THE EARLY GRADE READING ASSESSMENT Amber K. Gove, Anna Wetterberg, 2011-09-28 The Early Grade Reading Assessment (EGRA) measures students' progress towards reading. EGRA gauges early literacy skills through a 15-minute individual oral assessment of five fundamental reading skills. RTI worked with education experts to develop the EGRA in 2006, and it has been piloted and implemented in more than 40 countries. This volume aims to take stock of the substantial amount of information and experience generated through the use of EGRA, and to share this knowledge with practitioners, policymakers, and international donors. Chapters cover not only particular applications of the instrument but also put EGRA in the context of broader issues and developments in literacy and education.

eMarketing Rob Stokes, Quirk eMarketing (Firm), The Minds of Quirk, 2010 Review: This book is a fantastic guide to online marketing, and the Internet in general. As a marketing practitioner, I've been finding my way own way through the online world for some time now but have always wondered if what I was doing was 'correct' and it would take me ages to find out what I needed to know through researching online articles, blogs, etc. I found this book to be fairly concise and focused. The references to other online articles that it includes are vast and can they be very absorbing. The best part about this is that it is written by someone that clearly has vast experience in the field and, unlike with some online articles, you get the feeling that what is advised is really 'best practice'. I'd recommend this book for anyone interested in digital marketing. Adam Butchart, Digital Marketing student Blurb: We love the Internet. We love digital and the connected world that we live in. We have spent the last six months gleaning every bit of knowledge, skill and opinion from the creative minds at Quirk. The result is a textbook borne out of more than 12 years of practical experience in the world of digital. For the reader, this translates into applicable insight into marketing in an ever-changing space. This book brings you: 22 Chapters Updated content throughout All new case studies \$480 of vouchers* Used by brands, creative agencies and students across the world, Quirk's eMarketing textbook sets the standard for all things digital. Since we published the last edition of the book, it has become increasingly obvious that the various elements of digital marketing work hand in hand, not just benefiting each other through coordination, but actually relying on each other for success.
- Rob Stokes (Founder and Group CEO, Quirk) In order to reflect this change, we have restructured the book to mirror our four key agency disciplines: Think, Create, Engage and Optimise. This simplified way of thinking about the digital space makes it easier for students and professionals to benefit from the insights shared.

Asian Fighting Arts Donn F. Draeger, Robert W. Smith, 1969 Fighting arts are as old as man himself and as varied as his languages. In Asia they developed to a degree of effectiveness probably unsurpassed elsewhere in the world. This book explains the relationships between fighting arts, assesses their strengths and weaknesses, and presents new material about hitherto unknown fighting methods. Written by two of the best-known and most widely published authorities in the field, it covers fighting methods and techniques found in eleven Asian countries-fighting techniques that range from the artful Chinese tai-chi and Burmese bando to Japanese jujutsu and the lethal pentjak-silat of Indonesia. Documentation of these has been supplemented with a wealth of fascinating anecdotes. The reader learns of the daring exploits of the Japanese ninja, of Gama, perhaps the greatest of the great Indian wrestlers, of the Indonesian trance fighters-and hundreds of other tales that serve to illustrate some of the most deadly fighting systems that the world has known. The volume is illustrated with over two hundred photographs and drawings, many of them depicting combat styles and techniques that have never been seen in the West.
