Global Oligopoly Chris Carr,2020-02-18 The era of globalisation brought waves of consolidation in business ownership alongside Leviathan-like state actors. Digital disruption too can leave market power in a relatively small number of hands. In organisational and economic terms, global oligopoly is now a fundamental idea for business and society, which this book explores and analyses. This book focuses on global oligopolies, starting with an analysis of global concentration and profits in all sectors, before moving on to illuminate the geographical spread and global strategic orientation choices and performance outcomes of global oligopoly. Contemporary cooperation modes, such as cross-border M&As and strategic alliances, niche and Emerging Market champion strategies are also analysed in detail to move the reader towards understanding likely future directions for the field. Presenting empirical data on strategies and performance outcomes, the book covers a range of industries to provide practical, research-based guidance for more effective global business strategies and policy perspectives.

**Gin** Moses Jenkins,2019-04-18 Gin is a drink deeply rooted in British culture. From 'Dutch Courage' to 'Gin Soaked', our language is full of expressions which reflect our gin drinking heritage. In the early eighteenth century, Britain was gripped by the Gin Craze, when the drink was dubbed 'mothers ruin', before becoming more respectable as advances in distilling led to a drink of higher quality and improved flavour. This led to the construction of lavish 'gin palaces' in the Victorian and Edwardian era. In recent years a twenty-first century renaissance in gin drinking and craft gin production has led to the drink once again rising high in the national consciousness. Uncovering the mysteries of gin manufacture and production, as well as its fascinating history, this book is a complete guide to Britain's tipple of choice.

*Business Elites and Corporate Governance in France and the UK* M. Maclean,C. Harvey,J. Press,2005-12-08 Business Elites and Corporate Governance in France and the UK is a cross-national study of business elites and corporate governance in France and the UK. It examines corporate governance from a comparative standpoint and looks beneath the surface at the exercise of power and authority in two distinct national business systems. It explores key issues concerning business elites, their networks, recruitment and reproduction. It aims to shed light on the mechanisms that govern the stability and regeneration of business elites against the backdrop of an increasingly global economy.

**Product Design and the Supply Chain** Omera Khan,2018-12-03 Product design touches every aspect of modern life, determining the form and function of the products and technologies that we use every day. Product design is not just concerned with the appearance and functionality of products; it has an important role in determining the cost, pricing, risk and profitability profile of those products. Product Design and the Supply Chain shows how decisions taken at the design stage of a product's life cycle go on to affect that product's subsequent value to a company. Eighty percent of a product's eventual supply chain costs are already present at the early stages of product design and development. This book allows companies to make informed design decisions that have significant positive through-life implications for risk, complexity and responsiveness, thus allowing them to create a 'moat' that is difficult for competitors to sidestep or surmount. Product Design and the Supply Chain contains fascinating content applicable to industry. It is full of useful and insightful real-life cases and examples. This book sets out to show how design impacts: sales revenues, pricing, time to market, manufacturing and supply chain costs, supply chain risks, brand loyalty, and competitiveness.

The Science and Commerce of Whisky 2nd Edition Paul S. Hughes,Ian Buxton,2020-10-29 Since the publication of the first edition in 2014, the whisky industry has continued to change. This book provides the reader with an overview of the latest academic research and industry best practice in an accessible and authoritative format. Despite the recession, new distillation capacity has been added at a record pace and new consumers in new markets have entered the arena. Distillers are experimenting with new finishes, packaging and marketing techniques and amongst

consumers there is a hunger for knowledge and informed commentary. An entirely new chapter discussing the management and utilization of co-products and recent developments in areas such as anaerobic digestion is included along with revisions and updates to most chapters. Written by acknowledged and experienced authorities of the subject, this book provide an up to date treatment of this fast developing area. Aimed at the popular market, it provides a leading text for students of distilling, industry practitioners, new craft distillers and whisky enthusiasts. Review of the 1st Edition 'The authors have clearly put much effort into this book... I enjoyed the book almost as much as I enjoy whisky. Fascinating stuff from cover to cover.' Ian W. Davies, *Chromatographia*, 2014, 77, 1733-1734 'Sometimes, you come across a book that's so comprehensive that it's worth shouting about....a fascinating book that can be engaged with on numerous levels, even if you aren't a student of distilling. Pop it on the shelf and consult it from time to time over the coming years. This might be the only whisky book you'll ever need.' <http://malt-review.com/2014/08/01/book-review-the-science-and-commerce-of-whisky/>

**Chinese Merger Control Law** Tingting Weinreich-Zhao, 2014-11-19 On 1 August 2008 the Chinese Anti-Monopoly Law entered into force, introducing a comprehensive framework for competition law to the Chinese market. One set of the new rules pertains to merger control. China's Ministry of Commerce (MOFCOM) was nominated as the authority responsible for enforcing merger control in China and has been actively doing so ever since. Recent years have established China as one of the most important merger filing jurisdictions for cross-border mergers alongside the EU and USA. This work evaluates the Chinese merger control law regime and MOFCOM's decision-making practice after more than five years of application. In particular, it assesses which policy goals (competition policy goals or industrial policy considerations) prevail in the written law and its application and provides suggestions for a further improvement of the law – with the aim to develop a transparent merger control regime that promotes long-term economic growth in China.

**Drinking Up the Revolution** James Wilt, 2022-07-12 James Wilt exposes the links between the global alcohol industry and capitalism. In *Drinking Up the Revolution*, James Wilt shows us why alcohol policy should be at the heart of any socialist movement. Many people are drinking more now than ever before, as already massive multinationals are consolidating and new online delivery services are booming in an increasingly deregulated market. At the same time, public health experts are sounding the alarm about the catastrophic health and social impacts of rising alcohol use, with over three million people dying every year due to alcohol-related harms. Exposing the links between the alcohol industry and capitalism, colonialism and environmental destruction, Wilt demonstrates the failure of both prohibition and deregulation, and instead focuses on those who profit from alcohol's sale and downplay its impacts: producers, retailers, and governments. Rejecting both the alcohol industry's moralizing against individual "problem drinkers" and the sober politics of "straight-edge" and wellness lifestyle trends, *Drinking Up the Revolution* is not another call for prohibition or more governmental control, but is instead a cry to take back alcohol for the people, and make it safe and enjoyable for all those who want to use it.

**Outsmart the MBA Clones** Dan Herman, 2008 Dan Herman's book is not really about M.B.A.s; it's just badly titled. Actually, his subject is the continuing power of product differentiation, and he is challenging how marketers conceptualize their work. He explains how to electrify consumers by developing innovative products and services that your M.B.A.-clone competitors are reluctant to imitate, thereby handing you a monopoly. Herman comes out swinging as a bold strategist, but because his thinking is both nuanced and complex, his book is sometimes difficult to follow. Still, *getAbstract* considers it a useful text in marketing strategy and recommends it to marketers of all stripes. Even if you decide not to follow Herman's logic down all its paths, you can harness his clever ideas and out-market all those M.B.A. clones.

**Brands and Branding** Rita Clifton, 2009-04-01 With contributions from leading brand experts around the world, this valuable resource delineates the case for brands (financial value, social value, etc.) and looks at what makes certain brands great. It covers best practices in branding and also looks at the future of brands in the age of globalization. Although the balance sheet may not even put a value on it, a company's brand or its portfolio of brands is its most valuable asset. For well-known companies it has been calculated that the brand can account for as much as 80 percent of their market value. This book argues that because of this and because of the power of not-for-profit brands like the Red Cross or Oxfam, all organisations should make the brand their central organising principle, guiding every decision and every action. As well as making the case for brands and examining the argument of the anti-globalisation movement that brands are bullies which do harm, this second edition of *Brands and Branding* provides an expert review of best practice in branding, covering everything from brand positioning to brand protection, visual and verbal identity and brand communications. Lastly, the third part of the book looks at trends in branding, branding in Asia, especially in China and India, brands in a digital world and the future for brands. Written by 19 experts in the field, *Brands and Branding* sets out to provide a better understanding of the role and importance of brands, as well as a wealth of insights into how one builds and sustains a successful brand.

**Instructor's Manual for Strategic Marketing Cases in Emerging Markets** Atanu Adhikari, Sanjit Kumar Roy, 2017-05-27 This is a teaching companion to the case studies provided in the book 'Strategic Marketing Cases in Emerging Markets' and is intended to help teachers and trainers follow a pedagogic line by using the case studies to develop a critical understanding of the service business scenarios and strategies for marketing in emerging markets. The authors provide extensive teaching notes for each of the cases, covering the pedagogy of the case study, the prerequisites to understanding it, case-specific teaching objectives, a suggested teaching approach, and a case synopsis. Each case is then rounded out with suggested discussion questions and concise answers, as well as additional reading to enhance the teaching and learning experience in the classroom.

**Ugandan Music in the Marketing Era** David G. Pier, 2016-04-29 David G. Pier offers an ethnographic study of the Senator Extravaganza traditional dance competition in Uganda, and the performers, marketers, and other actors who were involved in it. Pier illustrates the event as part of a broader moment in Ugandan and African public culture - one in which marketing is playing an increasingly dominant role.

**The International Spirits Industry** John Wakely, 2001-05-25 Although consumption of spirits on a global scale is vast, the spirits industry derives its profits from a relatively small number of countries and product lines. This valuable book provides an overview of all aspects of the industry, covering all major categories of spirits, and

contains a wealth of information on trading statistics, regulations and consumption patterns. It discusses the challenges facing the giant companies, profiling the leading companies in detail, and assesses whether their structure is appropriate to long-term success in the industry. The international spirits industry offers the most comprehensive picture currently available of the dynamics and structure of this fascinating business and shows: How spirits fit into the global business in alcoholic beverages Why the image and popular perception of the alcohol business is so important How health concerns are likely to affect the future of the business How spirits are produced, regulated, distributed and taxed How consumption patterns are changing and why women are becoming more important to the industry What strategies companies can adopt for building brands How profitable the industry is and how the major players are adapting themselves to new challenges such as the Internet Despite the age of alcohol production, the business is in a state of flux with little agreement as to its future. This book provides a valuable insight into this changeable situation and is a unique resource for analysts and economists and all those involved in the production, distribution and sales of spirits worldwide.

**Secrets of the Marketing Masters** Dick MARTIN, 2009-05-15 All the old rules of marketing are up for grabs. Markets are fragmenting and globalizing; consumers have greater control over when and what media they use; and digital technologies have changed how people shop, work, and relax. But a small number of senior marketing leaders know how to engage consumers and keep them coming back. This book reveals the secrets to their success. Featuring exclusive interviews with top consumer and business-to-business marketers at companies like P&G, Unilever, GE, Nortel and American Express, *Secrets of the Marketing Masters* offers insight and practical advice, from how to gain the confidence of your colleagues on the senior team to how win your customers' trust. Marketers will discover how to:

- build a marketing culture
- share results that matter—good and bad
- connect with customers on an emotional level
- find ways to amplify the customer voice within their company
- run marketing like a professional service
- cultivate positive word of mouth both on and offline
- build customer listening posts
- develop forward sensing mechanisms to spot new trends
