Dialogue and Difference in a Teacher Education Program Marilyn Johnston-Parsons, 2012-05-01 This book is a longitudinal study of a 10-year experimental teacher education program. Follow-up studies and writing continued for 6 years after the program closed. This case study describes a search for effective and socially just practices within a long-term reform initiative intended to prepare teachers for urban schools. The program was run through a Professional Development School--a collaboration between a university program and a diverse group of practicing teachers; and the book was written collaboratively by many of the participants--faculty, mentor teachers, doctoral students, and teacher candidates/graduates. There are few longitudinal studies of teacher education programs, especially ones that focus on what was learned and told by those who did the learning. The narratives here are rich, diverse, and multivocal. They capture the complexity of a reform initiative conducted within a democratic context. It's difficult, messy and as varied as is democracy itself. The program was framed by a sociocultural perspective and the focus was on learning through

difference. Dialogue across difference, which is more than just talk, was both the method for doing research and the means for learning. The program described here began in the ferment of teacher education reform in the early 1990s, responding to the critics of the mid-1980s; and this account of it is finished at a time when teacher education is again under attack from a different direction. Criticized earlier for being too progressive, teacher education is now seen as too conservative. The longitudinal results of this program show high retention rates and ground the argument that quality teacher preparation programs for teaching in urban schools may well be cost effective, as well as provide increased student learning. This is counter to the current move to shorten teacher preparation programs, at a time of low teacher retention in our under resourced urban schools. The book does not advocate a model for teacher education, but it aims to provide principles for practice that include school/university collaboration, democratic dialogue across differences, and inquiry as a way to guide reform.

Reconsidering Difference Todd May, 1997-04-08 French philosophy since World War II has been preoccupied with the issue of difference. Specifically, it has wanted to promote or to leave room for ways of living and of being that differ from those usually seen in contemporary Western society. Given the experience of the Holocaust, the motivation for such a preoccupation is not difficult to see. For some thinkers, especially Jean-Luc Nancy, Jacques Derrida, Emmanuel Levinas, and Gilles Deleuze, this preoccupation has led to

a mode of philosophizing that privileges difference as a philosophical category. Nancy privileges difference as a mode of conceiving community, Derrida as a mode of conceiving linguistic meaning, Levinas as a mode of conceiving ethics, and Deleuze as a mode of conceiving ontology.

Reconsidering Difference has a twofold task, the primary one critical and the secondary one reconstructive. The critical task is to show that these various privilegings are philosophical failures. They wind up, for reasons unique to each position, endorsing positions that are either incoherent or implausible. Todd May considers the incoherencies of each position and offers an alternative approach. His reconstructive task, which he calls contingent holism, takes the phenomena under investigation—community, language, ethics, and ontology—and sketches a way of reconceiving them that preserves the motivations of the rejected positions without falling into the problems that beset them.

The Right to Difference Nicole Coleman, 2021-10-14 Develops a theory of intercultural literature to reconcile diversity with traditional notions of German identity

Difference and Repetition Gilles Deleuze, 2004-01-01 Since its publication in 1968, *Difference and Repetition*, an exposition of the critique of identity, has come to be considered a contemporary classic in philosophy and one of Deleuze's most important works. The text follows the development of two central concepts, those of pure difference and complex repetition. It

shows how the two concepts are related, difference implying divergence and decentring, repetition being associated with displacement and disguising. The work moves deftly between Hegel, Kierkegaard, Freud, Althusser and Nietzsche to establish a fundamental critique of Western metaphysics, and has been a central text in initiating the shift in French thought - away from Hegel and Marx, towards Nietzsche and Freud.

Bridging Differences William B. Gudykunst, 2004 This fourth edition builds on the strengths of the previous editions and provides state-of-the-art knowledge about intergroup communication. It brings a strong skills-oriented approach to improving communication effectiveness between people from different groups (cultures, ethnic groups, social classes).

Artistic Differences Charlie Hauck, 1993 A writer/producer discovers the dazzling Geneva Holloway, their tickets to sitcom stardom.

American Difference Lori M. Poloni-Staudinger, Michael R. Wolf, 2019-01-31 Examining democracies from a comparative perspective helps us better understand why politics—or, as Harold Lasswell famously said, who gets what, when, and how—differ among democracies. *American Difference: A Guide to American Politics in Comparative Perspective* takes the reader through different aspects of democracy—political culture, institutions, interest groups, political parties, and elections—and, unlike other works, explores how the United States is both different from and similar to other democracies. The fully updated Second Edition has been expanded to include

several new chapters and discussion on civil liberties and civil rights, constitutional arrangements, elections and electoral institutions, and electoral behavior. This edition also includes data around the 2016 general election and 2018 midterm election.

Beyond Equality and Difference Gisela Bock, Susan James, 2005-09-23

Historically, as well as more recently, women's emancipation has been seen in two ways: sometimes as the 'right to be equal' and sometimes as the 'right to be different'. These views have often overlapped and interacted: in a variety of guises they have played an important role in both the development of ideas about women and feminism, and the works of political thinkers by no means primarily concerned with women's liberation. The chapters of this book deal primarily with the meaning and use of these two concepts in the context of gender relations (past and present), but also draw attention to their place in the understanding and analysis of other human relationships.

Diversity and Difference in Childhood: Issues for Theory and Practice Kerry Robinson, Criss Jones-Diaz, 2017-01-16 Educators and community-based professionals are often required to work with children and families from a range of diverse backgrounds. The second edition of this popular book goes beyond simplistic definitions of diversity, encouraging a much broader understanding and helping childhood educators and community-based professionals develop a critical disposition towards assumptions about children and childhood in relation to diversity, difference and social

justice. As well as drawing on research, the book gives an overview of relevant contemporary social theories, including poststructuralism, cultural studies, critical theory, postcolonialism, critical 'race' theory, feminist perspectives and queer theory. It interrogates practice and explores opportunities and strategies for creating a more equitable environment, whilst covering key issues impacting on children's lives, including: globalization, neoliberalism, new racisms, immigration, Indigeneity, refugees, homophobia, heterosexism and constructions of childhood. Each chapter provides an overview of the area of discussion, a focus on the implications for practice, and recommended readings. Providing insight into how social justice practices in childhood education and community-based service delivery can make a real difference in the lives of children, their families and communities, this is key reading for early childhood and primary educators, community-based professionals, university students and researchers. "This thoughtful, topical book addresses a considerable range of diversity issues relevant to teacher educators, their students, and other professionals who work with children and their families within and beyond Australia. Indigenous issues including language maintenance and revival have particular relevance within postcolonial nation states. Other issues of international relevance include: identities and retention of community languages, gender equity, childhood and sexuality, poverty and inequalities, and related policies. The writing is critical, scholarly, and engaging. This

timely second edition draws on the authors' longstanding teacher education experiences, and their most recent research, to revisit the challenges of diversity and difference in children's lives". Dr Valerie N. Podmore, former associate professor, Faculty of Education and Social Work, the University of Auckland, New Zealand "The second edition of Robinson and Jones Díaz's Diversity and Difference in Childhood is a thoroughly welcome addition to my list of key texts for students of early childhood and childhood studies. It provides a means from the outset for educating undergraduate students from within critical postmodern and post structural perspectives – thus orienting their views of and actions within their future professions towards critical and equitable practices that value difference rather than treat it as a problem to be solved. Furthermore, for practitioners who find themselves questioning modernist constructions of children, development, difference, diversity and their work, the book provides a thorough grounding in frameworks and tools that will help them re-theorise what they are doing whilst simultaneously supporting them towards positive change." Alexandra C. Gunn, Associate Dean (Teacher Education), University of Otago College of Education, New Zealand "This is the 21st century early childhood education text. Diversity and Difference in Childhood provides early childhood educators and scholars a powerful space for asking social justice questions in a profoundly innovative way. Diversity and difference in childhood is not a 'traditional' early childhood conversation. As the authors appropriately

suggest, this book is for educators to challenge taken for granted knowledges/practices and to take “personal and professional risks for social justice”. Veronica Pacini-Ketchabaw, Ph.D., Professor, School of Child and Youth Care, University of Victoria, Canada “This new edition of Diversity and Difference is both important and timely. There is a new urgency to some emerging childhood issues, including those associated with childhood sexuality, and a distinct lack of critical resources to inform the debate. This book helps fill this gap. Undertaking a major revision and incorporating new material, the authors have ensured the book’s continued relevance and renewed significance in the very dynamic context of childhood studies. The book makes an important contribution to resourcing explorations of the many difficult and complex issues associated with childhood in a globalised yet differentiated world. Readers will find the new theoretical resources and additional chapters that have been included give the book a sense of enhanced rigour and its depth and breadth of coverage make it an ideal resource for a wide variety of interests and perspectives.” Christine Woodrow, Associate Professor and Senior Researcher, the Centre for Educational Research, Western Sydney University, Australia

Violence and Difference Andrew J. McKenna, 1992 McKenna explicates key elements of the anthropology of Rene Girard and the literary theory of Jacques Derrida in terms of each other--to create an interpretive strategy that he hopes will salvage deconstruction from the flashy sterility it

favours.
