 23 Trends in the price of domestic gas produced in India on GCV basis 24 Details of CGD bidding round, geographical areas, percentage of India's population and percentage of India's area with access to CGD network 25 Status of state-/UT-wise PNG - domestic, commercial, and industrial connections Indian sedimentary basins Power 1 Installed generation capacity (as of March 2022) 2 Installed generation capacity by sector as of March 2022 3 Growth rate of installed generating capacity (2021/22) 4 CAGR of installed generating capacity (2012–22) 5 Total generation (including renewable energy sources) 6 Growth percentage of electricity generation 7 Growth rate of electricity generation (2021/22) 8 Electricity generation (2012–22) 9 Growth of gross electricity generation in India by mode (2012–22) 10 PLF of coal- and lignite-based power plants 11 Power supply position: energy 12 Growth rate of energy requirement and availability (2011–22) 13 Power supply position: peak 14 Growth rate of peak demand and met (2011–22) 15 Sector-wise electricity consumption pattern 16 Per capita electricity consumption 17 T&D losses 18 AT&C losses 19 Net import/total export of energy by India 20 Cross-border electricity trade on power exchange platform Renewable Energy 1 Linkages of other SDGs to SDG 7 2 Grid power and their percentage share till May 2022 3 Growth of renewable energy sources 4 Top 10 states in renewable installation (till May 2022) 5 Installed solar capacity (2017–22) 6 Top 10 states grid-connected installed solar capacity (till 12 December 2020) 7 Solar tariff (till March 2020/21) 8 Net solar PV installed from 2018 to 2021 9 State-wise wind power potential at 100 m above ground level 10 Growth of wind energy sector from 2017 to 2022 11 State-wise installed capacity (as on December 2020) 12 Cumulative biomass power, gasification and bagasse cogeneration projects 13 State-/UT-wise cumulative commissioned biomass power, waste-to-power, and bagasse cogeneration grid-connected projects (up to 31 May 2022) 14 Cumulative waste-to-energy/power projects 15 Year-wise cumulative installed capacity of small hydropower 16 Tidal energy potential 17 Target for geothermal energy development Agriculture 1 Production of different agricultural products in India 2 HSD and LDO consumption in the agriculture sector 3 Electricity consumption in the agriculture sector 4 Region-wise electricity consumption in the agriculture sector 5 Production of urea, diammonium phosphate, and other complex fertilizers 6 Consumption pattern of different sources of energy 7 Number of tractors sold 8 Number of power tillers sold 9 Number of diesel and electric pumps used in India 10 Percentage share of major farm machineries used in Indian agriculture 11 Farm power availability and food grain yield 12 Share of major crops in the gross cropped area in India 13 Trend in GHG emission from the agriculture sector in India (in GgCO<sub>2</sub>e) 14 Distribution of GHG emissions by sub-sectors from the agriculture sector from 2011 to 2016 in India 15 Selected state-/UT-wise area covered under micro-irrigation (drip and sprinkler) in India as on 31 March 2021 Industry 1 Share of different processes in crude steel production Transportation 1 Change in CO<sub>2</sub> emission by fossil fuels (2019–21) 2 Global CO<sub>2</sub> emission from transport subsectors (2000–20) 3 Sector-wise change in energy demand in fuel (2000–19) 4 Energy use by passenger and freight modes in India (2000–20) 5 Highways constructed in India over the years 6 Number of registered vehicles from 2001 to 2020 7 Passenger traffic over time 8 Railway electrification routes over time 9 Freight traffic from 2018/19 to 2020/21 10 Total revenue from 2018/19 to 2020/21 11 Major commodities carried by the Indian Railways from 2016/17 to 2020/21 12 Cargo traffic handled at major ports 13 Commodity-wise traffic in major ports for 2021/22 14 National waterways'-wise share of traffic for 2020/21 15 National waterways': commodity profile for 2020/21 16 Passenger traffic over the years 17 Cargo traffic over the years 18 Percentage of domestic cargo as belly cargo and dedicated freighter Comparison of number of EVs over the years Household Energy 1 Source of lighting in Indian households: 2001–11 2 Residential consumers of LPG in India 3 Percentage of power consumer in residential sector to total power consumed by all sectors 4 Consumption of LPG and kerosene in the residential sector 5 Active consumers of LPG in the residential sector 6 Consumption of LPG in the residential sector 7 Consumption of electricity in the residential sector Buildings 1 Daily electricity demand in India in 2019 2 Daily electricity demand in India in the Stated Policies Scenario in 2040 3 Commercial energy consumption by use 4 Residential energy consumption by use 5 Sector-wise growth in cooling demand 6 HVAC load break up in percentage 7 Integrated building design approach 8 Key benefits of integrated design approach 9 Summer sun path and comfort strategy 10 Winter sun path and comfort strategy 11 Building geometry and S/V ratio 12 Rectangular forms and S/V ratios 13 Comparison of single-glazed and triple-glazed, medium-solar-gain low-e glass 14 Building orientation for enhanced ventilation 15 Funneling effect for enhanced natural ventilation 16 Do's and don'ts for correct window placement 17 Do's and don'ts for correct window placement (modified form 18 Positive and negative air pressure zones 19 Stack ventilation 20 Fixed horizontal shading devices 21 Adjustable shading devices 22 (a) Shading cloth and (b) pergolas combined with vegetation 23 Horizontal shading versus vertical shading 24 Daylight factor illuminance 25 Daylight area for massing studies for different shapes of floor plan having similar floor area considering lintel level at 7 feet 26 Daylight area window head height thumb rule (section) 27 Daylight evaluation thumb rule for rectangular or square 28 Atrium rule of thumb 29 Energy reduction with increase in design indoor temperature 30 SDGs related to green buildings and infrastructure 31 National Strategic Plan for Energy Efficiency in Building Sector 32 Highlights of ECBC implementation impact for 2020/21 33 Key objectives of SUNREF programme 34 Percentage growth of cooling requirement in India Air 1 Annual ambient concentration of different pollutants across the country during 2008–21 2 State-/UT-wise average ambient air quality status of different pollutant parameters for the period 2008–21 3 Comparison of number of households using different fuels for cooking in rural and urban areas in India 4 Sectorial contribution to ambient PM<sub>10</sub> and PM<sub>2.5</sub> 5 State-/UT-wise number of non-attainment cities in India Institutional framework of air quality governance in India

**The Data Storytelling Workbook** Anna Feigenbaum, Aria Alamalhodaie, 2020-03-10 From tracking down information to symbolising human experiences, this book is your guide to telling more effective, empathetic and evidence-based data stories. Drawing on cross-disciplinary research and first-hand accounts of projects ranging from public health to housing justice, The Data Storytelling Workbook introduces key concepts, challenges and problem-solving strategies in the emerging field of data storytelling. Filled with practical exercises and activities, the workbook offers interactive training materials that can be used for teaching and professional development. By approaching both ‘data’ and ‘storytelling’ in a broad sense, the book combines theory and practice around real-world data storytelling scenarios, offering critical reflection alongside practical and creative solutions to challenges in the data storytelling process, from tracking down hard to find information, to the ethics of visualising difficult subjects like death and human rights.

**TERI Energy and Environment Data Diary and Yearbook (TEDDY) 2014/15** The Energy & Resources Institute (TERI), 2015-03-30 TERI Energy and Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by The Energy and Resources Institute (TERI) since 1986. It is the only comprehensive energy and environment yearbook in India which provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, residential, and commercial sectors), and environment (local and global). It also provides a review of the government policies that have implications on energy and environment in India. Each edition of TEDDY contains India's commercial energy balances for the last four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations working on energy and related sectors. After the introductory chapters, TEDDY has been divided into sections on energy supply, energy demand, and local and global environment. The twenty-ninth edition of the publication, TEDDY 2014/15, comes with several interesting features. The Green Focus at the end of each chapter highlights sustainable initiatives and successful practices. The publication also features a section with a discussion around sustainable development goals and tracking framework for sustainable energy goals at global, national, and sub-national levels. Graphs, maps, and tables have been used in all chapters to explain facts, which make the book an interesting read. In addition, detailed tables at the end of each chapter represent statistical data on energy and environment. The publication is accompanied by a complimentary CD containing full text. The publication is cited in international peer-reviewed journals and policy documents.

**Data + Journalism** Mike Reilley, Samantha Sunne, 2022-12-30 Taking a hands-on and holistic approach to data, Data + Journalism provides a complete guide to reporting data-driven stories. This book offers insights into data journalism from a global perspective, including datasets and interviews with data journalists from countries around the world. Emphasized by examples drawn from frequently updated sets of open data posted by authoritative sources like the FBI, Eurostat and the US Census Bureau, the authors take a deep dive into data journalism's heavy lifting – searching for, scraping and cleaning data. Combined with exercises, video training supplements and lists of tools and resources at the end of each chapter, readers will learn not just how to crunch numbers but also how to put a human face to data,

resulting in compelling, story-driven news stories based on solid analysis. Written by two experienced journalists and data journalism teachers, Data + Journalism is essential reading for students, instructors and early career professionals seeking a comprehensive introduction to data journalism skills.

**TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2022/23**, 2024-01-20 TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Recent changes in the energy sector and environment are depicted with the help of graphs, figures, maps, and tables. The publication also reviews government policies associated with energy and environment. TEDDY 2022/23 gives an account of India's commercial energy balances, extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. Contents of the book are organized into three sections—Energy Supply, Energy Demand, and Local and Global Environment. Interlinkage of SDGs with energy and environment also forms the subject matter of TEDDY 2022/23. The thirty-eighth edition continues to remain less prose intensive with inclusion of more data, represented with the help of infographics, thus making the publication an authentic and interesting read. Key Features: - Provides government policies, programmes, and initiatives in the energy and environment sectors - The analyses given in the publication are based on the exhaustive data, sourced from energy supply, energy demand, and local and global environment sectors - Traces the trend exhibited by energy generation and consumption and its association with the environment Contents: Energy and environment: an overview Energy supply: Coal and lignite • Petroleum and natural gas • Power • Renewable energy Energy demand: Agriculture • Industry • Transport • Household energy • Buildings Local and global environment: Air Quality and Pollution • Solid waste management • Water resource management • Land and forest resource management • Climate change

*Data Visualization Handbook* Juuso Koponen, Jonatan Hildén, 2019-04-01 The data visualization handbook is a practical guide to creating compelling graphics to explain or explore data. It is primarily aimed for designers, journalists, researchers, analysts, and other professionals who want to learn the basics of visualization, but also includes plenty of material for people with intermediate level visualization skills.

**Managing and Sharing Research Data** Louise Corti, Veerle Van den Eynden, Libby Bishop, Matthew Woollard, 2014-02-04 Research funders in the UK, USA and across Europe are implementing data management and sharing policies to maximize openness of data, transparency and accountability of the research they support. Written by experts from the UK Data Archive with over 20 years experience, this book gives post-graduate students, researchers and research support staff the data management skills required in today's changing research environment. The book features guidance on: how to plan your research using a data management checklist how to format and organize data how to store and transfer data research ethics and privacy in data sharing and intellectual property rights data strategies for collaborative research how to publish and cite data how to make use of other people's research data, illustrated with six real-life case studies of data use.

BLS Data Files on Tape United States. Bureau of Labor Statistics, 1994

*Clinical Data Management* Richard K. Rondel, Sheila A. Varley, Colin F. Webb, 2000-02-03 Extensively revised and updated, with the addition of new chapters and authors, this long-awaited second edition covers all aspects of clinical data management. Giving details of the efficient clinical data management procedures required to satisfy both corporate objectives and quality audits by regulatory authorities, this text is timely and an important contribution to the literature. The volume: \* is written by well-known and experienced authors in this area \* provides new approaches to major topics in clinical data management \* contains new chapters on systems software validation, database design and performance measures. It will be invaluable to anyone in the field within the pharmaceutical industry, and to all biomedical professionals working in clinical research.

Alpha Beta Zero to Zillion Word Codes for Numbers Dr Godwin Lekwuwa, 2015-12-28 The ABZZ word code system is a method that can be used to convert any given number to word code equivalents. With this method, any given number from zero to zillion can be converted to word codes. The principles of this method are explained in this book. This book also contains a thesaurus that gives two examples of easily derivable and meaningful word code equivalents of every number from 0 to 9,999. It is a forerunner to a proposed online thesaurus that would list word code alternatives of every number from zero to one billion (0–1,000,000,000). For centuries, people have been attracted to the idea of converting numbers to words. One of the major advantages of this is that people would be able to find meaningful word names for phone numbers, passwords, pin numbers, log-in numbers, access codes, etc. Other advantages include the ability to generate prospective number codes based on any words of your choice. Numerous other advantages and uses are elaborated in this book. Word code systems for numbers devised over the centuries have been cumbersome and difficult to use. This has limited their use in everyday life. The ABZZ word code system introduces a new, simpler, and user-friendly system of converting any given numbers to words and vice versa. The principles of the system can be mastered in a few minutes. Regular usage would engrain it as one of our basic thinking processes. The ABZZ is an idea whose time has come.

Right here, we have countless books **Datadiary** and collections to check out. We additionally give variant types and after that type of the books to browse. The standard book, fiction, history, novel, scientific research, as skillfully as various extra sorts of books are readily handy here.

As this Datadiary, it ends occurring being one of the favored ebook Datadiary collections that we have. This is why you remain in the best website to see the unbelievable book to have.

## Datadiary Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Datadiary free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Datadiary free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Datadiary free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Datadiary. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Datadiary any PDF files. With these platforms, the world of PDF downloads is just a click away.

## FAQs About Datadiary Books

1. Where can I buy Datadiary books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Datadiary book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Datadiary books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Datadiary audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Datadiary books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
