AK271 D.A.K. PROFILE GUIDE , This book shows the original German camouflage of vehicles used by the Deutsche Afrika Korps, with color variants throughout the war. We look at German Army vehicle colours for the African campaign, including the European Dark Gray (RAL 7021) in which they arrived to Libya. This continues through to the initial camouflage colours, Yellow-Brown RAL 8000 with Green-Gray spots RAL 7008 (in 1941), and the new Yellow-Brown RAL 8020 and Sand Gray RAL 7027, used from 1942. We also include a selection of Italian vehicles, often forgotten, which fought alongside the Germans against the Allies from 1941 to 1943. This is supplemented by the addition of allied vehicles serving with the Axis troops, with some curious American halftracks on a doublepage spread, with distinctive German markings, from 1943. Over 170 profiles cover schemes from the most common camouflage to the most original and unusual vehicles used by the DAK and Regio Esercito, including major artillery pieces used in Africa, highlighting above all the powerful 88 mm Flak 18/36/37. Through the 108 pages of this book, you will find inspiration for your next African modelling project; projects that you can enhance further with the AK 550 Africa Korps Colors Acrylic Set, and the AK 068 DAK Weathering Set.

**Pre-Incident Indicators of Terrorist Incidents** Brent L. Smith,2011 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
