***Introducing the New Sexuality Studies*** Nancy L. Fischer, Laurel Westbrook, Steven Seidman, 2022-06-07 Introducing the New Sexuality Studies: Original Essays is an innovative, reader-friendly collection of essays that introduces the field of sexuality studies to undergraduate students. Examining the social, cultural, and historical dimensions of sexuality, this collection is designed to serve as a comprehensive yet accessible textbook for sexuality courses at the undergraduate level. The fourth edition adds 51 new essays whilst retaining 33 of the most popular essays from previous editions. It features perspectives that are intersectional, transnational, sex positive, and attentive to historically marginalized groups along multiple axes of inequality, including gender, race, class, ability, body size, religious identity, age, and, of course, sexuality. Essays explore how a wide variety of social institutions, including medicine, religion, the state, and education, shape sexual desires, behaviors, and identities. Sources of, and empirical research on, oppression are discussed, along with modes of resistance, activism, and policy change. The fourth edition also adds new user-friendly features for students and instructors. Keywords are italicized and defined, and each chapter concludes with review questions to help students ascertain their comprehension of key points. There is also an online annotated table of contents to help readers identify key ideas and concepts at a glance for each chapter.

**Just Checking Scores** Marisa Burke, 2021-12-16 Marisa Burke is a top-rated, local anchorwoman at one of the most respected local ABC affiliates in the country. She enjoys celebrity status, six-figure salaries, a gorgeous home, and beautiful family. But rather than reporting the news, Marisa suddenly becomes the subject of it when her husband, an admired educator, the father of her two young girls, and the man she truly believed was her loving soulmate, was arrested for unlawful sexual relationships with underage boys. What was even more excruciating, Marisa was forced to endure the shame and embarrassment of anchoring the same newscasts in which the personally gut-wrenching news stories about her husband's charges were reported. Marisa Burke's shocking memoir, Just Checking Scores reveals what happens when a person at the top is brought

down by public humiliation into a world of deep despair and what Burke did to channel her suffering and anguish into defiance and strength.

*Enabling Romance* Ken Kroll,Erica Levy Klein,1992

**Intel Inside New Mexico** SouthWest Organizing Project,1995 INTEL INSIDE documents the growth of the electronics industry in New Mexico & focuses on the growth of computer chip giant Intel Corporation & its largest & most profitable chip factory near Albuquerque. Attracted to this southwestern desert state by low wages, weak regulatory enforcement, generous public subsidy, & -- amazingly -- cheap water, high-tech companies have left sick workers & contaminated air & water in their wake. INTEL INSIDE tells the story of the siting of Intel's FAB 11 Pentium chip plant in New Mexico & the company's instigation of a bidding war for the new facility between New Mexico & the other states. The book is highly critical of economic development decision making in this era of free trade -- including the inability of local & state governments to look at long term environmental & economic implications of their decisions. A final section of INTEL INSIDE speaks to the need for communities to define for ourselves what development is sustainable, & lists recommendations for governments, communities & the industry. Order from: SouthWest Organizing Project, 211 10th St., SW, Albuquerque, NM 87102, FAX: 505-247-9972.

**Modern Trends in Islamic Theological Discourse in 20th Century Indonesia**

Fauzan Saleh,2001 This book provides new information about the development of Indonesian Muslims' thinking on issues of theology. This theological thought, especially as reflected in the works of the modernist Muslim thinkers, may be seen as a nascent systematic attempt to draw up the essential beliefs of Islam in Indonesian historical and cultural contexts.

People with Disabilities Lisa Schur,Douglas Kruse,Peter Blanck,2013-06-10 To what extent are people with disabilities fully included in economic, political and social life? People with disabilities have faced a long history of exclusion, stigma and discrimination, but have made impressive gains in the past several decades. These gains include the

passage of major civil rights legislation and the adoption of the 2006 UN Convention on the Rights of Persons with Disabilities. This book provides an overview of the progress and continuing disparities faced by people with disabilities around the world, reviewing hundreds of studies and presenting new evidence from analysis of surveys and interviews with disability leaders. It shows the connections among economic, political and social inclusion, and how the experience of disability can vary by gender, race and ethnicity. It uses a multidisciplinary approach, drawing on theoretical models and research in economics, political science, psychology, disability studies, law and sociology.

**School's Out** Catherine Connell, 2014-11-24 How do gay and lesbian teachers negotiate their professional and sexual identities at work, given that these identities are constructed as mutually exclusive, even as mutually opposed? Using interviews and other ethnographic materials from Texas and California, School's Out explores how teachers struggle to create a classroom persona that balances who they are and what's expected of them in a climate of pervasive homophobia. Catherine Connell's examination of the tension between the rhetoric of gay pride and the professional ethic of discretion insightfully connects and considers complicating factors, from local law and politics to gender privilege. She also describes how racialized discourses of homophobia thwart challenges to sexual injustices in schools. Written with ethnographic verve, School's Out is essential reading for specialists and students of queer studies, gender studies, and educational politics.

**The Social Psychology of Disability** Dana Dunn, 2015 The book's overarching message is an important one: The experience of most people with disabilities is not what nondisabled persons anticipate--contrary to the latter's beliefs and expectations, the former can lead full and normal lives. Thus, The Social Psychology of Disability is designed to counter stereotypical or biased perspectives aimed at an often overlooked minority group.--Publisher information.

**Hanni and Beth** Beth Finke, 2007 Hanni, a seeing eye dog, describes how she helps her owner, Beth, to maneuver through the day.

**Crip Theory** Robert McRuer, 2006-06 McRuer makes a case that queer and disabled identities, politics, and cultural logics are inexorably intertwined, and that queer and disability theory need one another. Crip theory makes clear that no cultural analysis is complete without attention to the politics of bodily ability and 'alternative corporealities'.

Signifying Bodies G. Thomas Couser, 2009-10-22 Sheds new light on the memoir boom by asking: Is the genre basically about disability?

*Disability and New Media* Katie Ellis, Mike Kent, 2011-05-11 Disability and New Media examines how digital design is triggering disability when it could be a solution. Video and animation now play a prominent role in the World Wide Web and new types of protocols have been developed to accommodate this increasing complexity. However, as this has happened, the potential for individual users to control how the content is displayed has been diminished. Accessibility choices are often portrayed as merely technical decisions but they are highly political and betray a disturbing trend of ableist assumption that serve

to exclude people with disability. It has been argued that the Internet will not be fully accessible until disability is considered a cultural identity in the same way that class, gender and sexuality are. Kent and Ellis build on this notion using more recent Web 2.0 phenomena, social networking sites, virtual worlds and file sharing. Many of the studies on disability and the web have focused on the early web, prior to the development of social networking applications such as Facebook, YouTube and Second Life. This book discusses an array of such applications that have grown within and alongside Web 2.0, and analyzes how they both prevent and embrace the inclusion of people with disability.
