What Hath God Wrought Daniel Walker Howe, 2007-10-29 The Oxford History of the United States is by far the most respected multi-volume history of our nation. In this Pulitzer prize-winning, critically acclaimed addition to the series, historian Daniel Walker Howe illuminates the period from the battle of New Orleans to the end of the Mexican-American War, an era when the United States expanded to the Pacific and won control over the richest part of the North American continent. A panoramic narrative, *What Hath God Wrought* portrays revolutionary improvements in transportation and communications that accelerated the extension of the American empire. Railroads, canals, newspapers, and the telegraph dramatically lowered travel times and spurred the spread of information. These innovations prompted the emergence of mass political parties and stimulated America's economic development from an overwhelmingly rural country to a diversified economy in which commerce and industry took their place alongside agriculture. In his story, the author weaves together political and military events with social, economic, and cultural history. Howe examines the rise of Andrew Jackson and his Democratic party, but contends that John Quincy Adams and other Whigs--advocates of public education and economic integration, defenders of the rights of Indians, women, and African-Americans--were the true prophets of America's future. In addition, Howe reveals the power of religion to shape many aspects of American life during this period, including slavery and antislavery, women's rights and other reform movements, politics, education, and literature. Howe's story of American expansion culminates in the bitterly controversial but brilliantly executed war waged against Mexico to gain California and Texas for the United States. Winner of the New-York Historical Society American History Book Prize Finalist, 2007 National Book Critics Circle Award for Nonfiction The Oxford History of the United States The Oxford History of the United States is the most respected multi-volume history of our nation. The series includes three Pulitzer Prize winners, a New York Times bestseller, and winners of the Bancroft and Parkman Prizes. The Atlantic Monthly has praised it as the most distinguished series in American historical scholarship, a series that synthesizes a generation's worth of historical inquiry and knowledge into one literally state-of-the-art book. Conceived under the general editorship of C. Vann Woodward and Richard Hofstadter, and now under the editorship of David M. Kennedy, this renowned series blends social, political, economic, cultural, diplomatic, and military history into coherent and vividly written narrative.

The Capitalist Comeback Andrew Puzder, 2018-04-24 Andy Puzder, the former CEO of Carl's Jr. and Hardee's, says that capitalism is not a dirty word, and thankfully President Trump understands this; his pro-business policies will bring back economic growth and secure our future. As a successful CEO in the restaurant industry, Andy Puzder uniquely understands how important the profit motive is to our country's ultimate prosperity. Furthermore, as the grandson of immigrants, the son of a car salesman, and someone who worked his way up from earning minimum wage to running an international business, he has a first-hand view of how America's exceptional capitalist spirit can lift everyone to success. In 2016, the American people faced a stark choice between two very different presidential candidates. Hillary Clinton spent most of her adult life involved in politics and promised to uphold and advance the progressive legacy of President Barack Obama who had first won the White House on promises to spread the wealth around. Donald Trump, on the other hand, came from the business world, was an unapologetic capitalist, used his own personal wealth as inspiration, and promised simply to Make America Great Again. By choosing Trump over Clinton, the American people put a stop to decades of government expansion under progressive leadership, and they might just have saved our economy by doing so. America was once a land where everyone was encouraged to seek their fortune - the more prosperous our citizens, the more our whole society could in turn prosper. But leftist forces in the United States have been seeking to tarnish the pursuit of prosperity and to paint profit as an evil motivation fit only for greedy plutocrats. Andrew Puzder understands this first-hand after a progressive smear campaign stopped him from joining President Trump's cabinet. As Puzder explains in his new book, *The Capitalist Comeback*, this was an act of desperation from a left wing facing irrelevance with a pro-business president in the White House. From its roots in the Progressive Era to labor unions to education to entertainment to its political resurgence with avowed socialist candidates such as Bernie Sanders, Puzder traces the development of the anti-profit forces in the United States and shows how, under President Trump, they can be vanquished for good.

Assessment and Teaching of 21st Century Skills Patrick Griffin, Esther Care, 2014-10-21 This second volume of papers from the ATC21STM project deals with the development of an assessment and teaching system of 21st century skills. Readers are guided through a detailed description of the methods used in this process. The first volume was published by Springer in 2012 (Griffin, P., McGaw, B. & Care, E., Eds., *Assessment and Teaching of 21st Century Skills*, Dordrecht: Springer). The major elements of this new volume are the identification and description of two 21st century skills that are amenable to teaching and learning: collaborative problem solving, and learning in digital networks. Features of the skills that need to be mirrored in their assessment are identified so that they can be reflected in assessment tasks. The tasks are formulated so that reporting of student performance can guide implementation in the classroom for use in teaching and learning. How simple tasks can act as platforms for development of 21st century skills is demonstrated, with the concurrent technical infrastructure required for its support. How countries with different languages and cultures participated and contributed to the development process is described. The psychometric qualities of the online tasks developed are reported, in the context of the robustness of the automated scoring processes. Finally, technical and educational issues to be resolved in global projects of this nature are outlined.

Angel with Two Faces Nicola Upson, 2010-06-29 "As befits a tribute to the golden age of Agatha Christie, Dorothy L. Sayers et. al., there are plot twists, plot turns and red herrings aplenty." –Time Out London Real-life British mystery writer Josephine Tey returns as a fictional sleuth in *Angel with Two Faces*—the second atmospheric mystery in Nicola Upson's wonderfully inventive series. In this riveting sequel to *Expert in Murder*, Tey, in league with intrepid policeman Detective Inspector Archie Penrose, is called upon to help unravel a dark and perplexing crime at a Cornwall country house and backstage at a local theater. Fans of P.D. James and of British noir in general will adore *Angel with Two Faces*—a traditional mystery with a twist—and this writer whom Ms. James herself calls, "A new and assured talent."

The Perfect \$100,000 House Karrie Jacobs, 2007-05-29 A home of one's own has always been a cornerstone of the American dream, fulfilling like nothing else the desire for comfort, financial security, independence, and with a little luck, even a touch of distinctive character, or even beauty. But what we have come to regard as almost a national birthright has recently begun to elude more and more prospective homebuyers. Where housing is concerned,

affordable and well-crafted rarely exist together. Or do they? For years, founding editor-in-chief of Dwell magazine and noted architecture and design critic Karrie Jacobs had been confronting this question both professionally and personally. Finally, she decided to see for herself whether it was possible to build the home of her own dreams for a reasonable sum. *The Perfect \$100,000 House* is the story of that quest, a search that takes her from a two-week crash course in housebuilding in Vermont to a road trip of some 14,000 miles. In the course of her journey Jacobs encounters a group of intrepid and visionary architects and builders working to revolutionize the way Americans think about homes, about construction techniques, and about the very idea of community. By her trip's end Jacobs, has not only had a practical and sobering education in the economics, aesthetics, and politics of homebuilding, but has been spurred to challenge her own deeply held beliefs about what constitutes an ideal home. *The Perfect \$100,000 House* is a compelling and inspiring demonstration that we can live in homes that are sensible, modest, and beautiful.

Creature of the Word Matt Chandler, Eric Geiger, Josh Patterson, 2012-10-01 The Reformers viewed the gospel as not merely one thing among many in the life of a church but rather the means by which the church exists. When the gospel is rightly declared and applied to God's people, the church becomes "a creature of the Word." She understands, embraces, and lives out the reality of Christ's birth, life, death, and resurrection in more than her doctrinal statement. The gospel impacts all the church is and does. *Creature of the Word* lays out this concept in full, first examining the rich, scripture-based beauty of a Jesus-centered church, then clearly providing practical steps toward forming a Jesus-centered church. Authors Matt Chandler, Eric Geiger, and Josh Patterson write what will become a center- ing discussion piece for those whose goal is to be part of a church that has its theology, culture, and practice completely saturated in the gospel.
