The Healthy Writer Joanna Penn, Euan Lawson, 2018-08-11 Do you suffer from physical pain relating to your writing life? Are you struggling with back pain, weight gain related to sedentary working, anxiety, depression, sleep problems, neck pain, eye strain, stress, loneliness, digestive issues, or Repetitive Strain Injury? These are the most common issues reported by writers and if you struggle with any of them, you are not alone. Writing is not a physically healthy job, but if you want a long-term writing career, then you need to look after your body. I've been through my own pain journey over the last six years. I used to get crippling migraines that sent me to a dark room, and back pain so bad that I couldn't sleep, as well as stress levels so high that I wasn't able to breathe normally. Now, my back pain, migraines and RSI have almost gone completely, and I manage my writing life in a far healthier way than ever before. I share my personal journey and insights with you in this book. My co-author is Dr Euan Lawson, who shares his insights into how we can reduce pain, improve health and build a writing career for the long term. The book covers: Introduction and survey results from 1200 writers 7 Reasons why writing is great for your health Part 1: The Unhealthy Writer Stress, anxiety, burnout Back, neck and shoulder pain Repetitive Strain Injury (RSI) A personal journey to a pain-free back Writing with chronic pain Sedentary life and inactivity Sleep problems/ insomnia Eye strain, headaches, and migraine A personal story of headaches and migraine Loneliness and isolation Weight gain or weight loss Joanna's Letter to Sugar Digestive issues and IBS A personal journey through IBS with FODMAP Mood and mental health Riding the Waves: Writing with depression Alcohol - the good, the bad, and the ugly Coffee and caffeine Supplements, substances, and nootropics Part 2: The Healthy Writer Improve your workspace Sort out your sleep Sort out your diet From fat to fit Sort out your back Lessons learned about writing from yoga How to use dictation for a healthier writing life The active writer mindset Strategies for the sofa-bound The active writer: Three golden rules The running writer: Three rookie mistakes Lessons learned about writing from walking a double ultra-marathon Find a community Build wellbeing with mindfulness Develop healthy habits for the long-term Conclusion: It's your turn. Self-Publish & Succeed Julie Broad, 2021-02-23 You can write a book-anyone can. But if you want to write a book that people will want or even need to read, it's not as simple as sitting down to write. In fact, that's one of the biggest mistakes unsuccessful authors make. Writing a book can be one of the smartest moves for your business success. But you need more than writing skills to create an impressive book that readers will love. You also need a plan to market, sell, and leverage your book into a new level of leadership within your industry to reach your professional goals. In Self-Publish & Succeed, trusted best-selling author and entrepreneur Julie Broad shows you that writing a successful nonfiction book starts long before you write your first chapter. To write a book that boosts your brand, generates a profit, and makes you an influencer in your industry, you need the #noboringbooks way. You're about to discover: -The reason why you're not finishing your book-and how to overcome it. -Why most books are boring, and how to keep yours from being one of them. -Which editors you need to perfect your story and where to find them. -The one simple page that could generate thousands of sales. -Seven places to sell your book (and only one starts with A!). Nonfiction doesn't mean no fun. Write a money-making book that delivers meaningful impact. Self-Publish & Succeed is your step-by-step guide to writing, publishing, and marketing a book that will get attention, explode your career, and change people's lives-including yours.

Digital Tools for Qualitative Research Trena Paulus, Jessica N. Lester, Paul Dempster, 2013-12-30 Digital Tools for Qualitative Research shows how the research process in its entirety can be supported by technology tools in ways that can save time and add robustness and depth to qualitative work. It addresses the use of a variety of tools (many of which may already be familiar to you) to support every phase of the research process, providing practical case studies taken from real world research. The text shows you how to select and use technology tools to: engage in reflexivity collaborate with other researchers and stakeholders manage your project do your literature review generate and manage your data transcribe and analyse textual, audio and visual data and represent and share your findings. The book also considers important ethical issues surrounding the use of various technologies in each chapter. On the companion website, you'll find lots of additional resources including video tutorials and activities. Whether you're a novice or expert social researcher, this book will inspire you to think creatively about how to approach your research project and get the most out of the huge range of tools available to you.

The Scribe Method Tucker Max, Zach Obront, 2021-04-15 Ready to write your book? So why haven't you done it yet? If you're like most nonfiction authors, fears are holding you back. Sound familiar? Is my idea good enough? How do I structure a book? What exactly are the steps to write it? How do I stay motivated? What if I actually finish it, and it's bad? Worst of all: what if I publish it, and no one cares? How do I know if I'm even doing the right things? The truth is, writing a book can be scary and overwhelming—but it doesn't have to be. There's a way to know you're on the right path and taking the right steps. How? By using a method that's been validated with thousands of other Authors just like you. In fact, it's the same exact process used to produce dozens of big bestsellers—including David Goggins's Can't Hurt Me, Tiffany Haddish's The Last Black Unicorn, and Joey Coleman's Never Lose a Customer Again. The Scribe Method is the tested and proven process that will help you navigate the entire book-writing process from start to finish—the right way. Written by 4x New York Times Bestselling Author Tucker Max and publishing expert Zach Obront, you'll learn the step-by-step method that has helped over 1,500 authors write and publish their books. Now a Wall Street Journal Bestseller itself, The Scribe Method is specifically designed for business leaders, personal development gurus, entrepreneurs, and any expert in their field who has accumulated years of hard-won knowledge and wants to put it out into the world. Forget the rest of the books written by pretenders. This is the ultimate resource for anyone who wants to professionally write a great nonfiction book.

Dictate Your Book Monica Leonelle, 2021-01-05 Ready to get on board with dictation (finally)? Like many tools that have come before it, dictation is a new and exciting opportunity to write better, faster, and smarter. But many writers still believe it's not for them. Perhaps they've tried it in the past and it hasn't worked. Or perhaps this new technology is confusing, expensive, or frustrating and that's held them back from taking advantage of

it. If you're ready to take the next step and learn a new skill set that will give you a huge advantage over what other authors are doing today, grab Dictate Your Book and start working through the challenges that are holding you back from reaping the benefits of dictation. It includes: - Why you need to get started with dictation, even if you tried it before and hated it! - All of Monica's best tips for making dictation work for you, whether you writing fiction or nonfiction - Every piece of equipment Monica recommends, plus half a dozen ways to test dictation before you buy - How to reimagine your writing process to accommodate dictation and how to get that clean draft easily - Monica's full setup for her innovative Walk 'n Talks which helped her hit 4,000+ words per hour For authors who are ready to take their productivity to the next level, this book will help you get started!

Revitalizing Endangered Languages Justyna Olko, Julia Sallabank, 2021-01-31 Of the approximately 7,000 languages in the world, at least half may no longer be spoken by the end of the twenty-first century. Languages are endangered by a number of factors, including globalization, education policies, and the political, economic and cultural marginalization of minority groups. This guidebook provides ideas and strategies, as well as some background, to help with the effective revitalization of endangered languages. It covers a broad scope of themes including effective planning, benefits, wellbeing, economic aspects, attitudes and ideologies. The chapter authors have hands-on experience of language revitalization in many countries around the world, and each chapter includes a wealth of examples, such as case studies from specific languages and language areas. Clearly and accessibly written, it is suitable for non-specialists as well as academic researchers and students interested in language revitalization. This book is also available as Open Access on Cambridge Core.

Columbia Crew Survival Investigation Report Nasa, 2009 NASA commissioned the Columbia Accident Investigation Board (CAIB) to conduct a thorough review of both the technical and the organizational causes of the loss of the Space Shuttle Columbia and her crew on February 1, 2003. The accident investigation that followed determined that a large piece of insulating foam from Columbia's external tank (ET) had come off during ascent and struck the leading edge of the left wing, causing critical damage. The damage was undetected during the mission. The Columbia accident was not survivable. After the Columbia Accident Investigation Board (CAIB) investigation regarding the cause of the accident was completed, further consideration produced the question of whether there were lessons to be learned about how to improve crew survival in the future. This investigation was performed with the belief that a comprehensive, respectful investigation could provide knowledge that can protect future crews in the worldwide community of human space flight. Additionally, in the course of the investigation, several areas of research were identified that could improve our understanding of both nominal space flight and future spacecraft accidents. This report is the first comprehensive, publicly available accident investigation report addressing crew survival for a human spacecraft mishap, and it provides key information for future crew survival investigations. The results of this investigation are intended to add meaning to the sacrifice of the crew's lives by making space flight safer for all future generations.

Designing Second Language Performance Assessments John M. Norris, 1998 This volume focuses on the decision-making potential provided by second language performance assessments. The authors first situate performance assessment within a broader discussion of alternatives in language assessment and in educational assessment in general. They then discuss issues in performance assessment design, implementation, reliability, and validity. Finally, they present a prototype framework for second language performance assessment based on the integration of theoretical underpinnings and research findings from the task-based language teaching literature, the language testing literature, and the educational measurement literature. The authors outline test and item specifications, and they present numerous examples of prototypical language tasks. They also propose a research agenda focusing on the operationalization of second language performance assessments.

Geographic Citizen Science Design Artemis Skarlatidou, Muki Haklay, 2021-02-04 Little did Isaac Newton, Charles Darwin and other 'gentlemen scientists' know, when they were making their scientific discoveries, that some centuries later they would inspire a new field of scientific practice and innovation, called citizen science. The current growth and availability of citizen science projects and relevant applications to support citizen involvement is massive; every citizen has an opportunity to become a scientist and contribute to a scientific discipline, without having any professional qualifications. With geographic interfaces being the common approach to support collection, analysis and dissemination of data contributed by participants, 'geographic citizen science' is being approached from different angles. Geographic Citizen Science Design takes an anthropological and Human-Computer Interaction (HCI) stance to provide the theoretical and methodological foundations to support the design, development and evaluation of citizen science projects and their user-friendly applications. Through a careful selection of case studies in the urban and non-urban contexts of the Global North and South, the chapters provide insights into the design and interaction barriers, as well as on the lessons learned from the engagement of a diverse set of participants; for example, literate and non-literate people with a range of technical skills, and with different cultural backgrounds. Looking at the field through the lenses of specific case studies, the book captures the current state of the art in research and development of geographic citizen science and provides critical insight to inform technological innovation and future research in this area.

Establishing a Lessons Learned Program United States Army, 2011-07 For many years, the U.S. Army recognized the need to share information or lessons gained from training and actual combat operations. During World War II and the Korean War, the Army published combat bulletins in an attempt to share combat experiences with other Soldiers. During the Vietnam War, Army units published quarterly operational reports that made an effort to share lessons from combat operations. By doing this, units learned from the mistakes others made and were given an opportunity to avoid the same problems. Although these procedures were successful, the Army did not have a formal or permanent program in place to collect, analyze, and share lessons in both peacetime and wartime. As a result, the Army established the Center for Army Lessons Learned (CALL) in 1985. The Army

had officially recognized the need to share lessons gained from training experiences and actual combat operations. Since the inception of CALL, the Army, as a learning organization, greatly evolved over time. CALL also evolved. Now, military communities, civilian governmental agencies, and the corporate world recognize the importance of sharing knowledge and learning from past experiences. In many ways, the U.S Army led this effort by allowing commanders to make honest mistakes in training, talk about those mistakes openly, and share what was done to correct those mistakes with other units about to undergo the same training experience. This is an essential precondition for having an effective lessons learned (LL) program: the ability to self-analyze and self-criticize in an atmosphere where there is no blame. The results were instrumental in changing the Army and creating a learning environment that won the Cold War, ensured victory in Desert Storm, and continues to support our Soldiers in Iraq and Afghanistan today.

The Differentiated Classroom Carol Ann Tomlinson,2014-05-25 Although much has changed in schools in recent years, the power of differentiated instruction remains the same—and the need for it has only increased. Today's classroom is more diverse, more inclusive, and more plugged into technology than ever before. And it's led by teachers under enormous pressure to help decidedly unstandardized students meet an expanding set of rigorous, standardized learning targets. In this updated second edition of her best-selling classic work, Carol Ann Tomlinson offers these teachers a powerful and practical way to meet a challenge that is both very modern and completely timeless: how to divide their time, resources, and efforts to effectively instruct so many students of various backgrounds, readiness and skill levels, and interests. With a perspective informed by advances in research and deepened by more than 15 years of implementation feedback in all types of schools, Tomlinson explains the theoretical basis of differentiated instruction, explores the variables of curriculum and learning environment, shares dozens of instructional strategies, and then goes inside elementary and secondary classrooms in nearly all subject areas to illustrate how real teachers are applying differentiation principles and strategies to respond to the needs of all learners. This book's insightful guidance on what to differentiate, how to differentiate, and why lays the groundwork for bringing differentiated instruction into your own classroom or refining the work you already do to help each of your wonderfully unique learners move toward greater knowledge, more advanced skills, and expanded understanding. Today more than ever, The Differentiated Classroom is a must-have staple for every teacher's shelf and every school's professional development collection.

Ocean of Sound David Toop,1995 Ocean of Sound begins in 1889 at the Paris Exposition when Debussy first heard Javanese music performed. A culture absorbed in perfume, light and ambient sound developed in response to the intangibility of 20th century communications. David Toop traces the evolution of this culture, through Erik Satie to the Velvet Underground; Miles Davis to Jimi Hendrix. David Toop, who lives in London, is a writer, musician and recording artist. His other books are Rap Attack 3 and Exotica,
