In the 1990s the Internet boom kicked in with new tools to connect jobs and people: e-mail, websites, cell phones, mailing lists, and online bulletin boards. In the 21st century the double-time march of recruiting technology skyrocketed, building a techno-swamp populated with endless ideas of how to connect work and people through smartphones, wonder tablets, apps, and social media for virtual networking. You're competing in a new world of work out there. If your job search is treading water — or even drowning — there's a better way. Make a splash! Engage hiring authorities through a communications-centered campaign with smart content.
