News Values Paul Brighton,Dennis Foy,2007-11-19 Written by two practitioner-academics (who between them have more than fifty years of news industry experience), *News Values* analyses the shape of the news industry - a world of rolling news and multimedia platforms, and a world where broadcast news is increasingly considered another element of show business. Detailed chapters include critiques of existing theories, close study of the newspaper, radio, television and internet news channels, plus informative chapters on the many factors that shape the news we read, watch and hear including the role of the citizen journalist, user-generated content, spin doctors, and the new wave of press barons. Further chapters provide detailed analysis of the way in which the same story is treated across different media channels, and how journalists and editors work to keep breathing new life into rolling news stories.

Media and Public Life Everette E. Dennis, Robert W. Snyder, For over a decade the *Media Studies Journal* has joined in the debate about the media and proposed solutions to problems that divide the media and the public. Its contributions by leading figures in print and other media have helped better professional, scholarly, and public understanding of the media's role in society. During this time, the world has experienced vast changes, with the end of the cold war and the rise of democracies and market economies almost every where--conditions that have generally benefited freedom of expression. *Media and Public Life* is a retrospective of ten years of some of the most arresting published work derived from the *Media Studies Journal*. Some of the journal's most enduring essays appear in this volume. Among them are: *How Vast the Wasteland Now?* by Newton N. Minow; *In the South--When It Mattered to Be an Editor* by Dudley Clendinen; *Seething in Silence--News in Black and White* by Ellis Cose; *Requiem for the Boys on the Bus* by Maureen Dowd; *The Flickering Images That May Drive Presidents* by Robert MacNeil; and *The Inevitable Global Conversation* by Walter B. Wriston. *Media and Public Life* reflects the diversity of issues and perspectives that has been a trademark of the *Media Studies Journal*. The chapters aptly depict the growing field of communication and media studies. Many ideas are taken into consideration, including the great functions of communication (like information, opinion, entertainment, and publicity), trends (such as news in the post-cold war period), and specific industries (such as radio and book publishing). Throughout the book the consequences and impact of media institutions on society and public life are maintained. *Media and Public Life* will be of value to communications specialists, media studies scholars, and sociologists.

Media and Criminal Justice: The CSI Effect Dennis J. Stevens,2011-04-19 Media and Criminal Justice: The CSI Effect illustrates how media coverage and television programs inform the public's perception of criminal justice. The CSI Effect can be characterized as the phenomenon whereby fiction is mistaken for reality and the assumption that all criminal cases can be solved through the employment of hi-tech forensic science such as crime scene investigation and DNA testing as depicted on television crime shows. This text provides broad, balanced, and comprehensive coverage of timely events in CSI, prosecutors, and wrongful convictions. The author explores some common misconceptions and helps readers towards a critical analysis of the information they see in the media and entertainment.
