**Direct Selling** Sara L. Cochran,Anne T. Coughlan,Victoria L. Crittenden,2021-09-14 The Power of Direct Selling. Direct selling is not an industry per se nor is it merely a go-to-market business model and channel to reach consumers. It is bigger than any of this - direct selling is people. The ability for people with entrepreneurial spirit to build a successful business, whether it be from the ground up or by representing a company's product, is at the heart of direct selling and it is people who made (and continue to make) direct selling the successful marketplace that it is today. The direct selling marketplace is comprised of mission-driven and socially responsible companies offering a wide variety of product and services, and the list of direct selling companies is abundant with entrepreneurs who built their businesses by utilizing an independent salesforce channel to market and sell their products or services directly to consumers. Possibly one of the most prominent of these entrepreneurs is Mary Kay Ash, a legend as a glass-

ceiling breaker and a woman who built a very successful business with a go-to-market strategy of direct selling. Unlike Mary Kay Ash, however, not all aspiring business owners are willing/able to invest their savings and time on a start-up business. These micro-entrepreneurs desire to have the economic and social benefits of managing their own businesses but do not want the startup costs and demands associated with traditional business planning. As such, becoming a direct selling distributor offers a low-risk, low-cost pathway to micro-entrepreneurship. The traditional barriers to small business ownership are removed when a micro-entrepreneur builds a direct selling business that is backed by established brands. These established brands, several of which are featured in this book, offer the micro-entrepreneurs quality products, business training, and technological resources to achieve a self-determined metric of success. Framed within the context of entrepreneurship and an historical overview of the long-term sustainability of this business model, this book is intended for practitioners who want to read about the breadth and depth of direct selling. Importantly, this book provides considerable depth in terms of three particular issues associated with direct selling: Compensation, Ethics & compliance, and Global reach. For scholars, this book is built on a strong foundation of valid and reliable research endeavors. The authors have published research on direct selling in high quality, reputable and peer-reviewed academic and practitioner journals. Thus, this book can add foundationally to the research efforts of academics

who are conducting research in a wide variety of topics (such as sales, women empowerment, business strategy, ethics, distribution models, gig economy, and global entry - to name a few), as well as to members of the press who want reliable and valid content upon which to build their stories. The book's content is also particularly informative for policymakers at the local, state, national, and international levels. For students, reading this book will offer a variety of insights, particularly related to the intricacies of channel selection and design. Direct Selling: A Global and Social Business Model is a collective project from eight academics and practitioners who have dedicated much of their careers to understanding direct selling as both a go-to-market strategy and a channel of distribution and to capturing the people who are the foundation of direct selling. The pages of this book bring together a wealth of research and knowledge that can inform a broad spectrum of constituents about the economic and social benefits of direct selling, while also providing detail and clarity on key issues related to direct selling as a sustainable business model.

*Direct Selling* Robert FitzPatrick, 2023-05-15 *DIRECT SELLING*, a Non-Fiction Fable is about what actual direct selling is. It is told as a fable - but

it's not fiction. The story dramatically illuminates - and illustrates - the real world of direct selling, not the phony history or the entrapping myth spread by multi-level marketing schemes. In the real world, direct selling can be brutally hard on the soul, sometimes ruthless and deceptive in methods, and no one who did it ever believed it was a path to unlimited wealth. Few people could do it, and of those who did, few wanted to. It was never glamorous. True direct selling mostly went extinct by 1980 as big box stores and then online selling, among other social factors, made it unneeded, unwanted and unfeasible. Direct Selling contrasts the real world of direct selling with people's hopes for sustainable work, with integrity, meaning and purpose. If consumers don't know what direct selling is, they are likely to fall victim to a fraud in direct selling disguise. Robert FitzPatrick is an expert on direct selling, multi-level marketing (MLM), and pyramid schemes. He's the author of PONZINOMICS and False Profits. He consults in court cases and is regularly interviewed for news, podcasts and documentaries. He also knows about direct selling - real direct selling - from experience.

Defcon 1 Direct Selling is the must-have playbook for anyone leading a direct sales team. It's Gage's follow up to the international bestseller, Direct Selling Success, and it's a handbook for leaders. DEFCON is the U.S. military acronym for “Defense Readiness Condition.” DEFCON 1 is reserved only for imminent catastrophic events, like a nuclear war. Luckily, you don't have to fend off missile attacks in direct

selling, but you will face some extremely difficult challenges and urgent crises leading your MLM team. Many of these challenges are caused by factors completely out of your control—from economic, regulatory, and political setbacks, to having top leaders quit, to companies going out of business, and a host of other issues. It's at times like these, when it seems like your team is falling apart, that you must draw upon your resilience, persistence, and character to ride out the storm and lead your team through the chaos. This indispensable resource will enable you to: Create a team culture of maximum readiness Deal with toxic leaders and effectively handle conflict resolution Use your leadership to make your team more powerful and build their self-esteem Handle corporate incompetence, poor decisions, and PR crises Know what to do when you or a team leader leave a company Most leadership books will tell you, wrongly, that every situation has an ideal solution. Not this one. Defcon 1 Direct Selling: Manual for Field Leaders

delivers the plain, unadulterated truth that everyone leading a direct sales team needs to know.
