**Deer Talk** Don Laubach,2001-04-01 A Main Selection of the Outdoor Life Book Club. Readers learn everything about this remarkable calling system.

*Calling Whitetails* Dragan Vujic,2008 Calling is the art of deception. One creates a false, but convincing, illusion. There are many methods of calling. This is old knowledge that is currently being rediscovered by modern science. Whitetails rely on three primary sensory systems for survival-auditory, visual and olfactory. Therefore, they can be tricked on any of these levels. The main objective of any form of calling is to manipulate a deer to approach within comfortable shooting distance. This book offers techniques and tactics for luring in whitetails. It illustrates how to fool all three senses of the whitetail.

**Illumination in the Flatwoods** Joe Hutto,2018-08 An unforgettable story about the fascinating behavior of the most elusive of wild game birds. When Joe Hutto began his experiment in imprinting two dozen wild turkey--in the tradition of the great animal behaviorist, Konrad Lorenz--he had no idea that it would change his life. Told with skill and humor, and vibrating with the natural wonders of the Florida flatwoods, *Illumination in the Flatwoods* will amaze and enrich all who share this season with the wild turkey.

*How to Hunt Deer Like a Pro* John Phillips, 2017-10-11 How do you know if the land you hunt has a trophy deer on it? Wildlife manager Bob Zaiglin, of Uvalde, Texas and Jim Crumley, the father of modern-day hunting camouflage, tell you how to find out. GPS can make finding and taking that trophy buck easier. This hunting guide will teach you how to hunt big bucks where no one else can find them, how to call deer, and how to become versatile as a deer hunter, so that if one deer tactic doesn't work, another one will. Dr. Keith Causey, retired professor of Wildlife Science at Auburn University, says, Deer of both sexes and all ages leave a wide variety and a large amount of information for other deer in their geological locations at scrapes. Although most people believe that dominant bucks in an area utilize these signposting regions, other deer use these signposts too for information. In the chapter, How to find Bucks at Scrape, Causey describes the best way to hunt a scrape. Brad Harrison of Neosho, Missouri, is a nationally-known videographer, professional deer hunter and master at calling deer. Another master is Will Primos of Primos Game Calls. These two experts will tell the best deer calls and when to use them in this book. One question that's mystified deer hunters for many years, is how to know when bucks move. And for over 20 years, Bo Pitman, lodge manager of White Oak Plantation, has been studying deer movement patterns. He explains what types of conditions are best for predicting deer movement. How do you hunt deer in the snow? Norm LeBrun, of Quebec, Canada, a guide at Anticosti Island, hunts deer in the snow almost all year long and provides timely insights on how and where to take big bucks under these conditions. Eddie Salter lives in Alabama and Mark Drury in Missouri, and these two master deer hunters give you hunting tips for when the weather is hot and for hunting in swamps. Dr. Robert Sheppard

tells you about some tricks that bucks play on whitetail deer hunters. There are also two chapters on how to hunt bucks at the end of deer season and a chapter on how to train bucks to come to you, so you don't have to go find them. For 50 years, I've been studying and hunting with some of the best whitetail hunters from around the country and in Canada, and this book is the combined knowledge of these time-tested, deer-hunting professionals. If you want to learn how to be a hunter, you need to have this book.
