*The Heart of a Necromancer* Eddie Patin, 2018-10-17 Explore other Universes. Hunt Deadly Monsters. Make a Profit. What an amazing new life of gold, guns, glory ... and dinosaurs! Enjoying some rest and relaxation between bounties while waiting for his new minotaur-hide jacket to be ready, Jason Leaper 934 feels like he's really getting the hang of his rifting powers. And when the Reality Rifiers are at the right place at the right time, Jason earns his team an exclusive job involving a necromancer and hunting gargoyles on a world similar to his own that's been long-cast back into the dark ages. But after a sad and shocking twist, Jason is left struggling with the meaninglessness of an infinite omniverse, and Riley's answer of don't think about it isn't enough for him. As the Reality Rifiers delve deeper into their 'exclusive' bounty, the evil politics of a backward, brainwashed village--as well as a beautiful local girl with a dark and tragic past--tempt Jason to become involved in more than just the grisly business of monster hunting. Will guns, armor, and rifting powers be enough for the Reality Rifiers when the Darkness comes...? *The Heart of a Necromancer* is a fast-paced adventure story and is the third book in the Monster Hunting for Fun and Profit series about Jason Leaper 934 and his planeswalking Reality Rifiers, Monster Hunters for hire. If you love books about guns, survival, vicious and terrible mythical monsters, cosmic horror, time travel, DINOSAURS, and exploring strange new worlds ... read this today!

**The Wyvern in the Wilderlands (Book 1)** Eddie Patin, 2018-09-11 Explore other Universes. Hunt Deadly Monsters. Make a Profit. Jason always loved dinosaurs as a kid. He never thought that one day he'd be trapped on a dinosaur world struggling to stay alive. This is the story of Jason Leaper of Earth, universe 934. In the mind-bending expanse of parallel universes and higher dimensions, the unexpected death of an alternate Jason Leaper launches our hero's boring life into a wild adventure of survival, fantastic creatures, and bizarre other worlds! All Jason Leapers across the infinite multiverses have the ability to rift--to open portals through other dimensions to shift between alternate realities. And when the last survivors of the Reality Rifiers--an interdimensional Monster Hunter crew--come looking for Jason 934, the directionless man suddenly finds his latent powers awakened and his life is changed forever. When he is suddenly teleported to the Wilderlands, a vicious and primordial alternate Earth overrun with dinosaurs, primitive savages, and epic wilderness, Jason is cast into a visceral struggle for basic survival and needs to figure out his rifting powers in a hurry if he expects to get home. And when the monster hunting planeswalkers finally catch up to him, will Jason Leaper 934 slay the apex predator in the region and take his place in the Reality Rifiers? *The Wyvern in the Wilderlands* is a

**Tyrannosaurus Sue** Steve Fiffer, 2000 Over 65 million years ago in what is now Cheyenne River Sioux territory in South Dakota, a Tyrannosaurus rex matriarch locked in a ferocious battle fell mortally wounded. In 1990, her skeleton was found, virtually complete, in what many call the most spectacular dinosaur fossil discovery to date. And then another battle began--a free-for-all involving commercial dinosaur hunters, gun-toting law officers, an ambitious federal prosecutor, a Native American tribe, jealous academics, an enterprising auction house, major museums, and corporate giants. At stake: not just Sue's wealth of scientific riches, but her grant-drawing power and vast commercial potential as well. Sue is not just another dinosaur, and this is not just another dinosaur book. It is an introduction to the centuries-old history of commercial fossil hunting, a legal thriller, and a provocative look at academic versus commercial science and the chase for the money that fuels both.--From publisher description.

**The Minotaurs of Maze World** Eddie Patin, 2018-09-25 Explore other Universes. Hunt Deadly Monsters. Make a Profit. Jason Leaper 934 is back from his survival adventure in the Wilderlands, and is about to go on his first mission with his new friends, Riley the cybernetic soldier, and Gliath the shapeshifting leopardwere. The new guy's more than a little nervous... When Jason is introduced to the wild and mind-bending concepts of planeswalking and visits 'the Market' for the first time, he's definitely intimidated by Riley's expectations of him. With little to no direction, he's supposed to figure out his rifting powers in a hurry while on the job to hunt and kill minotaurs on a bizarre maze-like world and harvest their hides. Riley himself is upset about losing the last Jason and essentially starting over--he never wanted to be the leader of the Reality Rifiers! As the three of them hunt for bounties on Maze World, Riley's patience is put to the test and Jason tries to forge himself in the fires of determination while wondering whether or not he's cut out for this kind of life. And when the hunt becomes more complicated as competition with a rival mercenary group turns deadly, Riley and Jason must both face their difficulties with skill and good sense, or all three of the new Reality Rifiers might end up dead--either at the hands of the other hunters, or under the horns and hooves of monsters! The Minotaurs of Maze World is a fast-paced, weird fantasy/science fiction story and is the second book in the Monster Hunting for Fun and Profit series about Jason Leaper 934 and his planeswalking Reality Rifiers, Monster Hunters for hire. If you love books about guns, survival, vicious and terrible mythical monsters, cosmic horror, time travel, DINOSAURS, and exploring strange new worlds ... read this today!

*Flight of a White Dinosaur* James Edward Harris Jr., 2011-11-16 What I see happening in America and Virginia is much like a dam on a river, maybe even the James River, which I have come to love even after many official trips along the river chasing juvenile escapees. I cut my teeth while hunting on small streams and rivers, such as the Bush, Briery, and Buffalo Rivers in Prince Edward County, and the Tongue Quarter and Willis Rivers in Buckingham County. All of these are secondary or primary tributaries to the James River,

so the way I see it my destiny was to work down to a mighty river that easily gets out of its banks (figuratively speaking) with one type of corruption after another. I saw it as my mission to plunge myself into the river (or the irregularities) and now to report to you on what I learned. When the rivers temperature is within certain ranges, and the water flow is smooth and unencumbered, everyone is happy and at one with the mighty James. Domestic tranquility in our Constitution is what we strive for, but unfortunately our country and the Commonwealth of Virginia have gone off the deep end with cherished principles; I am not alone there are many who are disenfranchised because they see deadbeats of various types on the public dole and our citizens not undergoing a common struggle

Wargames Martin van Creveld,2013-04-04 Where did wargames come from? Who participated in them, and why? How is their development related to changes in real-life warfare? Which aspects of war did they capture, which ones did they leave out, how, and why? What do they tell us about the conduct of war in the times and places where they were played? How useful are they in training and preparation for war? Why are some so much more popular than others, and how do men and women differ in their interest? Starting with the combat of David versus Goliath, passing through the gladiatorial games, tournaments, trials by battle, duels, and board games such as chess, all the way to the latest simulations and computer games, this unique book traces the subject in all its splendid richness. As it does so, it provides new and occasionally surprising insights into human nature.

The Doctor and the Dinosaurs Mike Resnick,2013-12-10 Welcome to a Steampunk wild west starring Doc Holliday, with zombies, dinosaurs, robots, and cowboys. The time is April, 1885. Doc Holliday lies in bed in a sanitarium in Leadville, Colorado, expecting never to leave his room again. But the medicine man and great chief Geronimo needs him for one last adventure. Renegade Comanche medicine men object to the newly-signed treaty with Theodore Roosevelt. They are venting their displeasure on two white men who are desecrating tribal territory in Wyoming. Geronimo must protect the men or renege on his agreement with Roosevelt. He offers Doc one year of restored health in exchange for taking on this mission. Welcome to the birth of American paleontology, spearheaded by two brilliant men, Edward Drinker Cope and Othniel Charles Marsh, two men whose genius is only exceeded by their hatred for each other's guts. Now, with the aid of Theodore Roosevelt, Cole Younger, and Buffalo Bill Cody, Doc Holliday must save Cope and Marsh not only from the Comanches, not only from living, breathing dinosaurs, but from each other. And that won't be easy.

**Turok, Son of Stone** Gaylord Du Bois,Paul S. Newman,2009 Earth's prehistoric past flourishes in a lost valley where two young Native Americans, Turok and Andar, have become trapped. While they struggle to survive among the honkers (dinosaurs) and prehistoric human residents, they hold on to the hope that one day they will discover a way out of the valley and be reunited with their tribe. \* In early 2008, a seventy-minute animated DVD titled Turok, Son of

Stone was released by Classic Media. \* This volume collects Turok: Son of Stone #7-#12.

*Discovering the Mammoth* John J McKay, 2018-08-14 Long after the last mammoth died and was no longer part of our diet, this awe inspiring creature still played a role in human life. Cultures around the world interpreted the remains of mammoths through their own world view and mythology. When the ancient Greeks saw deposits of giant fossils, they knew they had discovered where the gods had vanquished the titans. When the Chinese discovered buried ivory, they knew they had found dragons' teeth. But as the Age of Reason dawned, monsters and giants gave way to the scientific method. Yet the mystery of these mighty bones remained. How did Enlightenment thinkers overcome centuries of myth and misunderstanding to reconstruct an unknown animal? The journey to unravel that puzzle begins in the 1690s with the arrival of a new type of ivory from Russia. It ends during the Napoleonic Wars with the first recovery of a frozen mammoth. The path to figuring out the mammoth was traveled by a colorful cast of characters, including Peter the Great, Ben Franklin, the inventor of hot chocolate, even one pirate, and it culminates with the creation of the science of paleontology.

**How to Build a Dinosaur** Jack Horner, James Gorman, 2009-03-19 A world-renowned paleontologist reveals groundbreaking science that trumps science fiction: how to grow a living dinosaur. Over a decade after Jurassic Park, Jack Horner and his colleagues in molecular biology labs are in the process of building the technology to create a real dinosaur. Based on new research in evolutionary developmental biology on how a few select cells grow to create arms, legs, eyes, and brains that function together, Jack Horner takes the science a step further in a plan to reverse evolution and reveals the awesome, even frightening, power being acquired to recreate the prehistoric past. The key is the dinosaur's genetic code that lives on in modern birds—even chickens. From cutting-edge biology labs to field digs underneath the Montana sun, *How to Build a Dinosaur* explains and enlightens an awesome new science.

The Perfect Shot for Dinosaurs Phil Massaro, 2018-11-07 Any self-respecting big game hunter owns—or should own—Dr. Kevin Robertson's *The Perfect Shot*, for hunting African animals, and its sister volume, Craig Boddington's *The Perfect Shot North America*. These two books have become invaluable for the traveling sportsman and sportswoman seeking to become familiar with shot placement, habits, and suitable firearm choices for hunting many of the most popular mammals throughout the two continents. Safari Press has now teamed up with notable author and international big-game hunter Philip Massaro to bring you a volume on the ultimate hunting adventure: *The Perfect Shot for Dinosaurs*. Bored with the Big Five? Finding grizzly bears ho-hum? Let Massaro help you prepare for the ultimate big-game quarry: prehistoric dinosaurs that have survived to this day. *The Perfect Shot for Dinosaurs* covers twenty dinosaur species, their habits and physiology, hunting methods, and the proper choice of firearm for each hunting scenario, and, of course, there's a ghost view that exposes the vitals for each. Massaro's extensive pursuit of the varying dinosaur species has given him an insight into hunting these terrible lizards, and his experiences will aid you in your own pursuits. Renowned artist Laurie O'Keefe has provided detailed drawings, highlighting the vital organs and aiding the would-be dinosaur hunter by giving real-world information on shot placement. From the mighty Mosasaur and horrific

Quetzalcoatlus to the more popular Stegosaurus, Triceratops, and, yes, even the Tyrannosaurus Rex, all are covered within the covers of *The Perfect Shot for Dinosaurs*. With a foreword and contributions from controversial dinosaur expert Jarrett M. Lane, *The Perfect Shot for Dinosaurs* debunks the K-T 66 extinction myth, and sheds light onto the actual biological workings of the various dinosaurs. Massaro draws upon his experiences as a ballisticsian and dinosaur hunter to recommend cartridge and bullet choices, as well as covering the gamut of dinosaur-worthy firearms. A must-have for any trophy room, hunting camp, den, or bathroom, *The Perfect Shot for Dinosaurs* is a tongue-in-cheek look at big-game hunting. And now that Donald Trump Jr. was seen on You Tube with a Stegosaurus he had killed on a recent African safari, this guide has become essential for your pursuit of the Dinosaur Grand Slam! Should you actually have the courage to take on one of these terrible lizards, this guide will not only become invaluable when embarking on the ultimate big-game hunt of a lifetime . . . it might just save your life! Be sure to get you copy so that you can make a clean kill on your next hunt!

**The Day It Finally Happens** Mike Pearl, 2020-09-22 From a VICE magazine columnist, "a deeply entertaining--if occasionally horrifying" (Joshua Piven,

coauthor of *The Worst-Case Scenario Survival Handbook*) look at how humanity is likely to weather such happenings as nuclear war, a global internet collapse, antibiotics shortages, and even immortality. If you live on planet Earth you're probably scared of the future. How could you not be? Some of the world's most stable democracies are looking pretty shaky. Technology is invading personal relationships and taking over jobs. Relations among the three superpowers—the US, China, and Russia—are growing more complicated and dangerous. A person watching the news has to wonder: is it safe to go out there or not? Taking inspiration from his virally popular VICE column "How Scared Should I Be?," Mike Pearl games out many of the "could it really happen?" scenarios we've all speculated about, assigning a probability rating, and taking us through how it would unfold. He explores what would likely occur in dozens of possible scenarios—among them the final failure of antibiotics, the loss of the world's marine life, a complete ban on guns in the US, and even contact with extraterrestrial life—and reports back from the future, providing a clear picture of how the world would look, feel, and even smell in each of these instances. For fans of such bestsellers as *What If?* and *The Worst Case Scenario Survival Handbook*, *The Day It Finally Happens* is about taking future events that we don't really understand and getting to know them in close detail. Pearl's "well-researched speculations induce daydreams and nightmares and mark [him] as one of his generation's most interesting writers" (Alec Ross, New York Times bestselling author).

Assembling the Dinosaur Lukas Rieppel, 2019-06-10 Lukas Rieppel shows how dinosaurs gripped the popular imagination and became emblems of America's industrial power and economic prosperity during the Gilded Age. Spectacular fossils were displayed in museums financed by North America's wealthiest tycoons, to cement their reputation as both benefactors of science and fierce capitalists.

*The Bad Eggs: That Dirty Yellow Mustard #4* Bob Layton, 2016-10-12 Much Do-Do About Nothing - Because you demanded it! It's the last issue of *The Bad Eggs!* Acclaim gives the comic retailers what they've been asking for -- one less book to clutter up their shelves! Who says we don't care? In this issue, Bob, Don and Gonzalo planned a spectacular finale and were going to reveal the identity of the Mad Dookie Bomber! But after learning of the book's cancellation, they...well...er...let's face it, the heart went out of them. They're acting like cry babies. (We don't even know what Gonzalo's upset about, since no one in marketing speaks Spanish!) Anyway, after we promised them free copies of the N64 *Turok Dinosaur Hunter* video game, they agreed to complete the issue. So, thanks to bribes and marketing ingenuity, you'll find out who's been slinging the mustard at Ript and Claude and why he's been making their lives miserable. (The tremendously fabulous ending will mildly shock you!)
