2 Scanning for the SOHO - Small Office and Home Office Ron Matteson,2004-02 Every small office and home office needs a scanner and the knowledge to use it effectively. This book gives you the knowledge. Learn how to optimize the use of a scanner - set size, resolution and document type Learn how to edit scanned images - enhance, resize, sharpen and improve color Learn how to scan various kinds of inputs - text, line art, photos, halftones, slides and negatives Learn how to optimize your scan for print, copy, fax, email and web pages Learn how to convert your documents to computer-editable text with OCR Learn how to work with and change file formats - TIFF, JPEG, GIF, PSD Learn how to send faxes using the scanner, a standalone fax machine, a multi-function device or using the PC

2 Document Image Processing for Scanning and Printing Ilia V. Safonov,Ilya V. Kurilin,Michael N. Rychagov,Ekaterina V. Tolstaya,2019-03-25 This book continues first one of the same authors “Adaptive Image Processing Algorithms for Printing” and presents methods and software solutions for copying and scanning various types of documents by conventional office equipment, offering techniques for correction of distortions and enhancement of scanned documents; techniques for automatic cropping and de-skew; approaches for segmentation of text and picture regions; documents classifiers; approach for vectorization of symbols by approximation of their contour by curves; methods for optimal compression of scanned documents, algorithm for stitching parts of large originals; copy-protection methods by microprinting and embedding of hidden information to hardcopy; algorithmic approach for toner saving. In addition, method for integral printing is considered. Described techniques operate in automatic mode thanks to machine learning or ingenious heuristics. Most the techniques presented have a low computational complexity and memory consumption due to they were designed for firmware of embedded systems or software drivers. The book reflects the authors’ practical experience in algorithm development for industrial R&D.

2 Research Skills for Journalists Vanessa Edwards,2016-03-02 Research Skills for Journalists is a comprehensive, engaging and highly practical guide to developing the varied skillset needed for producing well researched, quality journalism across a range of platforms. Illustrated with original interviews and case studies, the book guides readers through a clear understanding of sources of news, as well as illustrating the skills needed to undertake successful digital and non-digital research and to conduct interviews for a variety of media. It examines the skills needed for basic data journalism and presents an in-depth exploration of the different research skills specific to producing print and online text, as well as those for broadcast and multimedia journalism. Key research skills explored in the book include: Developing digital research skills, including researching through search engines, messages boards, discussion groups and web forums, social media, apps, and using user generated content Working with data, including sourcing, auditing and analysing data, data visualisation and understanding the importance of accuracy and context Essential non-digital research skills, including telephone technique, using libraries and working with librarians, understanding copyright, working with picture libraries and research services, and producing freedom of information requests Working directly with people to research stories, including the power of persuasion, tracking down great contributors, managing and protecting sources, planning and managing interviews, and interviewing vulnerable people Researching for multimedia production of stories, including researching a radio story, podcast or video story, and planning for outside broadcasts. Research Skills for Journalists also explores specialist research skills needed for working overseas and investigates new areas, which could be used for journalism research in the future. The book is illustrated with original contributions by journalists from a variety of backgrounds; including veteran investigative journalist John Pilger, pioneering data journalist Simon Rogers and The Bureau of Investigative Journalism’s award-winning reporter Abigail Fielding-Smith. It is an invaluable guide for students and practitioners of journalism to the skills needed for finding and developing original news stories today.
