Architectural Conservation in Asia John H. Stubbs, Robert G. Thomson, 2016-11-10 At a time when organized heritage protection in Asia is developing at a rapid pace, *Architectural Conservation in Asia* provides the first comprehensive overview of architectural conservation practice from Afghanistan to the Philippines. The country-by-country analysis adopted by the book draws out local insights, experiences, best practice and solutions for effective cultural heritage management that will inform study and practice both in Asia and beyond. Whereas architectural conservation in much of the Western world has been extensively documented, this book brings together coverage of many regions where architectural conservation has been understudied. Following on from the highly influential companion volumes on global architectural conservation and architectural conservation in Europe and the Americas, with this book the authors extend their pioneering global examination to the dynamic and evolving field of architectural conservation in Asia. Throughout the book, the authors and regional experts provide local case studies and profile topics that bring depth and insight to this ambitious study. As

architectural conservation becomes increasingly global in practice, this book will be of considerable assistance to architectural conservation practitioners, site managers and students of architecture, planning, archaeology and heritage studies worldwide.

Delhi Sam Miller, 2010-07-20 A provocative portrait of one of the world's largest cities, delving behind the tourist facade to illustrate the people and places beyond the realms of the conventional travelogue Sam Miller set out to discover the real Delhi, a city he describes as "India's dreamtown—and its purgatory." He treads the city streets, making his way through the city and its suburbs, visiting its less celebrated destinations—Nehru Place, Rohini, Ghazipur, and Gurgaon—which most writers and travelers ignore. His quest is the here and now, the unexpected, the overlooked, and the eccentric. All the obvious ports of call make appearances: the ancient monuments, the imperial buildings, and the celebrities of modern Delhi. But it is through his encounters with Delhi's people—from a professor of astrophysics to a crematorium attendant, from

ragpickers to members of a police brass band—that Miller creates this richly entertaining portrait of what Delhi means to its residents, and of what the city is becoming. Miller, like so many of the people he meets, is a migrant in one of the world's fastest growing megapolises, and the Delhi he depicts is one whose future concerns us all. He possesses an intense curiosity; he has an infallible eye for life's diversities, for all the marvelous and sublime moments that illuminate people's lives. This is a generous, original, humorous portrait of a great city; one that unerringly locates the humanity beneath the mundane, the unsung, and the unfamiliar.

Delhi Elizabeth Chatterjee, 2013-12-02 '... nobody who lives there, nobody at all, has much good to say about Delhi.' Along with Milton Keynes, Detroit and Purgatory, Delhi is one of the world's great unloved destinations. So when Elizabeth Chatterjee makes her way from the cool hum of Oxford to the demented June heat of heat of Delhi to research her PhD, she find herself both baffled and curious about the je ne sais quoi of this city of 'graveyards and tombstones'. As flâneur and sagacious resident, Liz takes us through the serpentine power structures, the idyll, the bullshit-peeling layer after layer of the city's skin to reveal its aspirations, its insecurity, its charm and finally its urban dissonance. Uncannily perceptive, predictive, and hysterical, Delhi Mostly Harmless puts a firm finger on the electric pulse of Delhi.
