M&A Integration Danny A. Davis, 2012-10-29 Most firms of a certain size will turn to Mergers & Acquisitions in their search for growth, forcing almost all managers to face up to the challenge of integration at some point in their career. For many managers it is often their first and only time, and M&A integration is high on the list of things that many managers need to learn more about. According to many studies, 50 to 75% M&A transactions fail to deliver their expected value. One of the main reasons for failure is late or wrong integration, or bad integration management. There is a significant demand for more information on best practice in Post-Merger Integration. This book intends to equip those managers for the task... Danny A. Davis demonstrates how to handle the post-merger integration process and show how to restructure, consolidate, reduce costs, create efficiencies and perform M&A, from smaller transactions to mega-mergers. The focus is on integration planning and delivery. The book combines a general/strategic view with detailed information on how to actually conduct M&A Integration via very practical tools and check lists that will prove essential during pre-deal M&A integration planning and Post deal delivery, as well as to ensure their success.

Success Strategies and Knowledge Transfer in Cross-Border Consulting Operations Roger Svensson, 2000-02-29 *Success Strategies and Knowledge Transfer in Cross-Border Consulting Operations* analyzes the international operations of consulting firms. Apart from developing a theoretical framework which differs from traditional theories about international trade, the main issues analyzed in this book are: 1) Success determinants when tendering for

international consulting contracts; 2) The choice between exports, acquisition of a local firm or establishing a greenfield office when entering foreign markets; 3) The extent and nature of knowledge transfer to emerging markets; 4) The role of development agencies in international consulting projects; 5) The trend towards, and consequences of, more management services included in international projects; 6) The effects on competition when state-owned consulting firms are allowed to operate in the international market. The empirical analysis of these issues is based on a unique database of individual tender documents which Swedish consulting firms have submitted abroad.
