Randolph C. Hite

Information Technology U.S. Government Accountability Office, 2017-08-03 DHS has responsibility for the development and management of the IT systems for the 22 federal agencies and offices under its jurisdiction. Of its 363 IT investments, 68 are in development and are classified by DHS as a major investment that requires special management attention because of its mission importance. Given the size and significance of these investments, GAO was asked to determine the (1) extent to which DHS IT investments are meeting their cost and schedule commitments, (2) primary causes of any commitment shortfalls, and (3) adequacy of DHS's efforts to address these shortfalls and their associated causes. To address these objectives, GAO analyzed recent cost and schedule performance for DHS's major IT investments, as reported to OMB. To identify the primary cause(s) of any shortfalls and whether any corrective efforts were being taken to address them, GAO analyzed project plans and related documentation and interviewed responsible DHS officials and compared the corrective efforts to applicable criteria to assess their adequacy.

Homeland Security Randolph C. Hite, 2010-03 The Dept. of Homeland Security's (DHS) U.S. Visitor and Immigrant Status Indicator Technology (US-VISIT) program stores and processes biometric and biographic info. to, among other things, control and monitor the entry and exit of foreign visitors. Currently, an entry capability is operating at almost 300 U.S. ports of entry, but an exit capability is not. It has been reported that there are limitations in DHS's efforts to plan and execute its efforts to deliver US-VISIT exit. Recommendations were made to improve these areas. This report determined: (1) the status of DHS's efforts to deliver a comprehensive exit solution; and (2) to what extent DHS is applying an integrated approach to managing its comprehensive exit solution. Information technology United States. Government Accountability Office, 2012

Federal Protective Service Office, U.S. Government Accountability, 2017-08-17 Events such as the February 2010 attack on the Internal Revenue Service offices in Texas, and the shooting in the lobby of the Nevada federal courthouse, demonstrate the vulnerabilities of federal facilities and the safety of the federal employees who occupy them. The Federal Protective Service (FPS) is the primary agency responsible for the security of over 9,000 federal government facilities across the country. The fiscal year 2010 DHS appropriations act transferred FPS from Immigration and Customs Enforcement (ICE) to the National Protection and Programs Directorate (NPPD), within the Department of Homeland Security (DHS). This report addresses (1) the extent to which the FPS transition has been implemented and any remaining related challenges, and (2) the extent to which the transition will help address previously identified challenges to protecting federal facilities. GAO reviewed the 2009 FPS-NPPD transition plan; agreements between FPS, NPPD, and ICE, and best practices for scheduling and cost estimating; and interviewed DHS officials. GAO recommends that DHS improve the schedule for transferring IT services to reflect scheduling best practices, and update the IT transition cost estimate, in accordance with cost-estimating best practices. Coast Guard United States. General Accounting Office, 2004

Homeland Security United States Government Accountability Office, 2017-09-22 DHS's human resources administrative environment includes fragmented systems,

duplicative and paper-based processes, and little uniformity of data management practices, which according to DHS, are compromising the department's ability to effectively carry out its mission. DHS initiated HRIT in 2003 to consolidate, integrate, and modernize DHS's human resources information technology infrastructure. In 2011, DHS redefined HRIT's scope and implementation time frames. GAO was asked to review DHS's efforts to implement the HRIT investment. GAO's objectives included, among others, evaluating the progress DHS has made in implementing the HRIT investment. GAO compared HRIT's goals and scope to the investment's actual accomplishments, and compared DHS's planned schedule for implementing strategic improvement opportunities (key areas identified by DHS as needing improvement) against its current schedule.

Biometric Identity System United States. Government Accountability Office, 2023 DHS currently uses an outdated system, implemented over 29 years ago, for providing biometric identity management services (e.g., fingerprint matching). The system stores over 290 million identities. In 2016, DHS initiated a multi-billion dollar program known as HART, which is intended to replace the legacy system. GAO previously reported that due to several challenges, in 2017 the program breached its schedule baseline. In 2019 the program established new cost and schedule commitments with DHS leadership (referred to as a rebaseline). This resulted in delaying the program by 3 years. This report's objectives were to (1) determine how the HART program has changed since the 2019 baseline, (2) assess the extent to which the program's cost and schedule estimates followed best practices, and (3) assess the extent to which DHS implemented selected privacy requirements for the program. GAO is making nine recommendations to DHS to follow best practices when preparing HART cost and schedule estimates and implement selected privacy requirements for the system.

Secure Border Initiative Randolph C. Hite, 2010-10 The technology component of the Dept. of Homeland Security's (DHS) Secure Border Initiative (SBI), referred to as SBInet, is to put observing systems along our nation's borders and provide Border Patrol command centers with the imagery and related tools and information needed in deciding whether to deploy agents. SBInet is being acquired and deployed in incremental blocks of capability, with the first block to cost about \$1.3 billion. This report determined the extent to which DHS has: (1) defined the scope of its proposed SBInet solution; (2) developed a reliable schedule for this solution; (3) demonstrated the cost-effectiveness of this solution; and (4) acquired the solution using key management processes. Homeland Security: DHS Continues to Be Challenged in Managing Its Multi-Billion Dollar Annual Investment in Large-Scale Info. Tech. Systems Randolph C. Hite, 2010-10 The Dept. of Homeland Security (DHS) invested more than \$6 billion in 2009 on large-scale, info. tech. (IT) systems to help it achieve mission outcomes and transform departmentwide operations. For DHS to effectively leverage these systems as mission enablers and transformation tools, it needs to employ a number of institutional acquisition and IT mgmt. controls and capabilities, such as using an operational and technological blueprint to guide and constrain system investments and following institutional policies, practices, and structures for acquiring and investing in these systems. Also, employing rigorous and disciplined system life cycle

mgmt. processes and having capable acquisition and IT mgmt. workforces.

Review of the Department of Homeland Security's Certification of the Secure Flight Program Stephen M. Lord, 2010-11 The matching of airline passenger info. against terrorist watchlist records is a frontline defense against acts of terrorism that target the our civil aviation system. Passengers identified as matches to the No-Fly list are prohibited from boarding commercial flights, while those matched to the Selectee list are required to undergo additional screening. The TSA has developed an advanced passenger prescreening program -- known as Secure Flight -- that matches passenger info. against terrorist watchlist records. This report discusses the challenges the program has faced, incl.: protecting passenger privacy, completing performance testing, fully defining and testing security requirements, and establishing reliable cost and schedule estimates, among other things.

Dhs Schedule Introduction

In the digital age, access to information has become easier than ever before. The ability to download Dhs Schedule has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Dhs Schedule has opened up a world of possibilities. Downloading Dhs Schedule provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Dhs Schedule has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Dhs Schedule. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge.

These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Dhs Schedule. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Dhs Schedule, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Dhs Schedule has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
