The Politics of District Elections and Administration in Hong Kong Sonny Shiu-Hing LO, Steven Chung-Fun HUNG, Jeff Hai-Chi LOO, Cody Wai-Kwok YAU, 2023-04-06 The introduction of elections to district advisory bodies during the early 1980s was expected to improve the public delivery of services. However, as time passed, electoral politics led to party politics, elite fragmentation and political struggles. Politicization and hyper-politicization in the Hong Kong Special Administrative Region has brought about a fluctuating pattern between administrative recentralization, the Tsang administration's attempts at decentralization, and the post-2019 administrative recentralization. The purpose of this book is to study the intertwining relationship between district administration and electoral politics. It also examines the political transformation of District Councils after the promulgation of the National Security Law in late June 2020. Written by experts in the field, this book is a good reference source for readers interested in district elections, politics, and administration in Hong Kong.

Higher Education in Ireland, 1922–2016 John Walsh, 2018-11-19 This book explores the emergence of the modern higher education sector in the independent Irish state. The author traces its origins from the traditional universities, technical schools and teacher training colleges at the start of the twentieth century, cataloguing its development into the complex, multi-layered and diverse system of the early twenty-first century. Focusing on the socio-political and cultural contexts which shaped the evolution of higher education, the author analyses the interplay between the state, academic institutions and other key institutional actors – notably churches, cultural organizations, employers, trade unions and supranational bodies. This study explores policy, structural and institutional change in Irish higher education, suggesting that the emergence of the modern higher education system in Ireland was influenced by ideologies and trends which owed much to a wider European and international context. The book considers how the exercise of power at local, national and international level impinged on the mission, purpose and values of higher education and on the creation and expansion of a distinctive higher education system. The author also explores a transformation in public and political understandings of the role of higher education, charting the gradual evolution from traditionalist conceptions of the academy as a repository for cultural and religious value formation, to the re-positioning of higher education as a vital factor in the knowledge based economy. This comprehensive volume will appeal to students and scholars of the Irish education system, educators and practitioners in the field, and those interested in higher education in Ireland more generally.

Delhi OMG! Vinod Nair, Delhi OMG! is the story of one man's struggle for survival in the colorful, yet tough Indian city of Delhi. Summary Of The Book Delhi OMG! is the story of a man named Dinesh. It is set in the big, bad city of Delhi, traversing some of the key places in the city and exposing its shocking underbelly. Dinesh is a middle class man who goes from living in government flats in Netaji Nagar to a posh, luxurious DLF residence. As Dinesh goes about his life in Delhi, he encounters various characters from

all walks of life. His journey also takes him to several hot-spots of the city, acquainting him with a different side of Delhi, a shocking side often hidden under the cloak of superficiality. At once humorous and hard-hitting, the story presents the vibrant as well as the dark side of life in Delhi. The book explores themes like bribery, obsession with foreign women, sex trafficking, and the well-known fixation of Delhiites on the concept of self-image. Common perceptions about the city of Delhi are once again brought to the fore, and perhaps even strengthened by the narrative. Delhi OMG! was first published in 2012 by Om Books International. It received positive reviews. About Vinod Nair Vinod Nair is an Indian management professional and author. He has written books like Dynamics Of Hotel Management Issues And Perspectives, and Delhi OMG!. Born in 1967 in New Delhi, Nair graduated with a B.Com degree from Delhi University. PHYTOREMEDIATION: ROLE OF AQUATIC PLANTS TO TREATMENT OF EFFLUENT DR. A. K. KUSHWAHA, 2020-04-21 Phytoremediation is an emerging cleanup technology for contaminated soils, groundwater, and wastewater that is both low-tech and low-cost. The cleanup technology is defined as the use of green plants to remove, contain, or render harmless such environmental contaminants as heavy metals, trace elements, organic compounds and radioactive compounds in soil or water. Phytoremediation takes advantage of the unique and selective uptake capabilities of plant root systems together with the translocation, bioaccumulation, and contaminant storage/degradation abilities of the entire plant. In the present study *Hydrilla verticillata*, *Pistia stratiotes* and *Lemna minor* aquatic plants are used as phytoremediation treatment of the physico chemical characteristics of effluent.
