The Hovey Murals at Dartmouth College Brian P. Kennedy,2015-10-06 Dartmouth College is in the unique position of having a magnificent large fresco by the Mexican muralist Jos  Clemente Orozco (1883-1949) adorning the campus library. Completed by the artist in 1934 and titled The Epic of American Civilization, this work was promptly condemned by many alumni as being too critical of the college and academia. In response to Orozco's work, the illustrator and Dartmouth alumnus Walter Beach Humphrey (1892-1966) persuaded President Ernest Martin Hopkins to allow him to create another mural that would be more Dartmouth in character. Humphrey painted his mural four years after the completion of Orozco's frescoes on the walls of a faculty dining hall or grill at the college. Based on a drinking song by Richard Hovey, Dartmouth Class of 1885, it depicts a mythical founding of the college by Eleazar Wheelock. In the first panel, Wheelock, pulling along a five-hundred-gallon barrel of rum, is happily greeted by young American Indian men, whom he introduces to drunken revelry. The encounter, which takes place as the mural circles the grill room, also features many half-naked Indian women, one of whom reads Eleazer's copy of Gradus ad Parnassum upside down. Fast-forward to the early 1970s and the introduction of the Native American Program and co-education at Dartmouth College: the Hovey Murals, as the work was known, became so controversial that they were covered over, and the room itself closed. This book aims to provide not only the history (and art history) of this mural but also its wider cultural and historical contexts. The existence of both Orozco's fresco and Humphrey's mural on a college campus provides a unique juxtaposition of certain extremes of 1930s mural art. As such, their creation represents an important and fascinating historical moment while bringing into sharper focus some of the issues surrounding the politics of art and images. This book is intended as a textbook for those studying these murals and also as a guide to understanding how they fit into a troubling and difficult history of envisioning Native Americans by non-natives in American literature and popular art.

A Century of Restaurants Rick Browne,2013-10-15 From the public television host, a tour of the US's oldest and greatest dining spots—with “delightful tales, delicious recipes, and hundreds of photographs” (Ted Allen, host of Food Network's Chopped). Come along on a pilgrimage to some of the oldest, most historic restaurants in America. Each is special not only for its longevity but also for its historic significance, interesting stories, and, of course, wonderful food. The oldest Japanese restaurant in the country is profiled, along with stagecoach stops, elegant eateries, barbecue joints, hamburger shops, cafes, bars and grills, and two dueling restaurants that both claim to have invented the French dip sandwich. The bestselling author and host/producer of Barbecue America shares the charm, history, and appeal that made these establishments, some as many as three hundred years old, successful. Each profile contains a famous recipe, the history of the restaurant, a look at the restaurant today, descriptions of some of its signature dishes, fun facts that make each place unique, and beautiful photos. It's all you need for an armchair tour of one hundred restaurants that have made America great. “Browne spent three years traveling more than 46,000 miles to profile the 100 restaurants, inns, taverns and public houses he selected as being the most historic, most interesting and most successful.” —Orlando Sentinel “It is Browne's exploration of the history behind each place that I found most interesting...The White Horse Tavern gave him the Beef Wellington recipe. Peter Luger, the legendary Brooklyn Steakhouse, shared one for German Fried Potatoes and Katz's Delicatessen in New York City offered Katz's Noodle Kugel. And, Ferrara in Little Italy in New York City parted with its cannoli recipe.” —Sioux City Journal “Ask any chef: It's not easy keeping a restaurant alive for a week, let alone a year or a decade. So what does it take to last a century? After five years of criss-crossing the country and gobbling up regional specialties from chowder to chili, Rick Browne reveals the answer to that question.” —Ted Allen, host of Food Network's Chopped

Halal Food Febe Armanios,Bogac Ergene,2018-04-02 Food trucks announcing halal proliferate in many urban areas but how many non-Muslims know what this means, other than cheap lunch? Here Middle Eastern historians Febe Armanios and Bogac Ergene provide an accessible introduction to halal (permissible) food in the Islamic tradition, exploring what halal food means to Muslims and how its legal and cultural interpretations have changed in different geographies up to the present day. Historically, Muslims used food to define their identities in relation to co-believers and non-Muslims. Food taboos are rooted in the Quran and prophetic customs, as well as writings from various periods and geographical settings. As in Judaism and among certain Christian sects, Islamic food traditions make distinctions between clean and impure, and dietary choices and food preparation reflect how believers think about broader issues. Traditionally, most halal interpretations focused on animal slaughter and the consumption of intoxicants. Muslims today, however, must also contend with an array of manufactured food products--yogurts, chocolates, cheeses, candies, and sodas--filled with unknown additives and fillers. To help consumers navigate the new halal marketplace, certifying agencies, government and non-government bodies, and global businesses vie to meet increased demands for food piety. At the same time, blogs, cookbooks, restaurants, and social media apps have proliferated, while animal rights and eco-conscious activists seek to recover halal's more wholesome and ethical inclinations. Covering practices from the Middle East and North Africa to South Asia, Europe, and North America, this timely book is for anyone curious about the history of halal food and its place in the modern world.

Dartmouth College Scott Meacham,2008-04-17 Organized as a series of walks through the distinct neighborhoods of Dartmouth College and parts of the surrounding town of Hanover, New Hampshire, The Campus Guide: Dartmouth College provides an intimate view of one of the most unique and picturesque Ivy League campuses. It contains a comprehensive illustration of today's campus and charts its historic evolution from a small school in the wilderness to the last college granted a Royal charter before the Revolution. Dartmouth College is architecturally distinguished by such unique features as its central Green, which dates from the days when the college considered itself a town in its own right. Comprised primarily of clean, classical, and simple buildings by turn-of-the-century architects like Jens Frederick Larson and Charles Alonzo Rich, Dartmouth's campus also boasts impressive modern buildings by Gwathmey Siegel; Robert A.M; Stern, KieranTimberlake Associates; and Venturi, Scott Brown and Associates. This extensively illustrated guide explores how these beautiful and historical buildings have helped to shape the Dartmouth identity.

Author Scott Meacham explains the historically productive tension between the ideals of college and university and how it affects the scale and character of the campus, the ninth oldest in the U.S.

James C. O'Connell, in this fascinating look at more than two centuries of culinary trends in Boston restaurants, presents a rich and hitherto unexplored side to the city's past. In these stories of the most-beloved Boston restaurants of yesterday and today - illustrated with an extensive collection of historic menus, postcards, and photos - O'Connell reveals a unique history sure to whet the intellectual and nostalgic appetite of Bostonians and restaurant-goers the world over.

Dining Out Katie Rawson,Elliott Shore,2019-08-12 A global history of restaurants beyond white tablecloths and maître d's, Dining Out presents restaurants both as businesses and as venues for a range of human experiences. From banquets in twelfth-century China to the medicinal roots of French restaurants, the origins of restaurants are not singular—nor is the history this book tells. Katie Rawson and Elliott Shore highlight stories across time and place, including how chifa restaurants emerged from the migration of Chinese workers and their marriage to Peruvian businesswomen in nineteenth-century Peru; how Alexander Soyer transformed kitchen chemistry by popularizing the gas stove, pre-dating the pyrotechnics of molecular gastronomy by a century; and how Harvey Girls dispelled the ill repute of waiting tables, making rich lives for themselves across the American West. From restaurant architecture to technological developments, staffing and organization, tipping and waiting table, ethnic cuisines, and slow and fast foods, this delectably illustrated and profoundly informed and entertaining history takes us from the world's first restaurants in Kaifeng, China, to the latest high-end dining experiences.

The College Buzz Book Carolyn C. Wise,Stephanie Hauser,2007-03-26 Many guides claim to offer an insider view of top undergraduate programs, but no publisher understands insider information like Vault, and none of these guides provides the rich detail that Vault's new guide does. Vault publishes the entire surveys of current students and alumni at more than 300 top undergraduate institutions. Each 2- to 3-page entry is composed almost entirely of insider comments from students and alumni. Through these narratives Vault provides applicants with detailed, balanced perspectives.

Dining in New York Rian James,1934

Restaurant Republic Kelly Erby,2016-09-01 Before the 1820s, the vast majority of Americans ate only at home. As the nation began to urbanize and industrialize, home and work became increasingly divided, resulting in new forms of commercial dining. In this fascinating book, Kelly Erby explores the evolution of such eating alternatives in Boston during the nineteenth century. Why Boston? Its more modest assortment of restaurants, its less impressive—but still significant—expansion in commerce and population, and its growing diversity made it more typical of the nation's other urban centers than New York. Restaurants, clearly segmented along class, gender, race, ethnic, and other lines, helped Bostonians become more comfortable with deepening social stratification in their city and young republic even as the experience of eating out contributed to an emerging public consumer culture. Restaurant Republic sheds light on how commercial dining both reflected and helped shape growing fragmentation along lines of race, class, and gender—from the elite Tremont House, which served fashionable French cuisine, to such plebeian and ethnic venues as oyster saloons and Chinese chop suey houses. The epilogue takes us to the opening, in 1929 near Boston, of the nation's first Howard Johnson's and that restaurant's establishment as a franchise in the next decade. The result is a compelling story that continues to shape America.
