John E. Phillips

**Deer Talk** Don Laubach, Mark Henckel, 2002-08-22 Deer talk is the revolutionary system that brings you close--through the use of common doe sounds and distress calls--to white-tailed and mule deer in all seasons. The book tells hunters, photographers, and wildlife lovers everything they need to know about this remarkable calling system. Includes hunting strategies. 50 photographs.

*Calling Whitetails* Dragan Vujic, 2008-01-16 Calling is the art of deception. One creates a false, but convincing, illusion. There are many methods of calling. This is old knowledge that is currently being rediscovered by modern science. Whitetails rely on three primary sensory systems for survival--auditory, visual and olfactory. Therefore, they can be tricked on any of these levels. The main objective of any form of calling is to manipulate a deer to approach within comfortable shooting distance. This book offers techniques and tactics for luring in whitetails. It illustrates how to fool all three senses of the whitetail.

Irrespective of where they live, all whitetails become creatures of habit. Dragan Vujic has hunted whitetails extensively in the checkered agricultural belts scattered along both sides of the border between Canada and the United States. He shares forty years of hunting experience in this informative book. Initially, Dragan examines and explores the common characteristics of farm country deer.
