*Special Operations Case Studies* Lt Gen Prakash Katoch,2019-10-21 This book in four sections covers the 'Operational Milieu and Special Operations', 'Successful Special Operations', 'Failed Special Operations', and 'Implications for India'. It covers regular, irregular and mixed operations under the rubric of hybrid warfare of select foreign militaries, and Indian experience in sub-conventional operations. A myriad of successful and failed special operations covering a span of over seven decades from 1943 onwards have been analyzed in detail, drawing lessons from each. The last Section, 'Implications for India', covers lessons, challenges and recommendations in three chapters. These highlight India's adverse strategic asymmetry vis-a-vis China-Pakistan, inability of India to put in place SOF structures to optimize the considerable SF potential for employment at the strategic, operational and tactical levels, and ending up with policy recommendations.

*Indian Defence Review* Bharat Verma,2013-01-19 'Indian Defence Review' is a quarterly publication which summarises opinions and strategic responses on the sub-continent. In addition to defence and security analyses, each issue also includes regular features on aerospace trends, naval affairs and army force developments, including the latest arms transfer and news.

**Pakistan's Security and the India-US Strategic Partnership** Syed Shahid Hussain Bukhari,2020-09-15 This book explores the relationship between the developing India-US strategic Partnership and Pakistan's security. It assesses India and the US's areas of cooperation to show that the partnership will bring drastic changes for India's military capabilities and modernization of its forces. The book shows that, in addition to enhancing India's domestic nuclear stockpiles through the nuclear cooperation agreement, collaboration in high-tech areas such as space and innovative technologies will enable India to acquire sophisticated delivery systems as well as surveillance capacity. The author argues that these advancements will enable India to destabilize the strategic balance in the region. The book also briefly explores the nuclear doctrines of India and Pakistan that provide an insight into the role of nuclear weapons in maintaining deterrence in the region. To understand the power dynamics caused by the strategic partnership and their impact on strategic stability in South Asia, the author utilizes the Balance of Power and Power Transition theories. A timely analysis of the India-US Strategic Partnership with a Pakistan angle, the book will be of interest to academics working in the fields of Asian security, Asian politics, especially South Asia, strategic studies, international relations, political science, nuclear non-proliferation, conflict studies, arms control, and security studies.

**Joint by Design** Robbin Laird,2021-03-09 In the midst of the COVID-19 crisis, the prime minister of Australia, Scott Morrison, launched a new defense and security strategy for Australia. This strategy reset puts Australia on the path of enhanced defense capabilities. The change represents a serious shift in its policies towards China, and in reworking alliance relationships going forward. Joint by Design is focused on Australian policy, but it is about preparing liberal democracies around the world for the challenges of the future. The strategic shift from land wars to full spectrum crisis management requires liberal democracies to have forces lethal enough, survivable enough, and agile enough to support full spectrum crisis management. The book provides an overview of the evolution of Australian defence modernization over the past seven years, and the strategic shift underway to do precisely that.

Look East, Cross Black Waters Jonah Blank,Jennifer D. P. Moroney,Angel Rabasa,Bonny Lin,2015-10-13 India's core goals for Southeast Asia are in basic harmony with those of the United States, including regional stability, peaceful settlement of territorial disputes, and containment of radicalism Still, America should not expect India to enter any sort of alliance, nor join any coalition to balance against China, but should demonstrate strategic patience and willingness to cultivate a long-term relationship.

Disaster, Diversity and Emergency Preparation L.I. Magnussen,2019-11-06 One of NATO's objectives is a better understanding of the human and social aspects of security-related issues. This book presents the proceedings of the NATO Science for Peace and Security Advanced Research Workshop (ARW), Leadership Development Programme on Gender and Diversity, Peace, Risk and Emergency Preparedness and Collaboration, held in Tønsberg, Norway, on 11-12 December 2018, one of the aims of which was to strengthen organizational leadership. The workshop firmly established the collaboration between Japan and other NATO countries with regard to Women, Peace and Security (WPS). The workshop gave the participating leaders and researchers an opportunity to meet and debate, to learn and to build networks of leaders for change. This book consists of fourteen chapters, including a summarizing introductory chapter. It explores topics related to the way in which continued progress and change in institutional behaviors require an approach focused on altering perspectives, and enhancing the skill sets of leaders. Each chapter stands alone, but is ordered within the framework of the Societal Programme Model (SPM) described in Chapter 1. The book will be of interest to all those involved in building leadership and changing institutional behavior.

*Rebuilding Arab Defense* BILAL Y. SAAB, 2023-10-17 A valuable contribution. . . clear, well-organized, and accessible.--David Des Roches, Middle East Journal Timely and informative. --Dr. Robert Mogielnicki, Parameters A convincing analysis of the historical, political, and cultural factors impacting American attempts to assist Middle Eastern states in creating combat-capable military forces and supporting defense institutions. --Jeff Jager, Foreign Area Officer Association Journal of International Affairs Well-written and impeccably researched, Rebuilding Arab Defense makes an invaluable contribution to scholarship and US policy on security sector assistance. --Daniel L. Byman, Georgetown University Saab's expertise is truly impressive. He writes with clarity and conviction on a topic whose policy prominence and strategic significance are only going to increase. --Michael Nagata, US Army Lieutenant General (Ret.), former SOCCENT Commander At a time when the US is looking to reduce its defense commitments in the Middle East, it has become vitally important to find better ways to help our allies there defend themselves. It is for this reason that Bilal Saab's terrific Rebuilding Arab Defense is so important. Saab lays out in clear, straightforward fashion what institutions are required, and how the US and our Arab allies can build them together.--Kenneth M. Pollack, American Enterprise Institute Bilal Saab has written a sharp and comprehensive analysis of US military assistance programs in the Middle East. His advice is well worth heeding.--Anthony C. Zinni, US Marine Corps General (Ret.), former CENTCOM Commander An excellent book.... Saab correctly diagnoses the problems of security cooperation on both our end and that of our Arab partners and provides bold yet applicable solutions.--James N. Mattis, US Marine Corps General (Ret.), former US Secretary of Defense Rebuilding Arab Defense should be mandatory reading for Middle East security scholars and practitioners alike. --Joseph L. Votel, US Army General (Ret.), former CENTCOM Commander After decades of US military assistance in the Middle East--providing expensive weapons systems and conducting military exercises--why are the military capabilities of US allies in the region still lacking? Why does it matter? And what can be done to remedy the status quo? Bilal Saab addresses these vexing questions through a set of in-depth case studies. Identifying the pitfalls of diverse assistance programs, Saab convincingly demonstrates the importance of institution building in efforts to achieve effective security cooperation in a region that remains of great strategic significance. CONTENTS: The US-Arab Security Partnership. US Military Assistance: Old vs. New Model. Saudi Arabia: Rebuilding Everything. Jordan: Still Falling Short. Lebanon: Working Against All Odds. The United Arab Emirates: Breaking New Ground. Cultural and Structural Challenges. Achieving Security Cooperation.

**Battle Brothers : Four Siblings, Two Wars, One Valiant Family** Karan Oberoi, Kiran-Nirvan, 2022-05-02 Having witnessed the horrors of the 1965 War, Captain Manjit Singh Oberoi sided with his mother against the decision of sending a young Avinder to serve in the armed forces, much against the wish of his elder brother, Captain Bhupinder Jit Singh Oberoi, and father, retired SSP Sardar Tarlok Singh, who consider serving the nation a clan vocation. For Bhupinder, it was also a shot at redemption for his personal defeat in the war. Sandwiched between their divided views, Avinder Jeet Singh Oberoi joins the armed forces. But when he goes missing in action during the 1971 War, Manjit accuses Bhupinder for putting their brother in harm's way. While Bhupinder embarks on a personal quest to find and save Avinder, Manjit finds himself in a situation on the western border where only infinite courage can save him. What will be the ultimate fate of the Oberoi brothers? Read this story of extraordinary soldiering, unparalleled brotherhood and deep-rooted family values, and witness how the Oberoi brothers, divided by the 1965 War, find themselves united after the war of 1971.

**New Directions in India's Foreign Policy** Harsh V. Pant, 2019-03-21 India's foreign policy has witnessed a dramatic transformation since the end of the Cold War. Though academic study of Indian foreign policy has also shown a degree of maturity, theoretical developments have been underwhelming. Scholars have introduced new concepts and examined Indian foreign policy through new prisms, but a cohesive research agenda has not yet been charted. This volume intends to fill that void. It brings together new cutting-edge research in the field of Indian foreign policy - both at the theoretical and empirical level - so as to shape the discourse on foreign policy of one of the most important players in global politics. This volume explores key concepts like 'constructivism' and 'territoriality' and analyses their contribution to the academic discourse on Indian foreign policy. Issues such as the 'Indo-Pacific' and the 'responsibility to protect' have also been examined to address the expanding horizons of Indian foreign policy.

**Strategic Warning Intelligence** John A. Gentry, Joseph S. Gordon, 2019-03-01 John A. Gentry and Joseph S. Gordon update our understanding of strategic warning intelligence analysis for the twenty-first century. Strategic warning--the process of long-range analysis to alert senior leaders to trending threats and opportunities that require action--is a critical intelligence function. It also is frequently misunderstood and underappreciated. Gentry and Gordon draw on both their practitioner and academic backgrounds to present a history of the strategic warning function in the US intelligence community. In doing so, they outline the capabilities of analytic methods, explain why strategic warning analysis is so hard, and discuss the special challenges strategic warning encounters from senior decision-makers. They also compare how strategic warning functions in other countries, evaluate why the United States has in recent years emphasized current intelligence instead of strategic warning, and recommend warning-related structural and procedural improvements in the US intelligence community. The authors examine historical case studies, including postmortems of warning failures, to provide examples of the analytic points they make. Strategic Warning Intelligence will interest scholars and practitioners and will be an ideal teaching text for intermediate and advanced students.
