Roll Dice, Build Character R Mark Hansen, 2021-04-27 Set your imagination free! We all love fantasy and stories of the imagination. From the fairy tales of our childhood to modern stories of wizarding schools and dragons. Finding a new world to explore is exciting! In the late 70s, the Role-Playing Game (RPG) phenomenon leapt out of middle America and caught the dreams of players on fire! It was a completely new way to play games, immersive and fantastic! But many others didn't understand it, and were afraid. Many people of faith were confused by the depictions of magic and monsters, and tragic real-life stories of unhealthy over-immersion filled the news and other media. Decades later, the games are still going strong and society's skepticism has calmed to general acceptance. But, still, even today, there are many who wonder if role-playing games can be a part of the lives of people of faith. Mark's book will show you that, no matter what rules you choose, RPGs can be not only safe, but an amazing and rewarding tool to help your children discover powerful life lessons in a way that doesn't feel like parental preaching. Kids can learn: Cooperation and teamwork Choices and consequences Kindness, acceptance, and service Social interactions And many other important life skills All while having a great time bonding with family and friends! It's why we love to... Roll Dice, and Build Character! The ideas in this book are compatible with any RPG system. This book is part of the family of novels, books, and games called, *The Hero's Tale*, by Mark Hansen, Brendon Hansen, and Jacob Hansen. It's a family-friendly, story-driven RPG system designed to help families and

friends enjoy imaginative time together!

Mordenkainen Presents: Monsters of the Multiverse (Dungeons & Dragons Book) Dungeons & Dragons,2022-05-17 A bestiary of wondrous friends and foes for the world's greatest roleplaying game Sparkling with the musings of the wizard Mordenkainen, this tome features a host of creatures for use in the Dungeons & Dragons roleplaying game. Compiling and updating monsters that originally appeared in previous D&D fifth edition releases, these creatures represent some of the most benevolent and malevolent forces that D&D heroes might face. The book also gathers together fantastical peoples from many different worlds. Each of these peoples represents a race option when you create your D&D character, expanding on the choices in the Player's Handbook. Includes more than 250 monsters—updates to the monsters include making spellcasters easier for Dungeon Masters to run, giving many monsters more damage and resilience, and improving the organization of the stat blocks themselves Includes more than 30 playable races—brings the game's setting-agnostic races into one book, complementing the races in the Player's Handbook A multiverse of lore—includes updates to monster lore that refocuses their stories on the D&D multiverse, rather than on any particular world

Role-Playing Dice Companion Steven Finlay,2018-12-17 Missing a die for your table top role-playing game? Like to keep things physical, hard copy and old school? Then this is the book for you if you need to simulate a dice roll or two. Whatever role-playing game is your thing, be it Dungeons and Dragons,

Paranoia, Pathfinder, Vampire, Traveller or any other RPG, this book is a must have accessory for any serious player. The Role-Playing Dice Companion provides hundreds of thousands of simulated dice rolls for all popular dice including D4, D6, D8, D10, D12, D16 and D20. A range of non-standard variants are also included such as 1 - 3 and 0 - 7 versions of D6 and D8 respectively. There are even heads and tails and Russian roulette simulators. Multiple dice rolls (up to 6 dice in most cases) are also catered for. If you need to simulate rolling 3 D10's then no problem - just pick a number from the 3D10 table.

Playing at the World Jon Peterson, 2012 Explore the conceptual origins of wargames and role-playing games in this unprecedented history of simulating the real and the impossible. From a vast survey of primary sources ranging from eighteenth-century strategists to modern hobbyists, *Playing at the World* distills the story of how gamers first decided fictional battles with boards and dice, and how they moved from simulating wars to simulating people. The invention of role-playing games serves as a touchstone for exploring the ways that the literary concept of character, the lure of fantastic adventure and the principles of gaming combined into the signature cultural innovation of the late twentieth century.

Sunny Rolls the Dice: A Graphic Novel (Sunny #3) Jennifer L. Holm, 2019-10-01 From the award-winning duo of Jennifer and Matthew Holm comes the third book in the bestselling Sunny series, *Sunny Rolls the Dice* -- full of heart, laughs, and adventure! Too cool for school . . . or the least groovy girl in the grade? Sunny's just made it to middle school . . . and it's making her life very confusing. All her best friend Deb wants to talk about is fashion, boys, makeup, boys, and being cool. Sunny's not against any of these things, but she also doesn't understand why suddenly everything revolves around them. She's much more comfortable when she's in her basement, playing Dungeons & Dragons with a bunch of new friends. Because when you're

swordfighting and spider-slaying, it's hard to worry about whether you look cool or not. Especially when it's your turn to roll the 20-sided die. Trying hard to be cool can make you feel really uncool . . . and it's much more fun to just have fun. Sunny's going to find her groove and her own kind of groovy, with plenty of laughs along the way.

Introduction to Dungeons & Dragons: Honor Among Thieves Gilad James, PhD,

Dungeons & Dragons For Dummies Bill Slavicsek, Richard Baker, 2005-04-08 Caught in traffic. Trapped in a cubicle. Stuck in a rut. Tangled up in red tape. In the real world, sometimes you feel powerless—but not in Dungeons & Dragons (D & D). In this fantasy-adventure, you have all kinds of special powers. You can slay the evil dragon, overcome the orc or the ogre, haunt the werewolf, and triumph over sinister trolls. You venture into strange realms, encounter strange creatures, and use magical powers. Your character grows and develops with every adventure. With this guide, you can learn the ins and outs of D & D and start

playing right away. Dungeons & Dragons For Dummies gives beginners the basics of the complex game and helps experienced players fine-tune their roleplaying. It guides you through:

- Creating your character (a powerful fighter, a sneaky rogue, a crafty sorcerer, or a charismatic cleric), and character advancement
- The races: humans, dwarves, elves, and halflings
- The types of character actions: attack rolls, skill check, and ability checks
- The 6 abilities: strength, dexterity, constitution, intelligence, wisdom, charisma
- Feat requirements and types
- Playing the game, including moving in combat, attacking with a weapon (melee attacks or ranged attacks), and damage and dying
- Picking skills, armor, weapons, and gear
- Choosing spells if your character is a sorcerer or domains for a cleric
- Building encounter or combat strategies and using advanced tactics
- Maximizing your character's power with the acquisition of the right magic items: armor, weapons, potion, scroll, ring, wand, staff, rod, plus wondrous items
- D & D game etiquette
- Becoming a Dungeon Master

There's even a sample play session that walks you through typical play, gets you comfortable using the battle grid and character markers, lets you test player characters against each other and against monsters, and shows you how to add story elements to create an adventure. Produced in partnership with Wizards of the Coast, written by D & D game designers, and complete with a battle grid, a sample dungeon map, and a glossary, this guide arms you with the knowledge to create and equip a character and empowers you to enter the captivating, fascinating world of D & D.
