Black Mayors, White Majorities Ravi K. Perry,2022-07-19 Recent years have seen an increase in the number of African Americans elected to political office in cities where the majority of their constituents are not black. In the past, the leadership of black politicians was characterized as either deracialized or racialized--that is, as either focusing on politics that transcend race or as making black issues central to their agenda. Today many African American politicians elected to offices in non-majority-black cities are adopting a strategy that universalizes black interests as intrinsically relevant to the needs of their entire constituency. In *Black Mayors, White Majorities* Ravi K. Perry explores the conditions in which black mayors of majority-white cities are able to represent black interests and whether blacks' historically high expectations for black mayors are being realized. Perry uses Toledo and Dayton, Ohio, as case studies, and his analysis draws on interviews with mayors and other city officials, business leaders, and heads of civic organizations, in addition to official city and campaign documents and newspapers. Perry also analyzes mayoral speeches, the 2001 ward-level election results, and city demographics. *Black Mayors, White Majorities* encourages readers to think beyond the black-white dyad and instead to envision policies that can serve constituencies with the greatest needs as well as the general public.

The Complete Idiot's Guide to Journalism Christopher K. Passante,2007-09-04 Breaking news! This is like having J-school in a book. In recent years, news reporting has dramatically changed. While the basic "who, what, when, where, and why" of journalism is still relevant, aspiring journalists are now asking "how?" The 21st century of blogs, instant internet access, and 24-hour news shows with minute-by-minute updates has made reporting a whole new--and very competitive--business. Here, a newspaper veteran answers every question about the new world of journalism, and explores every possibility for success. • Covers TV, radio, magazine, newspaper, e-zine, podcast, and internet reporting • Includes a resource list of media outlets, schools, and university programs • Explores different angles for approaching hard news, entertainment, weather, or sports

Lost Dayton, Ohio Andrew Walsh,2018 Explores Dayton's retail, industrial, entertainment, and residential sites and how they have changed over time.

International Management Dean McFarlin, Paul D. Sweeney, 2014-04-04 McFarlin and Sweeney provide students with an accessible, application-oriented approach to international management, focusing on key challenges including motivation, leadership, and communication across cultural boundaries. The book gives students a global perspective on the process of hiring, training, and developing employees, as well as strategic decision making in relation to foreign markets. Questions, case studies, examples of creative problem solving, and testimonials from real-world managers operating in the international arena are just a few of the tactics McFarlin and Sweeney use to help students begin to think about applied theory on a global level. All chapters have been updated with recent articles from leading business sources and academic journals, and new case studies have been incorporated.

Hidden in the Heartland Nancy Brown Diggs, 2011-03-01 As other teens returned home from school, thirteen-year-old José Silva headed for work at a restaurant, where he would remain until 2:00 a.m. Francisca Herrera, a tomato picker, was exposed to pesticides while she was pregnant and gave birth to a baby without arms or legs. Silva and Herrera immigrated illegally to the United States, and their experiences are far from unique. In this comprehensive, balanced overview of the immigration crisis, Nancy Brown Diggs examines the abusive, unethical conditions under which many immigrants work, and explores how what was once a border problem now extends throughout the country. Drawing from a wide spectrum of sources, Hidden in the Heartland demonstrates how the current situation is untenable for both illegal immigrants and American citizens. A vivid portrait of the immigration crisis, the book makes a passionate case for confronting this major human rights issue—a threat to the very unity of the country.

Corporate Responsibility Archie B. Carroll, Kenneth J. Lipartito, James E. Post, Patricia H. Werhane, 2012-08-30 This landmark history of corporate responsibility documents corporate power and business behaviour from the mid-eighteenth century to the modern day. North of Mulholland Martin M. Cooper, 2010-03 North of Mulholland is a distillation of experiences, opinions, and stories springing from Southern California's San Fernando Valley, but expanding into a world view of where we have been, where we are, and where we may be headed. Mr. Cooper's wide-ranging travels; his fascination with Churchill, antique typewriters, and books; and his critical eye for our surroundings, have spawned more than fifty fascinating essays for the San Fernando Valley Business journal. He takes on everything from strip malls to Countrywide Home Loans; from the Los Angeles Times to technology; and from Los Angeles' City Council to Nebraska's legislature. He ruminates on fire and water; long-gone businesses; living up the street from Michael Jackson's family compound; and the elephant at the Los Angeles Zoo. For those who live or work in the San Fernando Valley, this is a book for you. For those don't live in the San Fernando Valley, this is also a book for you.--Dust
