J. Mark Halstead, Michael Jonathan Reiss

Sexuality Education from an Islamic Perspective G. Hussein Rassool, Muhammad Aftab Khan, Shaikh Abdul Mabud, Muhammad Ahsan, 2020-02-13 We live in an over-sexualised culture where sex and sexuality have become part of the public domain. This sexual revolution challenges Judeo-Christian and Islamic norms and boundaries. As such, sexuality education is a sensitive and extremely important issue, and its current implementation in schools has raised public concerns. This book explores the subject, contextualising it within the matrix of Islamic beliefs and practices. Islam binds sexuality and sexual education to a moral grid with rights and obligations, justice and equity. There is a dominant discourse and stereotype around 'Islamic sexuality', which presents sex and sexuality as the biggest taboo, fraught with fear and seldom discussed. This book dispels such myths and misconceptions, providing an overview of sexuality education in the modern world and the need for such education.

Matrimonio Y Moral En El Islam Sayyid Muhammad Rizvi, 2015-11-11 En base a las necesidades de educación en torno a la sexualidad y lo que es lícito e ilícito en el Islam observadas en la comunidad shiita en Toronto, el autor decide escribir este libro con la intención de que sea para sus lectores de utilidad y al mismo tiempo de conocimiento intelectual. En él, el autor revisa primeramente la historia de la moral sexual en occidente para dar al

lector el contexto histórico en el que la sexualidad de occidente se desarrolla contraponiéndose a la visión básica del Islam. Se exploran los aspectos prácticos del matrimonio, las relaciones sexuales, el uso de los anticonceptivos, las nuevas técnicas de reproducción y las diversas opiniones de ijtihad y MuytahiThis book is one of the many Islamic publications distributed by Ahlulbayt Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Ahlulbayt Organization (www.shia.es) is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shi'a School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant folks, Muslims and non-Muslims. Organization's purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought! Books-in-Brief: Rethinking Reform in Higher Education (Spanish - Peninsular European Language) Ziauddin Sardar ,Jeremy Henzell-Thomas,2018-09-01 IIIT Books-In-Brief Series is a valuable collection of the Institute's key

publications written in condensed form to give readers a core understanding of the main contents of the original. The Reform in Higher Education in Muslim Societies is in sum a paradigm shift in perspective driven by important considerations including the aims of education itself. It may require reforming existing disciplines, inventing new ones, as well as working in conjunction with current knowledge(s) and discourses by taking effective account of the ethical, spiritual norms of Muslim society, the guiding principles that it operates under, which in turn mark the underlying basis of its makeup and spiritual identity. Rather than creating divisions, reform of Higher Education in Muslim Societies recognizes the plurality and diversity of the modern networked world, and seeks to replace sterile and uniform approaches to knowledge with a broader and more creative understanding of reality as lived on different soils and different cultures. Moderation, balance and effective communication are paramount features of the underlying philosophy.

Islam in Education in European Countries. Pedagogical Concepts and Empirical Findings Aurora Alvarez Veinguer,Gunther Dietz,Dan-Paul Jozsa,Thorsten Knauth,2009 Relations between Muslims and the public education systems of Europe are often characterised by tensions. There is often still a perceived incompatibility between the claims of individual Muslims or Muslim communities on the one hand and the aims of public education in Europe on the other. The relatively recent presence of Islam in much of Europe, the internal diversity of Muslim communities, the lack of a centralized, hierarchical church-like structure – different arguments are used to justify such a discriminatory treatment of one of the largest faith communities in Europe. Nevertheless, as this book aims to illustrate, there are already rich and diverse experiences throughout Europe of how to integrate Islam into the

national and regional school systems, particularly in primary, but also in secondary education. Accordingly, this book provides some analyses of the ways in which Islam is integrated in education in certain regions of Spain, the Netherlands, France and England. These analyses are paralleled by empirical findings concerning the role of religion in the life of young Muslims, their views concerning religion in school, and the impact of religion in education and society in Spain, the Netherlands, Norway, Germany, France and England.

Religion, Politics, and Globalization Galina Lindquist, Don Handelman, 2012-01-15 While social scientists, beginning with Weber, envisioned a secularized world, religion today is forthrightly becoming a defining feature of life all around the globe. The complex connections

between religion and politics, and the ways in which globalization shapes these processes, are central themes explored in this volume by leading scholars in the field of religion. Does the holism of numerous past and present day cosmologies mean that religions with their holistic orientations are integral to human existence? What happens when political ideologies and projects are framed as transcendental truths and justified by Divine authority? How are individual and collective identities shaped by religious rhetoric, and what are the consequences? Can mass murder, deemed terrorism, be understood as a form of ritual sacrifice, and if so, what are the implications for our sensibilities and practices as scholars and citizens? Using empirical material, from historical analyses of established religions to the everyday strife of marginalized groups such as migrants and dissident movements, this volume deepens the understanding of processes that shape the contemporary world.

Spain, a Global History Luis Francisco Martinez Montes,2018-11-12 From the late fifteenth to the nineteenth centuries, the Hispanic Monarchy was one of the largest and most diverse political communities known in history. At its apogee, it stretched from the Castilian plateau to the high peaks of the Andes; from the cosmopolitan cities of Seville, Naples, or Mexico City to Santa Fe and San Francisco; from Brussels to Buenos Aires and from Milan to Manila. During those centuries, Spain left its imprint across vast continents

and distant oceans contributing in no minor way to the emergence of our globalised era. This was true not only in an economic sense-the Hispano-American silver peso transported across the Atlantic and the Pacific by the Spanish fleets was arguably the first global currency, thus facilitating the creation of a world economic system-but intellectually and artistically as well. The most extraordinary cultural exchanges took place in practically every corner of the Hispanic world, no matter how distant from the metropolis. At various times a descendant of the Aztec nobility was translating a Baroque play into Nahuatl to the delight of an Amerindian and mixed audience in the market of Tlatelolco; an Andalusian Dominican priest was writing the first Western grammar of the Chinese language in Fuzhou, a Chinese city that enjoyed a trade monopoly with the Spanish Philippines; a Franciscan friar was composing a piece of polyphonic music with lyrics in Quechua to be played in a church decorated with Moorish-style ceilings in a Peruvian valley; or a multi-ethnic team of Amerindian and Spanish naturalists was describing in Latin, Spanish and local vernacular languages thousands of medicinal plants, animals and minerals previously unknown to the West. And, most probably, at the same time that one of those exchanges were happening, the members of the School of Salamanca were laying the foundations of modern international law or formulating some of the first modern theories of price, value and money, Cervantes was writing *Don Quixote*, Velázquez was painting *Las Meninas*, or Goya was exposing both the dark and bright sides of the

European Enlightenment. Actually, whenever we contemplate the galleries devoted to Velázquez, El Greco, Zurbarán, Murillo or Goya in the Prado Museum in Madrid; when we visit the National Palace in Mexico City, a mission in California, a Jesuit church in Rome or the Intramuros quarter in Manila; or when we hear Spanish being spoken in a myriad of accents in the streets of San Francisco, New Orleans or Manhattan we are experiencing some of the past and present fruits of an always vibrant and still expanding cultural community. As the reader can infer by now, this book is about how Spain and the larger Hispanic world have contributed to world history and in particular to the history of civilisation, not only at the zenith of the Hispanic Monarchy but throughout a much longer span of time.

Eros and Sexuality in Islamic Art Francesca Leoni, Mika Natif, 2013 Dedicated to the topic of eroticism and sexuality in the visual production of the medieval and early modern Muslim world, this volume offers new insights and methodological models that extend our understanding of erotic and sexual subjects in the Islamic tradition. The essays shed light on the diverse socio-cultural milieus of erotic images, on the motivations underlying their production, and on the responses generated by their circulation.
