The Dumb Money Ben Mezrich,2021-09-07 Named a Best Book of the Year by New York Post! From one of our most innovative and celebrated authors, the definitive take on the wildest story of the year— the David-vs.-Goliath GameStop short squeeze, a tale of fortunes won and lost overnight that may end up changing Wall Street forever. Bestselling author Ben Mezrich offers a gripping, beat-by-beat account of how a loosely affiliate group of private investors and internet trolls on a subreddit called WallStreetBets took down one of the biggest hedge funds on Wall Street, firing the first shot in a revolution that threatens to upend the establishment. It’s the story of financial titans like Gabe Plotkin of hedge fund Melvin Capital, one of the most respected and staid funds on the Street, billionaires like Elon Musk, Steve Cohen, Mark Cuban, Robinhood co-CEOs Vlad Tenev and Baiju Bhatt, and Ken Griffin of Citadel Securities. Over the course of four incredible days, each in their own way must reckon with a formidable force they barely understand, let alone saw coming: everyday men and women on WallStreetBets like nurse Kim Campbell, college student Jeremy Poe, and the enigmatic Keith “RoaringKitty” Gill, whose unfiltered livestream videos captivated a new generation of stock market enthusiasts. The unlikely focus of the battle: GameStop, a flailing brick-and-mortar dinosaur catering to teenagers and outsiders that had somehow held on as the world rapidly moved online. At first, WallStreetBets was a joke—a meme-filled, freewheeling place to share shoot-the-moon investment tips, laugh about big losses, and post diamond hand emojis. Until some members noticed an opportunity in GameStop—and rode a rocket ship to tens of millions of dollars in earnings overnight. In thrilling, pulse-pounding prose, *THE ANTISOCIAL NETWORK* offers a fascinating, never-before-seen glimpse at the outsize personalities, dizzying swings, corporate drama, and underestimated American heroes and heroines who captivated the nation during one of the most volatile weeks in financial history. It’s the amazing story of what just happened—and where we go from here.

East of Eden John Steinbeck,2002-02-05 A masterpiece of Biblical scope, and the magnum opus of one of America's most enduring authors, in a commemorative hardcover edition In his journal, Nobel Prize winner John Steinbeck called East of Eden the first book, and indeed it has the primordial power and simplicity of myth. Set in the rich farmland of California's Salinas Valley, this sprawling and often brutal novel follows the intertwined destinies of two families—the Trasks and the Hamiltons—whose generations helplessly reenact the fall of Adam and Eve and the poisonous rivalry of Cain and Abel. The masterpiece of Steinbeck's later years, East of Eden is a work in which Steinbeck created his most mesmerizing characters and explored his most enduring themes: the mystery of identity, the inexplicability of love, and the murderous consequences of love's absence. Adapted for the 1955 film directed by Elia Kazan introducing James Dean, and read by thousands as the book that brought Oprah's Book Club back, East of Eden has remained vitally present in American culture for over half a century.

Go inside a disparate group of media and tech companies -- Disney, Apple, AT&T/WarnerMedia, Comcast/NBCUniversal and well-funded startup Quibi - as they scramble to mount multi-billion-dollar challenges to Netflix. After spotting Netflix and the deep-pocketed Amazon Prime Video a decade's head start, rivals from the tech and start-up realm (Apple, Quibi) and traditional media (Disney,

WarnerMedia, NBCUniversal) all decided to move mountains to enter the streaming game. At a cost of billions, each went after their own piece of the market, launching five new services in a seven-month span. And just as the derby was heating up, the coronavirus pandemic arrived, a black-swan event bringing short-term benefits but also stiff challenges. The battle for streaming supremacy may end up having more than one winner, but the cost and disruption to decades-old business models have also produced a lot of losers. Binge Times reveals the true costs of the vision quest as companies are turned inside-out and repeatedly redraw their org charts and strategic plans. Stretching from Silicon Valley to Hollywood to Wall Street, it is a mesmerizing, character-rich tale of hubris and ambition, as the fate of a century-old industry hangs in the balance.

Transgenerational Media Industries Derek Johnson, 2019-11-12 Within corporate media industries, adults produce children's entertainment. Yet children, presumed to exist outside the professional adult world, make their own contributions to it—creating and posting unboxing videos, for example, that provide content for toy marketers. Many adults, meanwhile, avidly consume entertainment products nominally meant for children. Media industries reincorporate this market-disrupting participation into their strategies, even turning to adult consumers to pass fandom to the next generation. Derek Johnson presents an innovative perspective that looks beyond the simple category of “kids’ media” to consider how entertainment industry strategies invite producers and consumers alike to cross boundaries between adulthood and childhood, professional and amateur, new media and old. Revealing the social norms, reproductive ideals, and labor hierarchies on which such transformations depend, he identifies the lines of authority and power around which legacy media institutions like television, comics, and toys imagine their futures in a digital age. Johnson proposes that it is not strategies of media production, but of media reproduction, that are most essential in this context. To understand these critical intersections, he investigates transgenerational industry practice in television co-viewing, recruitment of adult comic readers as youth outreach ambassadors, media professionals’ identification with childhood, the branded management of adult fans of LEGO, and the labor of child YouTube video creators. These dynamic relationships may appear to disrupt generational and industry boundaries alike. However, by considering who media industries empower when generating the future in these reproductive terms and who they leave out, Johnson ultimately demonstrates how their strategies reinforce existing power structures. This book makes vital contributions to media studies in its fresh approach to the intersections of adulthood and childhood, its attention to the relationship between legacy and digital media industries, and its advancement of dialogue between media production and consumption researchers. It will interest scholars in media industry studies and across media studies more broadly, with particular appeal to those concerned about the current and future reach of media industries into our lives.
