Visualizing the Structure of Science Benjamín Vargas-
Quesada,Félix de Moya-Anegón,2007-05-19 This book presents a
methodology for visualizing large scientific domains. Authors Moya-
Anegón and Vargas-Quesada create science maps, so-called
scientograms, based on the interactions between authors and their
papers through citations and co-citations, using approaches such as
domain analysis, social networks, cluster analysis and pathfinder

networks. The resulting scientograms offer manifold possibilities.

Government Finance Statistics Yearbook, 2011 International Monetary Fund. Statistics Dept.,2012-03-13 The IMF Government Finance Statistics contains statistical data on government financial operations for 156 countries. Where reported, the database contains time series from 1990 onwards using the Government Finance Statistics Manual 2001 (GFSM 2001) framework. The statistics, issued quarterly, are updated as new data are received and time series become available. These time series present combined statistics on revenue, expense, transactions in non-financial assets, and financial assets and liabilities, as well as on stocks of assets and liabilities of

general government and its subsectors.
