Deep Blue Home Julia Whitty,2010-07-09 "A lovely, soft-spoken book about the 'joy, inspiration, wonder, laughter, ideas' that come from relating to Earth's 'nonhuman world.'" –Kirkus Review "Here is a writer of power and persuasion; one worthy of the Rachel Carson mantle. Whitty allows us to peer into the ecological web of the mysterious World Ocean, sharing her passion for the continuation of the ocean's life-essential fabric." –Linda Lear, author of Rachel Carson: Witness for Nature "Rhythmic, poetic, transporting, and illuminating, this is the sacred memoir of a woman among islands of miracles, yearning with all her heart to be right where she is." –Carl Safina, author of Song for the Blue Ocean, The View From Lazy Point "An illuminating exploration of the swirling currents connecting oceans, science, people, and history, bearing the reader on a unique voyage of discovery above and below the waves." –Daniel Bennett, President of The Explorers Club –

The Big Blue Turtle Matthew Coleridge,2021-07-22 Why are we here? To learn. However, this is a difficult task as much of the truly useful information is often hidden, and one can have difficulty deciding where to start digging to find it. Following the flow of a seemingly random freestyle writing exercise, The Big Blue Turtle just starts digging. With a humorous tone, it explores the concepts of life and death, drawing from multiple theories and developments in the human world. Can we really survive death? This book argues that we can and provides information on how to do just that. It also discusses a myriad of other intertwining topics, laid out with all the grace of a neighborhood yard sale, upon the tables of which the reader may find something interesting or even useful. Is it new? Of course not. It's a yard sale. But if you dig a bit, you might find something new to you, something of immeasurable value, something that might even shed light on our true purpose in this expansive universe.

Sea Turtles Kara L. Laughlin,2017 Introduces the physical characteristics, behaviors, and life cycle of sea turtles.

The Devil and the Deep Blue Sea Elise Noble,2024-04-30 It all started with a turtle and a pair of designer sunglasses...A bodyguarding gig in the

Caribbean? Living the dream, right? Former Navy SEAL Knox Livingston soon finds out the trip is no vacation. Pop princess Luna Maara is a pain in everyone's ass, including the local judge's. When Luna finds herself sentenced to a month of community service at a turtle sanctuary, Knox hopes she might finally rethink her behaviour, but little does he know, the nightmare is only just beginning. Caro Menefee moved to Valentine Cay to escape her past, and the last thing she needs is a rich brat and her entourage invading the peaceful paradise. Although Knox and his equally cocky buddy sure are pretty to look at. And that's all she's going to do: look. She swore off men before she left California, and she has quite enough to worry about without adding two toned six-packs into the mix. The turtle population is declining at an alarming rate, and she's not convinced it's all down to natural causes. Will Knox help or hinder her quest to save a species? And will Caro join the turtles on the endangered list?

Dream of the Blue Turtle Debbie Dadey, 2014-01-28 Kiki Coral can see the future—can she save a friend from his dangerous fate? Kiki Coral has an amazing gift: she can see the future. She doesn't have visions very often, but they are always surprising! When Kiki sees a vision of her classmate Rocky Ridge coming face-to-frightening-face with a gigantic leatherback turtle, she is frightened to the tip of her shiny purple tail. Deep Blue Steve Backshall, 2023-09-21 Take a deep breath Steve Backshall was nine years old the first time he saw a shark, while on holiday with his family in Malaysia. It was the beginning of a life-long fascination with these 'lords of the sea', and the oceanic life around them. His career as one of the world's most popular naturalists and explorers has taken him to countless underwater places, many never before seen by others. And he's also been witness to the startling decline in fortune of our oceans' wild inhabitants over the past fifty years. Deep Blue is a book a lifetime in the making: a remarkable blend of memoir, travel, and marine and environmental science that takes us on an unforgettable tour of the many worlds of aquatic life: from underwater deserts and rainforests to the evolution of ocean heroes like the sea turtle and the Great White, from the genesis of ocean life to the rapidly declining state of white polar seas and coral reefs. It's both a love letter to our precious oceans and rallying cry for what we must do to save them.

Limu Kimo Armitage,2004-10 Limu was different than all the other Hawaiian sea turtles - he was blue! But while other turtles made fun of him, Limu still had fun growing up in the sea, bodysurfing the big waves, laughing with seals and making friends big and small. Follow Limu's adventures, as he discovers that no matter what he looks like on the outside, others like him because of the good turtle he is on the inside.
