Moral Issues in Intelligence-led Policing Helene Oppen Gundhus, Kira Vrist Rønn, Nick Fyfe, 2017-09-27 The core baseline of Intelligence-led Policing is the aim of increasing efficiency and quality of police work, with a focus on crime analysis and intelligence methods as tools for informed and objective decisions both when conducting targeted, specialized operations and when setting strategic priorities. This book critically addresses the proliferation of intelligence logics within policing from a wide array of scholarly perspectives. It considers questions such as: How are precautionary logics becoming increasingly central in the dominant policing strategies? What kind of challenges will this move entail? What does the criminalization of preparatory acts mean for previous distinctions between crime prevention and crime detection? What are the predominant rationales behind the proactive use of covert cohesive measures in order to prevent attacks on national security? How are new technological measures, increased private partnerships and international cooperation challenging the core nature of police services as the main providers of public safety and security? This book offers new insights by exploring dilemmas, legal issues and questions raised by the use of new policing methods and the blurred and confrontational lines that can be observed between prevention, intelligence and investigation in police work.

Loading the Silence: Australian Sound Art in the Post-Digital Age Linda Ioanna Kouvaras, 2016-05-13 The experimentalist phenomenon of 'noise' as constituting 'art' in much twentieth-century music (paradoxically) reached its zenith in Cage's ('silent' piece) 4'33. But much post-1970s musical endeavour with an experimentalist telos, collectively known as 'sound art', has displayed a postmodern need to 'load' modernism's 'degree zero'. After contextualizing experimentalism from its inception in the early twentieth century, Dr Linda Kouvaras's *Loading the Silence: Australian Sound Art in the Post-Digital Age* explores the ways in which selected sound art works demonstrate creatively how sound is embedded within local, national, gendered and historical environments. Taking Australian music as its primary - but not sole - focus, the book not only covers discussions of technological advancement, but also engages with aesthetic standpoints, through numerous interviews, theoretical developments, analysis and cultural milieux for a contemporary Australian, and wider postmodern, context. Developing new methodologies for synergies between musicology and cultural studies, the book uncovers a new post-postmodern aesthetic trajectory, which Kouvaras locates as developing over the past two decades - the altermodern. Australian sound art is here put firmly on the map of international debates about contemporary music, providing a standard reference and valuable resource for practitioners in the artform, music critics, scholars and educators.

Additional topics include the management of fingertip burns (thermal, chemical and electrical, and frostbite) as well as special considerations in pediatric fingertip injuries and rehabilitation strategies. It will be an essential reference for orthopedic and hand surgeons, as well as plastic, trauma and emergency surgeons and their staff at work in the ER.

Feminist Surveillance Studies Rachel E. Dubrofsky, Shoshana Amielle Magnet, 2015-05-15 Questions of gender, race, class, and sexuality have largely been left unexamined in surveillance studies. The contributors to this field-defining collection take up these questions, and in so doing provide new directions for analyzing surveillance. They use feminist theory to expose the ways in which surveillance practices and technologies are tied to systemic forms of discrimination that serve to normalize whiteness, able-bodiedness, capitalism, and heterosexuality. The essays discuss the implications of, among others, patriarchal surveillance in colonial North America, surveillance aimed at curbing the trafficking of women and sex work, women presented as having agency in the creation of the images that display their bodies via social media, full-body airport scanners, and mainstream news media

discussion of honor killings in Canada and the concomitant surveillance of Muslim bodies. Rather than rehashing arguments as to whether or not surveillance keeps the state safe, the contributors investigate what constitutes surveillance, who is scrutinized, why, and at what cost. The work fills a gap in feminist scholarship and shows that gender, race, class, and sexuality should be central to any study of surveillance. Contributors. Seantel Anaïs, Mark Andrejevic, Paisley Currah, Sayantani DasGupta, Shamita Das Dasgupta, Rachel E. Dubrofsky, Rachel Hall, Lisa Jean Moore, Yasmin Jiواني, Ummni Khan, Shoshana Amielle Magnet, Kelli Moore, Lisa Nakamura, Dorothy Roberts, Andrea Smith, Kevin Walby, Megan M. Wood, Laura Hyun Yi Kang

Brown Trans Figurations Francisco J. Galarte,2021-01-28 Honorable Mention for the National Women's Studies Association's 2021 Gloria E. Anzaldúa Book Prize 2021 Finalist Best LGBTQ+ Themed Book, International Latino Book Awards 2022 John Leo & Dana Heller Award for Best Single Work, Anthology, Multi-Authored, or Edited Book in LGBTQ Studies, Popular Culture Association The Alan Bray Memorial Book Prize, GL/Q Caucus, Modern Language Association (MLA) 2022 AAHE Book of the Year Award, American Association of Hispanics in Higher Education Within queer, transgender, and Latinx and Chicanx cultural politics, brown transgender narratives are frequently silenced and erased. Brown trans subjects are treated as deceptive, unnatural, nonexistent, or impossible, their bodies, lives, and material circumstances represented through tropes and used as metaphors. Restoring personhood and agency to these subjects, Francisco J. Galarte advances "brown trans figuration" as a theoretical framework to describe how transness and brownness coexist within the larger queer, trans, and Latinx historical experiences. Brown Trans Figurations presents a collection of representations that reveal the repression of brown trans narratives and make that repression visible and palpable. Galarte examines the violent deaths of two transgender Latinas and the corresponding narratives that emerged about their lives, analyzes the invisibility of brown transmasculinity in Chicana feminist works, and explores how issues such as transgender politics can be imagined as part of Chicanx and Latinx political movements. This book considers the contexts in which brown trans narratives appear, how they circulate, and how they are reproduced in politics, sexual cultures, and racialized economies.

Black Movements Soyica Diggs Colbert,2017-04-28 Black Movements analyzes how artists and activists of recent decades reference earlier freedom movements in order to imagine and produce a more expansive and inclusive democracy. The post-Jim Crow, post-apartheid, postcolonial era has ushered in a purportedly color blind society and along with it an assault on race-based forms of knowledge production and coalition formation. Soyica Diggs Colbert argues that in the late twentieth century race went "underground," and by the twenty-first century race no longer functioned as an explicit marker of second-class citizenship. The subterranean nature of race manifests itself in discussions of the Trayvon Martin shooting that focus on his hoodie, an object of clothing that anyone can choose to wear, rather than focusing on structural racism; in discussions of the epidemic proportions of incarcerated black and brown people that highlight the individual's poor decision making rather than the criminalization of blackness; in evaluations of black independence struggles in the Caribbean and Africa that allege these movements have accomplished little more than creating a black ruling class that mirrors the politics of its former white counterpart. Black Movements intervenes in these discussions by highlighting the ways in which artists draw from the past to create coherence about blackness in present and future worlds. Through an exploration of the way that black movements create circuits connecting people across space and time, Black Movements offers important interventions into performance, literary, diaspora, and African American studies.
