Decide Steve McClatchy, 2014-01-27 How to make better decisions and achieve your goals What shapes a person's career and life, and defines them as a leader? Their decisions. We all want to be more productive and deliver our best results. But doing this effectively—and consistently over time—is a significant challenge. Managing it all is hard, and leading in today's hyper-paced world is even harder. The good news is that leadership expert Steve McClatchy makes it easier. In *Decide*, McClatchy—who works with Fortune 1000 people every day to help them achieve outstanding levels of performance—shows you how to cut through the complexities and excuses to start realizing real gains simply by changing one thing: the way you make decisions. With McClatchy's help, you can quickly begin to: Use the time you have each day to move your business and your life forward Make decisions that yield better results Waste less time, reduce stress and regain balance Again and again, McClatchy has helped people learn for themselves how great decision-making habits yield a lifetime of accomplishments. Follow McClatchy's no-nonsense and practical approach, and you'll soon manage—and even lead—at your highest level of personal performance.

Deciding to Decide H. W. Perry, 2009-06-01 Of the nearly five thousand cases presented to the Supreme Court each year, less than 5 percent are granted review. How the Court sets its agenda, therefore, is perhaps as important as how it decides cases. H. W. Perry, Jr., takes the first hard look at the internal workings of the Supreme Court, illuminating its agenda-setting policies, procedures, and priorities as never before. He conveys a wealth of new information in clear prose and integrates insights he gathered in unprecedented interviews with five justices. For this unique study Perry also

interviewed four U.S. solicitors general, several deputy solicitors general, seven judges on the D.C. Circuit Court of Appeals, and sixty-four former Supreme Court law clerks. The clerks and justices spoke frankly with Perry, and his skillful analysis of their responses is the mainspring of this book. His engaging report demystifies the Court, bringing it vividly to life for general readers--as well as political scientists and a wide spectrum of readers throughout the legal profession. Perry not only provides previously unpublished information on how the Court operates but also gives us a new way of thinking about the institution. Among his contributions is a decision-making model that is more convincing and persuasive than the standard model for explaining judicial behavior.

Decide Bradley Charbonneau, 2018-10-17 Do you realize how much energy we use by not making a decision? What if you had all of that power? The answer is simple--yet not always easy. In this short-and-powerful book, you'll discover: -- How to stop procrastinating and make the decision--on a regular basis. -- How to celebrate your decisions--so you don't go back on them. -- How to use your mind, heart, and gut to find the best solution--and stick to it. The author, Bradley Charbonneau, often gets the question: "Which of your 12-book Repossible series is the most important?" He answers: Decide. We're going to be a little blunt here: Imagine a fork in the road. One path leads to success, the other to failure. Sure, maybe the road to failure eventually leads to success. But which one do you take? It seems simple, doesn't it? Imagine experiencing these emotions on a regular basis: -- Clarity -- Courage -- Confidence -- Relief -- Joy Then imagine NOT feeling these emotions as often: -- Frustration -- Overwhelm -- Fear -- Doubt -- Regret This is a simple book. It's short. Yet it's powerful--if you learn how to decide. Make the decision to buy your copy of "Decide" today! (See what I did there? ;-))

How Women Decide Therese Huston, 2016-05-10 "An authoritative guide to help women navigate the workplace and their everyday life with greater success and impact" (Forbes). So, you've earned a seat at the table. What happens next? We all face hard decisions every day—and the choices we make, and how others perceive them, can be life changing. There are countless books on how to make those tough calls, but *How Women Decide* is the first to examine a much overlooked truth:

Men and women reach verdicts differently, and often in surprising ways. Stress? It makes women more focused. Confidence? Caution can lead to stronger resolutions. And despite popular misconceptions, women are just as decisive as men—though they may pay for it. Pulling from the latest science on decision-making, as well as lively stories of real women and their experiences, cognitive scientist Therese Huston teaches us how we can better shape our habits, perceptions, and strategies, not just to make the most of our own opportunities, but to reform the culture and bring out the best results—regardless of who's behind them.

How to Decide Annie Duke, 2020-10-13 Through a blend of compelling exercises, illustrations, and stories, the bestselling author of *Thinking in Bets* will train you to combat your own biases, address your weaknesses, and help you become a better and more confident decision-maker. What do you do when you're faced with a big decision? If you're like most people, you probably make a pro and con list, spend a lot of time obsessing about decisions that didn't work out, get caught in analysis paralysis, endlessly seek other people's opinions to find just that little bit of extra information that might make you sure, and finally go with your gut. What if there was a better way to make quality decisions so you can think clearly, feel more confident, second-guess yourself less, and ultimately be more decisive and be more productive? Making good decisions doesn't have to be a series of endless guesswork. Rather, it's a teachable skill that anyone can sharpen. In *How to Decide*, bestselling author Annie Duke and former professional poker player lays out a series of tools anyone can use to make better decisions. You'll learn:

- To identify and dismantle hidden biases.
- To extract the highest quality feedback from those whose advice you seek.
- To more accurately identify the influence of luck in the outcome of your decisions.
- When to decide fast, when to decide slow, and when to decide in advance.
- To make decisions that more effectively help you to realize

your goals and live your values. Through interactive exercises and engaging thought experiments, this book helps you analyze key decisions you've made in the past and troubleshoot those you're making in the future. Together We Decide Craig Freshley, 2022-09-13 Does your group need help making good decisions? All groups—teams, boards, nonprofits, businesses, governments—must make decisions to make forward progress. In organizations large and small, simple and complex, public and private, people need to decide things together. With tips, principles, examples, and stories, Craig Freshley shares the essentials that groups need to make decisions that provide lasting benefits. Practical and authoritative, this friendly guide from a veteran group facilitator is a must-have for those seeking proven techniques for collaborative decision-making. Board members and senior staff in the nonprofit sector—where there's often a high expectation of collaboration—and corporate leaders who have a collaborative, inclusive mindset or culture, will find this book particularly valuable. Freshley's message is especially pertinent to today's world: It's through collaboration, not competition, that groups of the future will create, innovate, and thrive. It is collaboration, not competition that will save us from extinction. Further, collaborative decision making is a skill that can be successfully learned and practiced. Freshley shows groups how. Topics include: Efficient and productive meetings Attitudes that help and hinder group productivity Group decision making steps: from idea to decision to action The supremacy of group culture How to listen well and speak with purpose Conflict prevention, management, and resolution When to apply which type of decision-making method Meeting facilitation theory and techniques

Help Me Decide! Anne Boyd,James Boyd,2000 Challenge students to think critically about their own behavior and decide how to change it as they engage in 40 real-life scenarios such as How Can I Get the Teacher Off My Back?, Caught in the Act! and I Don't Do Drugs. Accompanying activities help kids discover their behavior options, learn to set behavior goals, and then develop strategies for reaching those goals. Creation: Fact or Fiction - You Decide Howard Mishne,2016-09-01 Finally! Heres a book about Creation that you dont have to be a rocket scientist or Bible scholar to understand. For most people, complex biblical and scientific studies of our origin are boring. They make your head spin by the end of the first few pages. Thats not what this book is going to be like for you. This book is for us typical people. When you talk with believers of Creation, some will tell you to just read the Bible. Others say This can only be Gods work or What else could it be? Or they try to poke holes in the well-known theories. Creation is not a theory; its a belief. You either believe it or you dont. So how do you believe in something that nobody can prove? In his first book, Howard Mishne combines interesting and cool facts with basic science to methodically tie it all together. From the universe down to the very unique aspects of our life on earth, he lays out an easy-to-understand perspective in ways you havent thought about before. Instead of trying to answer the questions, Howard lets you decide by

looking at our existence in a different way.

How We Decide Jonah Lehrer, 2010-01-14 The first book to use the unexpected discoveries of neuroscience to help us make the best decisions Since Plato, philosophers have described the decision-making process as either rational or emotional: we carefully deliberate, or we “blink” and go with our gut. But as scientists break open the mind’s black box with the latest tools of neuroscience, they’re discovering that this is not how the mind works. Our best decisions are a finely tuned blend of both feeling and reason—and the precise mix depends on the situation. When buying a house, for example, it’s best to let our unconscious mull over the many variables. But when we’re picking a stock, intuition often leads us astray. The trick is to determine when to use the different parts of the brain, and to do this, we need to think harder (and smarter) about how we think. Jonah Lehrer arms us with the tools we need, drawing on cutting-edge research as well as the real-world experiences of a wide range of “deciders”—from airplane pilots and hedge fund investors to serial killers and poker players. Lehrer shows how people are taking advantage of the new science to make better television shows, win more football games, and improve military intelligence. His goal is to answer two questions that are of interest to just about anyone, from CEOs to firefighters: How does the human mind make decisions? And how can we make those decisions better?
