Books of Fate and Popular Culture in Early China ,2017-11-06 Books of Fate and Popular Culture in Early China is a comprehensive introduction to the manuscripts known as daybooks, examples of which have been found in Warring States, Qin, and Han tombs (453 BCE–220 CE). Their main content concerns hemerology, or "knowledge of good and bad days." Daybooks reveal the place of hemerology in daily life and are invaluable sources for the study of popular culture. Eleven scholars have contributed chapters examining the daybooks from different perspectives, detailing their significance as manuscript-objects intended for everyday use and showing their connection to almanacs still popular in Chinese communities today as well as to hemerological literature in medieval Europe and ancient Babylon. Contributors

include: Marianne Bujard, László Sándor Chardonnens, Christopher Cullen, Donald Harper, Marc Kalinowski, Li Ling, Liu Lexian, Alasdair Livingstone, Richard Smith, Alain Thote, and Yan Changgui.

A Buff Looks at the American Civil War Shon Powers,2011-04-28 There have been thousands of books put out about the Civil War, but none by a Civil War Buff, so I wrote one. This book was a produce of five years' work and puts the war in a way that casual fans of the war will be surprised at what took place. This book is in three parts: Civil War Timeline: the events, battles, politics, and personal observations of those who were a part of the war. Things that any good soldier of the Civil War should know: the weapons, uniforms, food, duties, marching, fighting, medical advice, and slang (with a little tribute to the Navy and Marines). Amazing Facts: starting with the issues, this

part displays many facts that usually do not make it into the history books.

Collected Works (12+ illustrated edition) of Karl Marx: Capital, The Communist Manifesto,Critique of Hegel's Philosophy of Right Karl Marx,2021-01-08 Karl Heinrich Marx was a German philosopher, economist, historian, sociologist, political theorist, journalist and socialist revolutionary. It is hard to think of many who have had as much influence in the creation of the modern world. In addition to his overtly philosophical early work, his later writings have many points of contact with contemporary philosophical debates, especially in the philosophy of history and the social sciences, and in moral and political philosophy. Historical materialism — Marx's theory of history — is centered around the idea that forms of society rise and fall as they further and then impede the development of human productive power. Marx's economic analysis of capitalism is based on his version of the labour theory of value, and includes the analysis of capitalist profit as the extraction of surplus value from the exploited proletariat. Marx sees the historical process as proceeding through a necessary series of modes of production, characterized by class struggle, culminating in communism. Content Critique of Hegel's Philosophy of Right, 1843 On the Jewish Question, 1843 The Holy Family, 1845 Theses on Feuerbach, 1845 The Poverty of Philosophy, 1847 Wage Labour and Capital, 1847 Manifesto of the Communist Party, 1848 The Class Struggles in France, 1850 Address of the Central Committee to the Communist League The Eighteenth Brumaire of Louis Napoleon, 1852 A Contribution to the Critique of Political Economy, 1859 Marx's Inaugural Address Capital
