**Mastering Structural Heart Disease** Eduardo J. de Marchena,Camilo A. Gomez,2023-01-09 MASTERING STRUCTURAL HEART DISEASE A COMPREHENSIVE AND IN-DEPTH GUIDE TO MANAGING THE TREATMENT OF STRUCTURAL HEART DISEASE In Mastering Structural Heart Disease, a team of distinguished experts in interventional cardiology deliver a complete and robust explanation of nearly all present-day structural heart disease devices, their appropriate uses, and technical tricks to help ensure treatment success. The text is written in a Socratic, “question-and-answer” format which is designed to help readers absorb and retain knowledge. Online clinical cases and vignettes supplement the material in the book, providing a comprehensive overview of the subject. The authors combine the latest techniques, devices, clinical research trials, future directions, and innovation ideas into a single, practical, and accessible study and practice resource. From transcatheter valvular interventions, interventions for selected adult congenital structural diseases, and a variety of other cardiac disorders that require intervention, readers will find coverage of the treatment of virtually every structural disease they’re likely to encounter in practice. They’ll also find: A thorough introduction to structural interventions for the aortic valve, including the natural history, hemodynamic assessment and transcatheter interventions Comprehensive explorations of structural interventions for the mitral valve, including imaging assessment and procedural planning with dedicated imaging tools prior to mitral valve edge to edge repair and transcatheter mitral valve replacement Practical discussions of structural interventions for the

tricuspid and pulmonic valves, including intraprocedural imaging, devices and techniques Extensive treatments of structural interventions for the left atrial appendage and management of perivalvular leaks Complete discussion of the latest devices and techniques for pulmonary embolism interventions, renal denervation and mechanical support for structural interventions Perfect for interventional cardiologists, general cardiologists, and cardiac surgeons, Mastering Structural Heart Disease will also earn a place in the libraries of fellows in training and internists seeking a comprehensive guide to the management of structural heart disease.

Hot Zone Christopher Teale Howes,2012-09-26 This memoir is a riveting account of what it's like to be a professional firefighter, from rookie to chief officer, over the course of a 31-year career. The anecdotes are funny, sad, and grim: all serve to educate readers about a profession that many dreamed about when they were

children but would never pursue or truly understand. Chief Howes provides a better understanding of the profession and respect for the men and women who protect our communities by relating his own experiences as well as those of other firefighters in some of the busiest stations in the country. The author is donating 10% of royalties to the National Fallen Firefighters Foundation, the nonprofit group dedicated to the development and expansion of programs to honor our fallen fire heroes and assist their families and coworkers.

Surviving Alex Patricia A. Roos, 2024-05-17 In 2015, Patricia Roos's twenty-five-year-old son Alex died of a heroin overdose. Turning her grief into action, Roos, a professor of sociology at Rutgers University, began to research the social factors and institutional failures that contributed to his death. *Surviving Alex* tells her moving story—and outlines the possibilities of a more compassionate and effective approach to addiction treatment. Weaving together a personal narrative and a sociological perspective, *Surviving Alex* movingly describes how even children from “good families” fall prey to addiction, and recounts the hellish toll it takes on families. Drawing from interviews with Alex's friends, family members, therapists, teachers, and police officers—as well as files from his stays in hospitals, rehab facilities, and jails—Roos paints a compelling portrait of a young man whose life veered between happiness, anxiety, success, and despair. And as she explores how a punitive system failed her son, she calls for a community of action that would improve care for substance users and reduce addiction, realigning public health policy to address the overdose crisis.
