Last Night a DJ Saved My Life Bill Brewster, Frank Broughton, 2014-05-13 “A riveting look at record spinning from its beginnings to the present day . . . A grander and more fascinating story than one would think.” —Time Out London This is the first comprehensive history of the disc jockey, a cult classic now updated with five new chapters and over a hundred pages of additional material. It’s the definitive account of DJ culture, from the first record played over airwaves to house, hip-hop, techno, and beyond. From the early development of recorded and transmitted sound, DJs have been shaping the way we listen to music and the record industry. This book tracks down the inside story on some of music’s most memorable moments. Focusing on the club DJ, the book gets first-hand accounts of the births of disco, hip-hop, house, and techno. Visiting legendary clubs like the Peppermint Lounge, Cheetah, the Loft, Sound Factory, and Ministry of Sound, and with interviews with legendary DJs, Last Night a DJ Saved My Life is a lively and entertaining account of musical history and some of the most legendary parties of the century. “Brewster and Broughton’s ardent history is one of barriers and sonic booms, spanning almost 100 years, including nods to pioneers Christopher Stone, Martin Block, Douglas ‘Jocko’ Henderson, Bob ‘Wolfman Jack’ Smith and Alan ‘Moondog’ Freed.” —Publishers Weekly

DIY Media Michele Knobel, Colin Lankshear, 2010 Schools remain notorious for co-opting digital technologies to «business as usual» approaches to teaching new literacies. DIY Media addresses this issue head-on, and describes expansive and creative practices of digital literacy that are increasingly influential and popular in contexts beyond the school, and whose educational potential is not yet being tapped to any significant degree in classrooms. This book is very much concerned with engaging students in do-it-yourself digitally mediated meaning-making practices. As such, it is organized around three broad areas of digital media: moving media, still media, and audio media. Specific DIY media practices addressed in the chapters include machinima, anime music videos, digital photography, podcasting, and music remixing. Each chapter opens with an overview of a specific DIY media practice, includes a practical how-to tutorial section, and closes with suggested applications for classroom settings. This collection will appeal not only to educators, but to anyone invested in better understanding - and perhaps participating in - the significant shift towards everyday people producing their own digital media.
