What Do We Do Now? Stephen Hess, 2010-03-01 The period from Election Day to Inauguration Day in America seems impossibly short. Newly elected U.S. presidents have less than eleven weeks to construct a new government composed of supporters and strangers, hailing from all parts of the nation. This unique and daunting process always involves at least some mistakes—in hiring, perhaps, or in policy priorities, or organizational design. Early blunders can carry serious consequences well into a president's term; minimizing them from the outset is critical. In What Do We Do Now? Stephen Hess draws from his long experience as a White House staffer and presidential adviser to show what can be done to make presidential transitions go smoothly. Here is a workbook to guide future chief executives, decision by decision, through the minefield of transition. You'll have to start at the beginning, settling on a management style and knowing how to arrange all the boxes. Something as seemingly mundane as parceling office space can be consequential—hence the inclusion of a proposed White House organizational chart and floor plans of the West Wing. What qualities are needed for each job, and where are the best candidates for those positions most likely to be found? How can you construct a cabinet that looks like America? What Do We Do Now? is your indispensable guide through the thicket of these decisions. There are small decisions, too. You'll have to pick a desk—photos of the choices are included. Which presidential portraits should hang in the Oval Office? Which ones have

previous presidents chosen? And when it comes time to write an inaugural address, what should be the content, theme, and tone? It's all here in the presidential transition workbook—don't leave for Washington without it. This concise volume is sure to be a valuable resource for the president and team of advisers as they attempt to herd cats into an effective government. *o W e Do Now?* is alsis also a delightful read for anyone interested in exactly how one goes about being the president of the United States.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled *The Last Lecture*. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—*Really Achieving Your Childhood Dreams*—wasn't about dying. It was about the importance of overcoming obstacles, of enabling

the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

What do we do now? Virgilio Reyes Pineda, 2023-11-30 Where Did We Go Wrong? That is the first question. In its answer, we expose one enigma and four mistakes that led to this disastrous political and economic crisis. What Do We Do Now? That is the crucial question. After we discovered that our crisis was due more to the good that we had failed to do than to the bad that we had done, we presented strategic objectives and strategies to overcome the bad and enhance the good. This book expresses the hope of a nation that has fallen into a crisis but is repentant and wants to rectify and regain its freedom. Venezuelans desire to return to their country instead of being unwanted asylum seekers, creating a humanitarian crisis wherever they go. However, it seems that nothing will change if the insensitive

generals/admirals do not join in first, for they are in power positions supporting the regime. They could, if they wanted, end the crisis, and return to the institutions because the soldiers they command, as well as their families, are the ones who truly experience the struggles and hardships faced by the common people. In freedom, mothers remain silent when the clarion call of the country cries but in dictatorship, their hearts sense that when the moment of truth arrives, the general will abandon their soldier son and run to hide in some military museum, because of money he reached that rank. Chavezism is collapsing! and so is the people's psychology, for they are no longer afraid. In this book, the author proposes ideas and solutions to reconceptualize Venezuela.
