Truth, Dare or Promise Liz Heron,2014-09-04 In this collection of autobiographical writing 12 women who grew into feminism in the 1970s look back on their childhoods. Some of the contributors grew up in homes of pinching poverty, others in an unbending orderliness, and others in an easy security. But the two great landmarks of this post-war Britain - the Welfare State and the Education Act - were a common feature which gave many of the girls a sense of possibility and of aspiration to a different future. The contributors include Alison Fell, Harriett Gilbert, Alison Hennegan, Liz Heron, Ursula Huws, Gail Lewis, Julia Pascal, Stef Pixner, Denise Riley, Sheila Rowbotham, Carolyn Steedman and Valerie Walkerdine. The editor is the author of the short-story collection A Red River.

STEM of Desire ,2019-01-14 STEM of Desire: Queer Theories and Science Education locates, creates, and investigates intersections of science, technology, engineering, and mathematics (STEM) education and queer theorizing. Manifold desires—personal, political, cultural—produce and animate STEM education. Queer theories instigate and explore (im)possibilities for knowing and being through desires normal and strange. The provocative original manuscripts in this collection draw on queer theories and allied perspectives to trace entanglements of STEM education, sex, sexuality, gender, and desire and to advance constructive critique, creative world-making, and (com)passionate advocacy. Not just another call for inclusion, this volume turns to what and how STEM education and diverse, desiring subjects might be(come) in relation to each other and the world. STEM of Desire is the first book-length project on queering STEM education. Eighteen chapters and two poems by 27 contributors consider STEM education in schools and universities, museums and other informal learning environments, and everyday life. Subject areas include physical and life sciences, engineering, mathematics, nursing and medicine, environmental education, early childhood education, teacher education, and education standards. These queering orientations to theory, research, and practice will interest STEM teacher educators, teachers and

professors, undergraduate and graduate students, scholars, policy makers, and academic libraries. Contributors are: Jesse Bazzul, Charlotte Boulay, Francis S. Broadway, Erin A. Cech, Steve Fifield, blake m. r. flessas, Andrew Gilbert, Helene Götschel, Emily M. Gray, Kristin L. Gunckel, Joe E. Heimlich, Tommye Hutson, Kathryn L. Kirchgasser, Michelle L. Knaier, Sheri Leafgren, Will Letts, Anna MacDermut, Michael J. Reiss, Donna M. Riley, Cecilia Rodéhn, Scott Sander, Nicholas Santavicca, James Sheldon, Amy E. Slaton, Stephen Witzig, Timothy D. Zimmerman, and Adrian Zongrone.

A Left that Dares to Speak Its Name Slavoj Žižek, 2020-04-14 With irrepressible humor, Slavoj Žižek dissects our current political and social climate, discussing everything from Jordan Peterson and sex “unicorns” to Greta Thunberg and Chairman Mao. Taking aim at his enemies on the Left, Right, and Center, he argues that contemporary society can only be properly understood from a communist standpoint. Why communism? The greater the triumph of global capitalism, the more its dangerous antagonisms multiply: climate collapse, the digital manipulation of our lives, the explosion in refugee numbers – all need a radical solution. That solution is a Left that dares to speak its name, to get its hands dirty in the real world of contemporary politics, not to sling its insults from the sidelines or to fight a culture war that is merely a fig leaf covering its political and economic failures. As the crises caused by contemporary capitalism accumulate at an alarming

rate, the Left finds itself in crisis too, beset with competing ideologies and prone to populism, racism, and conspiracy theories. A Left that Dares to Speak Its Name is Žižek's attempt to elucidate the major political issues of the day from a truly radical Leftist position. The first three parts explore the global political situation and the final part focuses on contemporary Western culture, as Žižek directs his polemic to topics such as wellness, Wikileaks, and the rights of sexbots. This wide-ranging collection of essays provides the perfect insight into the ideas of one of the most influential radical thinkers of our time.

Whatever You Say I Am Anthony Bozza, 2010-08-04
does Eminem matter? On assignment for his first cover story for Rolling Stone, the very first national cover story on Eminem, Anthony Bozza met a young blond kid, a rapper who would soon take the country by storm. But back in 1999, Eminem was just beginning to make waves among suburban white teenagers as his first single, "My Name Is," went into heavy rotation on MTV. Who could have predicted that in a mere two years, Eminem would become the most reviled and controversial hip-hop figure ever? Or that twelve months after that, Eminem would sit firmly at the pinnacle of American celebrity, a Grammy winner many times over and the recipient of an Oscar. Did Eminem change or did America finally figure him out? *Whatever You Say I Am* attempts to answer this question and many more. Since their first meeting, Bozza has been given a level of access to Eminem that no other journalist has enjoyed. In *Whatever*

You Say I Am, original, never-before-published text from Bozza's interviews with Eminem are combined with the insight of numerous hip-hop figures, music critics, journalists, and members of the Eminem camp to look behind the mask of this enigmatic celebrity. With an eye toward Eminem's place in American popular culture, Bozza creates a thoughtful portrait of one of the most successful artists of our time. This is so much more than a biography of a thoroughly well-documented life. It is a close-up look at a conflicted figure who has somehow spoken to the heart of America.

Poseur Marc Spitz, 2013-02-12 A rock writer and music blogger trances his personal history through the Lower East Side's social scene of the 1990s, where heroin and cocaine use was rampant and Courtney Love, Morrissey, Alan Ginsberg, Damien Hirst and Joe Strummer held court. Original. 25,000 first printing.

Awakening Alexander Degrade, 2000-12 Ever wake up and not know where you are, or how you got there and you're not sure where home is? Unbelievable! I'll tell you what is unbelievable, my sister and I were on vacation with our mother in Roswell, and that's the last thing either of us can remember. The next thing we know we wake up in that cave with you, Lycus and Lady Bellmany. You tell Belle and me we are on another planet, but even you don't know how or why we are here. If we don't know where we are, our parents sure don't know where we are. Do you know how worried they must be?! Tears were streaming down Sam's face, and her voice was cracking, You tell us we have to stick close to you to be safe, but you won't explain

exactly why. On top of all that, you tell us that Rikka is related to us, except she is almost the color of snow, has elf-like ears and levitates in midair. You make us responsible for her by making me her mother. Don't you think it is about time you laid all your cards on the table?! Sam screamed at Dair.

The Beauty of the 'Burst Yasuhiko Iwanade, 1998 (Book). Finally, the long-awaited English edition of this historic Japanese book is here! The Beauty of the 'Burst pays tribute to Gibson's magnificent Sunburst Les Pauls made between 1958 and 1960, the most highly prized solidbody electric guitars ever. The magnitude of their value is directly related to their look (outrageous wood patterns, or figured timber), since non-players are paying top dollar for them. The book features lavish full-color photos of these beautiful instruments throughout; the guitars of famous players; a foreword by Ted McCarty; a bio of the author,

world renowned collector Yasuhiko Iwanade; and the Science of the Burst section with over 30 pages of detailed reference facts on every facet of the guitar, including colors, wood figure, pick-ups, hardware and qualities of voice. This may be the closest guitarists will ever be able to get to these incredibly collectible beauties! 216 pages, 8-1/2 x 11 Softcover
