Beyond Heaven: Chicago House Party Flyers from 1983-1989 ,2018-09-15 *Beyond Heaven: Chicago House Party Flyers from 1983-1989* catalogs a collection of flyers and other house music related ephemera from the years 1983 to 1989, courtesy of Mario Liv It Up Luna, a DJ living in the Pilsen neighborhood of Chicago during this time. These flyers, also called pluggers, were used for promotional purposes. They would be placed in record stores and passed out at schools and on the street to help get the word out about upcoming house music events. Although by no means encyclopedic, this collection documents a variety of figures from Chicago's emerging house scene: first generation kings of house alongside the WBMX Hot Mix 5 and other lesser-known DJs at a variety of venues. Also included in the mix are promoters, record stores, labels, and an assortment of party crews and dance groups who contributed to the growth and atmosphere of house music in Chicago. This book offers a taste of what many consider to be the best times of their lives, and for others acts as a gateway to one of greatest eras in the history of Chicago music.

DJ Culture in the Mix Bernardo Attias,Anna Gavanis,Hillegonda Rietveld,2013-10-24 The DJ stands at a juncture of technology, performance and culture in the increasingly uncertain climate of the popular music industry, functioning both as pioneer of musical taste and gatekeeper of the music industry. Together with promoters, producers, video jockeys (VJs) and other professionals in dance music scenes, DJs have pushed forward music techniques and technological developments in last few decades, from mashups and remixes to digital systems for emulating vinyl performance modes. This book is the outcome of international collaboration among academics in the study of electronic dance music. Mixing established and upcoming researchers from the US, Canada, the UK, Germany, Austria, Sweden, Australia and Brazil, the collection offers critical insights into DJ activities in a range of global dance music contexts. In particular, chapters address digitization and performativity, as well as issues surrounding the gender dynamics and political economies of DJ cultures and practices.

Ain't I a Womanist, Too? Monica A. Coleman,2013-04-24 Third wave womanism is a new movement within religious studies with deep roots in the tradition of womanist religious thought—while also departing from it in key ways. After a helpful and orienting introduction, this volume gathers essays from established and emerging scholars whose work is among the most lively and innovative scholarship today. The result is a lively conversation in which 'to question is not to disavow; to depart is not necessarily to reject' and where questioning and departing are indications of the productive growth and expansion of an important academic and religious movement.

Long Relationships: My Incredible Journey From Unknown DJ to Small-time DJ Harold Heath,2021-05-19 Written by former DJ/producer Harold Heath, 'Long Relationships: My Incredible Journey From Unknown DJ to Small-time DJ' is a biographical account of a DJ career defined by a deep love of music and a shallow amount of success. From the days of vinyl, when DJs were often also glass-collectors, to the era of megastar stadium EDM, it's a journey of 30 odd years on a low-level, economy-class rollercoaster through the ups and downs of an ever-changing music industry. 'Long Relationships' is a love letter to DJing and to every small-town DJ who never made it to the big time but whose life was enriched and improved by DJing anyway. It's packed with tales of gigs, clubs, raves, warehouses, music, record production and record deals, low-rent international travel, shady promoters, dodgy club security, magical dance floor moments and much more. If you ever DJed, if you ever lost yourself on a dance floor, or if you ever simply fell in love with the potential contained within a dark basement, a strobe and a sound system, then this story is your story.

Waves and Forms Basile Zimmermann, 2015-05-01 An examination of the relationship between technical objects and culture in contemporary China, drawing on concepts from science and technology studies. Technical objects constrain what users do with them. They are not neutral entities but embody information, choices, values, assumptions, or even mistakes embedded by designers. What happens when a technology is designed in one culture and used in another? What happens, for example, when a Chinese user is confronted by Roman-alphabet-embedded interfaces? In this book, Basile Zimmermann examines the relationship between technical objects and culture in contemporary China, drawing on concepts from science and technology studies (STS). He presents a new theoretical framework for “culture” based on the notions of waves and forms, which provides a powerful descriptive toolkit for technology and culture. The materials Zimmermann uses to develop and illustrate his theoretical arguments come from three groups of case studies about the use of technical devices in today's China. The first and most extensive group consists of observations of electronic music devices in Beijing; the second is a study of a Chinese networking site, “Happy Network”; and the third is a collection of personal, small-scale observations on the way Chinese characters behave when located in alphabet-encoded devices such as mobile phones, web pages, or printed documents. Zimmermann discusses well-known frameworks from STS and combines them with propositions and topics from Chinese studies. Each of the case studies advances his theoretical argument. Zimmermann's account shows how cultural differences can be integrated into STS research, and how sinologists can turn their attention from ancient texts and traditional art to everyday things in present-day China.
