*Bloom and Doom* Beverly Allen, 2014-04-01 As the co-owner of The Rose in Bloom, Audrey Bloom creates magnificent flower arrangements for brides to be. Though helping to plan a wedding can be stressful, it's nothing compared to the groom turning up dead. A designer of eye-catching bridal bouquets—many of them based on the Victorian meanings behind each flower—Audrey Bloom is used to celebrations that end with happily ever after. In fact, every couple she's worked with is still together, living in wedded bliss. But her perfect record is about to be broken. Her childhood friend Jenny Whitney has reeled in the most eligible bachelor in Ramble, Virginia, and she's hired Audrey to design the bouquet. But before Jenny can walk down the aisle clutching her blend of anemone, scabious, and pussy willow (a floral disaster in Audrey's mind), the groom is found dead—sprinkled with bits of a bouquet. This is bad for business—not to mention for Jenny, who has become the prime suspect. So Audrey decides to do a little digging herself, hoping she won't be the next Ramble resident pushing up daisies...

Overkill Bill Mesce, Jr., 2014-08-21 The work examines the evolution of the thriller from the heyday of the Hollywood mogul era in the 1930s when it was primarily bottom-of-the-bill fodder, through its maturity in the World War II years and noir-breeding 1950s, its commercial and critical ascendancy in the 1960s and 1970s, and finally its subsequent box office dominance in the age of the blockbuster.

**Dodgeball High** Bradley Sands, 2014-10-01 On the dodgeball court, no one can hear you scream. Justin Lucas just started at a new high school, but there are no classes in really important stuff like English literature, mathematics, science, or history. Instead, the entire curriculum is dedicated to playing Dodgeball. Justin is...perplexed. Where are the pencils and textbooks? Why are there so many explosives strapped to the balls? And what's up with the barbed wire? Does the school administration really think it's appropriate to wrap the balls in barbed wire? Dodgeball High does not seem like a safe environment for a young man. But his classmates don't care. They kinda remind him of junior Mafia Dons, little serial killers, and pint-sized dictators from third world countries. And they are all really good at Dodgeball (and the shedding of their classmates' blood), while Justin totally sucks. And to make matters worse, Justin's parents are like...total dicks. They won't let him go to a different school because they think he's full of crap about this Dodgeball nonsense. Not to mention that Dodie Manson, the greatest player in the school, has a gigantic crush on Justin. And whoever Dodie wants, Dodie gets,

and her BFs have a habit of experiencing intense pleasure prior to their mysterious decapitations. Does Justin have what it takes to survive and make it to the top of his class before graduation? Or will he be eliminated permanently? Read Dodgeball High to find out, but watch out for the ball that's coming at your head!

They develop superpowers, that's what! Iris, Cheri, Scarlet, and Opaline are destined to become . . . THE ULTRA VIOLETS IRIS: Visionary, artist, leader--the glitter glue that holds the group together! CHERI: A girly girl on platform rollerskates who's never met a rescue puppy or a nail polish she didn't immediately-and-madly love. SCARLET: Short enough that you won't see her sneaking up behind you. Freckled enough that you might mistake her for innocent. But look out! OPALINE: Loveable, huggable, supershy, sweet as pie . . . or is she? THE FUCHSIA IS NOW!

**Zoe's Tale** John Scalzi, 2012-12-21 How do you tell your part in the biggest tale in history? I ask because it's what I have to do. I'm Zoe Boutin Perry: A colonist stranded on a deadly pioneer world. Holy icon to a race of aliens. A player (and a pawn) in an interstellar chess match to save humanity, or to see it fall. Witness to history. Friend. Daughter. Human. Seventeen years old. Everyone on Earth knows the tale I am part of. But you don't know my tale: How I did what I did -- how I did what I had to do -- not just to stay alive but to keep you alive, too. All of you. I'm going to tell it to you now, the only way I know how: not straight but true, the whole thing, to try make you feel what I felt: the joy and terror and uncertainty, panic and wonder, despair and hope. Everything that happened, bringing us to Earth, and Earth out of its captivity. All through my eyes. It's a story you know. But you don't know it all. **Game Frame** Aaron Dignan, 2011-03-08 Ever wonder why teens can spend entire weekends playing video games but struggle with just one hour of homework? Why we're addicted to certain websites and steal glances at our smartphones under the dinner table? Or why some people are able to find joy in difficult or repetitive jobs while others burn out? It's not the experiences themselves but the way they're structured that matters. All our lives we've been told that games are distractions--playful pastimes, but unrelated to success. In Game Frame, Aaron Dignan shows us that the opposite is true: games produce peak learning conditions and accelerated achievement. Here, the crucial connection between the games we love to play and the everyday tasks, goals, and dreams we have trouble realizing is illuminated. Aaron Dignan is the thirty-something founder of a successful digital strategy firm that studies the transformative power of technology in culture. He and his peers were raised on a steady diet

of games and gadgets, ultimately priming them to challenge the status quo of the modern workplace. What they learned from games goes deeper than hand-eye coordination; instead, this generation intrinsically understands the value of adding the elements of games into everyday life. Game Frame is the first prescriptive explanation of what games mean to us, the human psychology behind their magnetic pull, and how we can use the lessons they teach as a framework to achieve our potential in business and beyond. Games are a powerful way to influence and change behavior in any setting. Here, Dignan outlines why games and play are such important trends in culture today, and how our technology, from our iPhones to our hybrid cars, primes us to be instinctive players. Game Frame tackles the challenging task of defining games and the mechanics that make games work from several perspectives, then explores these ideas through the lens of neuroscience. Finally, Dignan provides practical tips for using basic game mechanics in a variety of settings, such as motivating employees at work or encouraging children at home, giving readers the tools to develop their own games to solve problems in their everyday lives. Illuminated throughout with a series of real-world examples and hypothetical scenarios, Game Frame promises a crash course in game design and behavioral psychology that will leave the reader—and, by extension, the world itself—more productive. Revolutionary, visionary, practical, and time-tested, Game Frame will change the way you approach life.

**The Aesthetics of Videogames** Jon Robson, Grant Tavinor, 2018-03-19 This collection of essays is devoted to the philosophical examination of the aesthetics of videogames. Videogames represent one of the most significant developments in the modern popular arts, and it is a topic that is attracting much attention among philosophers of art and aestheticians. As a burgeoning medium of artistic expression, videogames raise entirely new aesthetic concerns, particularly concerning their ontology, interactivity, and aesthetic value. The essays in this volume address a number of pressing theoretical issues related to these areas, including but not limited to: the nature of performance and identity in videogames; their status as an interactive form of art; the ethical problems raised by violence in videogames; and the representation of women in videogames and the gaming community. The Aesthetics of Videogames is an important contribution to analytic aesthetics that deals with an important and growing art form.
