Asylees' ICT and Digital Media Usage Katrin Scheibe,Franziska Zimmer,2022-03-07 By the time refugees flee from their home country, they likewise leave behind their former life, their relatives and acquaintances. Building a new life in their country of destination requires them to learn a foreign language and adjust to a new culture. Obviously, their information behavior as well as ICT and digital media usage adapt to these challenging circumstances. What kind of information are refugees looking for? Who do they communicate with? What ICT, social and digital media do they apply? What are their motives to use particular devices or services, from Facebook and WhatsApp to YouTube and TikTok? Are gender- as well as age-dependent differences to be observed? To answer these questions, data have been collected through an online questionnaire, interviews, as well as a content analysis of an online platform for refugees.

Digital Selling Grant Leboff,2016-09-03 Adapt your sales strategy to embrace the opportunities that digital channels can bring, with this ultimate guide to selling in the digital environment from engaging customers and generating leads to building an online network, with advice from leading sales and marketing expert Grant Leboff. Sales and marketing functions are increasingly converging, with lead generation frequently arising from digital promotional campaigns and opportunities for traditional sales techniques diminishing due to scarce customer attention and availability, not to mention the plethora of readily accessible product information online. Salespeople now need to understand and interact with customers via multiple channels, participating in social media, in collaboration with marketing, to influence purchasing decisions and convert contacts to sales. Digital Selling makes sense of the new paradigms in which a salesperson now operates, outlining the new strategies required to take advantage of the opportunities that exist, and provides the practical advice salespeople need to generate leads and sell more. Packed with great advice for engaging with customers online and via social media, this book explains: -Why embracing the social web is vital -How the sales role changes in a digital environment -The lead generation model in a digital world -How to build your online network This straightforward and practical book from one of today's thought leaders on digital sales and marketing, is essential reading for any sales professional.

Readers will keep this book close by, referring to it often as they explore the features of their new Samsung Galaxy S10 smartphone. Navigate your phone Use mobile data technology Send and receive messages Have fun with apps If you're baffled by the documentation and online support that comes with your phone, your solution is here!

Crime Reconstruction W. Jerry Chisum,Brent E. Turvey,2006-10-27 Crime Reconstruction is a guide to the interpretation of physical evidence. It was developed to aid forensic reconstructionists with the formulation of hypotheses and conclusions that stay within the known limits of forensic evidence. The book begins with chapters on the history and ethics of crime reconstruction, and then shifts to the more applied subjects of general reconstruction methods and practice standards. It concludes with chapters on courtroom conduct and evidence admissibility, to prepare forensic reconstructionists for what awaits them when they take the witness stand. This book is a watershed collaborative effort by internationally known, qualified, and respected forensic science practitioners with generations of case experience. Forensic pioneers such as John D. DeHaan, John I. Thornton, and W. Jerry Chisum contribute chapters on arson reconstruction, trace evidence interpretation, advanced bloodstain interpretation, and reconstructionist ethics. Other chapters cover the subjects of shooting incident reconstruction, interpreting digital evidence, staged crime scenes, and examiner bias. Rarely have so many forensic giants collaborated, and never before have the natural limits of physical evidence been made so clear. This book is ideal for forensic examiners, forensic scientists, crime lab personnel, and special victim and criminal investigators. Others who will benefit from this book are law enforcement officials, forensic medical personnel, and criminal lawyers. * Contains the first practice standards ever published for the reconstruction of crime * Provides a clear ethical canon for the reconstructionist * Includes groundbreaking discussions of examiner bias and observer effects as they impact forensic evidence interpretation * Ideal for applied courses on the subject of crime reconstruction, as well as those teaching crime reconstruction theory within criminology and criminal justice programs

Short Message Service (SMS) Friedhelm Hillebrand,2010-03-29 Contributions from Finn Trosby, Kevin Holley, Ian Harris Written to celebrate the 25th anniversary of SMSstandardization by the people who produced the standards, ShortMessage Service (SMS): The Creation of Personal Text Messaging,describes the development of the SMS standard and its ongoingevolution. The standardization of SMS started in February 1985 as apart of the creation of the second generation digital cellularysystem GSM, and the 25th anniversary of the first work on SMSprovides an opportunity to review and understand how this servicewas developed. The book also looks to the future, as a large numberof new GSM and evolved GSM phones will support SMS as a mass markethigh availability messaging service, a new simple MultimediaMessaging Service (MMS) suitable for use by everyone and forimplementation in every new terminal is proposed. One of the only books which covers the complete SMS genesisfrom concept ideas to standardization of a first technical solutionand its evolution to the present day. Describes the service concept including the limitation of themessage length to 160 characters and explains the rationale behindthe concept. Based on existing and newly retrieved documentation. Concludes that SMS has a long future since most future GSMphones will support SMS as the only messaging service, and so anSMS evolution is put forward.

Networked Digital Technologies, Part II Filip Zavoral,Jakub Yaghob,Pit Pichappan,Eyas El-Qawasmeh,2010-06-30 On behalf of the NDT 2010 conference, the Program Committee and Charles University in Prague, Czech Republic, we welcome you to the proceedings of the Second International Conference on 'Networked Digital Technologies' (NDT 2010). The NDT 2010 conference explored new advances in digital and Web technology applications. It brought together researchers from various areas of computer and information sciences who addressed both theoretical and applied aspects of Web technology and Internet applications. We hope that the discussions and exchange of ideas that took place will contribute to advancements in the technology in the near future. The conference received 216 papers, out of which 85 were accepted, resulting in an acceptance rate of 39%. These accepted papers are authored by researchers from 34 countries covering many significant areas of Web applications. Each paper was evaluated by a minimum of two reviewers. Finally, we believe that the proceedings document the best research in the studied areas. We express our thanks to the Charles University in Prague, Springer, the authors and the organizers of the conference.

Fostering freedom online: the role of Internet intermediaries MacKinnon, Rebecca,Hickok, Elonnai,Bar, Allon,Lim, Hae-in,2015-01-29 Internet intermediaries play a unique role in linking authors of content and audiences. They may either protect or jeopardize end user rights to free expression, given their role in capturing, storing, searching, sharing, transferring and processing large amount of information, data and user-generated content. This research aims to identify principles for good practices and processes that are consistent with international standards for free expression that Internet intermediaries may follow in order to protect the human rights of end users online.
