The Trap Dan Billany,2012-02-14 Dan Billany's *The Trap*, first published in 1950, still stands - in the opinion of M.R.D. Foot - as 'one of the most powerful English novels to come out of the [Second World War].' It echoes the wartime experiences of its author, who is believed to have died in 1943 while on the run from an Italian POW camp, but not before entrusting the manuscripts of *The Trap* to safekeeping. The book's narrator, army lieutenant Michael Carr, tells of his early years in Cornwall, of the girl he met and loved there, and of the hard times her family endured between the wars. These troubles and joys give way to the tragedy of war, and the book's narrative becomes one of comradeship, suspense and fighting in the North African desert. 'The Trap is an outstanding novel by a writer of natural genius... written with great force and honesty... profoundly impressive.' *Times Literary Supplement*

The Dinosaur Filmography Mark F. Berry,2015-08-31 From classics like *King Kong*, to beloved B-movies like *The Beast from 20,000 Fathoms*, to blockbusters like *Jurassic Park*, it's easy to see that filmmakers and audiences alike love to see dinosaurs on the screen. This comprehensive filmography, arranged alphabetically by title, contains entries that include basic facts (year of release, country of origin, studio, and running time), followed by a concise plot summary, the author's critical commentary, information on the production and the people behind it, and secrets of the often-ingenuous special effects. Three useful appendices feature films with minor dinosaur content, planned but unfinished dinosaur movies, and the quasi-dinosaurs of Toho Studios. To be included, a movie must depict one or more representations of a "prehistoric reptile." Inaccurate portrayals are included, as long as the intent is to represent a real or fictional

dinosaur. Not eligible are films featuring prehistoric mammals, prehistoric humans or humanoids, and beasts of mythology—unless, of course, the movie also has a dinosaur.

Dino Mania Michael Anthony DiSpezio,2003 Imagine there's a real Jurassic Park right around the block--wouldn't that be super? These dinosaur activities, projects, and other fun things to do are the next best thing. Journey back to ancient times with a prehistoric quiz that sets the facts straight on whether dinos could fly, if the largest dinosaurs dragged their tails on the ground, and what the complete skeleton of a T-Rex looks like. Identify different dinosaurs by their silhouettes. Flip through history with stick figure animations you make yourself. Learn about fossils and where to find them. The art's great, too: you'll see pictures of a fossilized tooth (actual size), an enlargement of an iguana, the image of an iguanodon, and more.
