Elastic Lidar Vladimir A. Kovalev,William E. Eichinger,2004-04-27 * Focuses only on elastic lidars and directly related topics. * Evaluates all of the major inversion and analysis methods. * Covers an emerging field that is generating a lot of interest.

Symmetries of Integro-Differential Equations Sergey V. Meleshko,Yurii N. Grigoriev,N. Kh. Ibragimov,Vladimir F. Kovalev,2010-07-12 This book provides an accessible yet comprehensive description of the application methods of group analysis to integro-differential equations. It offers both fundamental theoretical and algorithmic aspects of these methods and includes instructive examples.

Approximate and Renormgroup Symmetries N. Kh. Ibragimov,Vladimir F. Kovalev,2010-10-08 Approximate and Renormgroup Symmetries deals with approximate transformation groups, symmetries of integro-differential equations and renormgroup symmetries. It includes a concise and self-contained introduction to basic concepts and methods of Lie group analysis, and provides an easy-to-follow introduction to the theory of approximate transformation groups and symmetries of integro-differential equations. The book is designed for specialists in nonlinear physics - mathematicians and non-mathematicians - interested in methods of applied group analysis for investigating nonlinear problems in physical science and engineering. Dr. N.H. Ibragimov is a professor at the Department of Mathematics and Science, Research Centre ALGA, Sweden. He is widely regarded as one of the world's foremost experts in the field of symmetry analysis of differential equations; Dr. V. F. Kovalev is a leading scientist at the Institute for Mathematical Modeling, Russian Academy of Science, Moscow.

English Grammar for Communication G. De Devitiis,L. Mariani,K. O'Malley,1997

A Grammar of English Words Harold E. Palmer,1961

Chambers Compact English Dictionary ,2007

Basic Concepts of Intercultural Communication Milton Bennett,2013-10-31 In the long-awaited second edition of Basic Concepts of Intercultural Communication, Milton J. Bennett provides a comprehensive overview of the field from a constructivist perspective. In addition to his insightful analysis, Bennett offers a full complement of classic readings on the topic of intercultural communication, including: • "Science and Linguistics," by Benjamin Lee Whorf • "The Power of Hidden Differences," by Edward T. Hall • "Culture: A Perceptual Approach," by Marshall R. Singer • "Communication in a Global Village," by Dean Barlund • "Cultural Identity: Reflections on Multiculturalism," by Peter S. Adler

Heads in Grammatical Theory ,

The Focusing Hypothesis Alison Wray,1992 This book explores the nature of the control of language processing by the hemispheres of the neocortex. The author expounds a novel hypothesis, [The Focusing Hypothesis], which holds that language processing in the brain is achieved through analytic and holistic systems, the former through left and the latter through right hemisphere processing. This hypothesis differs from current thinking in so far as it proposes that the involvement of the two systems (and two hemispheres) depends on the strategy selected by the speaker and that the engagement by one hemisphere over another will depend upon the communicative intent of the speaker and the propositionality of the utterance under production. Throughout the book there are useful and important discussions on such topics as the value of laboratory-based psycholinguistic experiments [given their tendency to encourage a [metalinguistic] strategy on the part of subjects, the nature of propositionality in language and brain and the difficulties of testing this hypothesis given the research approaches currently available. The Focusing Hypothesis is tested by comprehensive review of the existing experimental psycholinguistic, neuropsychological and neurophysiological literature, and a range of predictions which follow from the hypothesis are

detailed.

Microeconomics for Managers David M. Kreps, 2004 Developed over a ten year period at the Stanford Business School, this textbook underscores the connections between microeconomics and business. Its full-length, integrated case studies reveal how economic models can yield answers to practical problems.

A Grammar of Aspect J. Forsyth, 1970-07 This book examines the aspect - the relationship between imperfective and perfective verbs - found in the Russian language.

Translation Studies: An Interdiscipline Mary Snell-Hornby, Franz Pöchhacker, Klaus Kaindl, 1994-05-11 A selection of 44 papers out of the 163 presented at the Translation Studies Congress, which was held in celebration of the 50th anniversary of the Institut für Dolmetscher und Übersetzer Ausbildung in Vienna, shows how translation studies is moving away from purely linguistic analysis into LSP, psychology, cognition, and cultural orientations. The volume is divided into sections reflecting the focal subject areas at the Congress: Translation, history and culture; Interpreting theory and training; Terminology and special languages; Teaching and training in translation. Also included are papers from a special workshop including interdisciplinary research projects from Vienna. Of the articles, 25 are written in English, 16 in German, and 3 in French.

The Cambridge History of Literary Criticism: Volume 3, The Renaissance George Alexander Kennedy, Glyn P. Norton, 1989 This 1999 volume was the first to explore as part of an unbroken continuum the critical legacy both of the humanist rediscovery of ancient learning and of its neoclassical reformulation. Focused on what is arguably the most complex phase in the transmission of the Western literary-critical heritage, the book encompasses those issues that helped shape the way European writers thought about literature from the late Middle Ages to the late seventeenth century. These issues touched almost every facet of Western intellectual endeavour, as well as the historical, cultural, social, scientific, and technological contexts in which that activity evolved. From the interpretative reassessment of the major ancient poetic texts, this volume addresses the emergence of the literary critic in Europe by exploring poetics, prose fiction, contexts of criticism, neoclassicism, and national developments. Sixty-one chapters by internationally respected scholars are supported by an introduction, detailed bibliographies for further investigation and a full index.

The Russian Officer Corps of the Revolutionary and Napoleonic Wars Alexander Mikaberidze, 2005-01-19 The Russian Officer Corps of The Revolutionary and Napoleonic Wars, 1795-1815 features more than 800 detailed biographies of the commanders of that era. Foreword by Professor Donald H. Howard, Institute on Napoleon and the French Revolution, Florida State University Based upon years of research in Russian archives, historian Alexander Mikaberidze's biographies include the subject's place of birth, family history, educational background, a detailed description of his military service, his awards and promotions, wounds, transfers, commands, and other related information, including the date and place of his death and internment, if known. In addition, an introductory chapter presents in meticulous detail the organization of the Russian military, how it was trained, the educational and cultural background of the officer corps, its awards and their history and meaning, and much more. This outstanding overview is supported and enhanced by three dozen charts, tables, and graphics that illustrate the rich history of the Russian officer corps. This study also includes an annotated bibliography to help guide students of the period through the available Russian sources. Stunning in its scope and depth of coverage, The Russian Officer Corps is essential reading for historians, scholars, genealogists, hobbyists, war gamers, and anyone working or studying late eighteenth and early nineteenth-century European history. Every student of the Revolutionary and Napoleonic Wars, as well as every academic library, will find this impressive reference work of this momentous period of history absolutely indispensable.

Problems of Science Federigo Enriques, Katharine Head Royce, 1914 Purchase of this book includes free trial access to www.million-books.com where you can read more than a million books for free. This is an OCR edition with typos. Excerpt from book: I. INTRODUCTION. 1. THE SPECIAL PROBLEMS AND GENERAL IDEAS OF SCIENCE A DOUBLE fatality hangs over one who has consecrated his days to science. If he would contribute to the advancement of science, he must prepare himself first of all by

a patient study of the thousands of details which constitute its technique; he must learn the results obtained by numberless laborers whose researches tend toward the same aim. He must master their conceptions and subject them to a new criticism. This work so engrosses the attention of the investigator that he has little time left for casting a glance over the branches of science which are developing beside him. Yet this necessity also weighs upon his soul. If on the one hand he ought to study special problems, on the other, he cannot exempt himself from considering the ends set before special research by rising to a general outlook which shall command the view of a broader scientific basis. This double necessity causes a conflict of tendencies, and this conflict in our system of production results in a loss of time and of work from which the intellectual world suffers. Most investigators, if they are not rightly directed, shut themselves up in a narrow circle and fall into a blind empiricism. Others lose themselves in the region of confused generalities, while a few finer spirits find the way for themselves, and often must win again by fresh efforts that which they should have a right to expect as the outcome of the completed work of their companions in labor. But the age of heroes, that of Descartes or Leibniz, whose genius opened all the doors of science, seems closed forever. The conquests of the past weigh upon the present and upon the future. And if it is permissible to hope that a happier use of our intellectual power...

Collins COBUILD Advanced Learner's Dictionary, 2023 The tenth edition of the Collins COBUILD Advanced Learner's Dictionary has been revised and updated to include detailed coverage of today's English in a clear, attractive format. Ideal for upper intermediate and advanced learners of English, this dictionary covers all the words, phrases, and idioms that students need to master in order to speak and write effective English. New to this edition is the inclusion of CEFR levels, helping learners to focus on the words that are most important. Full-sentence definitions and thousands of updated examples taken from the 4.5-billion-word Collins Corpus show learners how the words are used in authentic contexts. The dictionary offers extensive help with grammar through the inclusion of grammar patterns at examples, and includes a comprehensive supplement to help with academic and business grammar. Additional information is provided throughout the dictionary to help learners improve their knowledge of collocation, etymology, and synonymy. Informative and relevant vocabulary panels show how words are used in a range of everyday contexts. In addition, this dictionary offers learners guidance on how to communicate effectively in English.

The Circus and Other Stories Samuil Marshak, 2013-05-28 Collects four stories, including *The Circus*, in which rhyming text describes different circus performances.
