Cat Dog Dog Nelly Buchet,2020-04-28 Here is the oh-so-hilarious and adorable story of a blended family-- using just a few words in various configurations-- from the pets' point-of-view! Cat and Dog live with their human in a suburban house with a big backyard. Sure, they fight like.... well, catsand dogs, but they're used to one another. Dog-- a different dog-- lives a happy only child life in the city with his dad. He has the bed to himself, he never has to share his toys, and that's the way he likes it. So what happens when the Dog's dad and Cat and Dog's mom move in together? Well, it's chaotic. There's not enough room on the bed, for starters. But as the seasons pass, the three animals become a trio and learn to (mostly) love one another. Just as they're settling into a cozy life as a threesome, along comes..... a baby! This laugh-out-loud picture book, which is the recipient of The Irma Simonton Black and James H. Black Award for Excellence in Children's Literature, cleverly uses two repeating words and is sure to strike a chord with kids dealing with the ups-and-downs of settling into a blended family of their own.

Why Dogs Are Better Than Cats Bradley Trevor Greive,2012-06-05 From a New York Times bestselling author, a humorous look at the advantages of being a dog parent, with photos from an award-winning photographer. Some pairings are just meant to be: peanut butter and chocolate, yin and yang, Fred Astaire and Ginger Rogers. So it was only a matter of time before the stars in the universe lined up and suggested the collaboration between New York Times bestselling author Bradley Trevor Greive and award-winning photographer Rachael Hale. Greive and Hale explain once and for all Why Dogs Are Better Than Cats. Now, before all you cat lovers find your fur standing on end, Greive is quick to stress that he is simply “prodog, not anticat. The purpose of this book is not to criticize cats or their owners, but to champion the many exceptional virtues unique to dogs.” What are these unique attributes that make canine companions superior to their feline fiends? (Oops, we meant friends.) Consider the following: * Dogs are social. Cats are sociopaths. * Dogs match up to people. People must match up to cats. * Dogs teach us patience. Cats test our patience. * Dogs give and give. Cats are the gift that keeps on grifting. The bottom line is this: Dogs want love. Cats want fish. Although Greive admits that there is something to be said for “soft, warm, and sleepy” (a.k.a.cats) as captured in Hale's cuddly feline photographs, he concludes that dogs

would be the only ones with character enough to admit this fact, thereby once again positioning themselves as the superior pet, confidant, admirer, and friend.

True Stories About Dogs Cats (Classic Reprint) Mrs. Follen, 2015-07-18 Excerpt from True Stories About Dogs Cats The little fellows were fond of saying to their mother that when they grew bigger they should take care of her; and the idea that she depended upon them for her happiness often made them stop and think when they were disposed to do a wrong thing. When Harry said to Frank, Mother will be so sorry if we do it, Frank would stop and think, and that was enough. Stop and think. Grand words, and worth attending to. I believe that, if boys and girls would only keep these words well in mind, there would be only a small number of really naughty children. It was a custom with this good and faithful mother to have a little talk with her boys, every night before their bed time, of what had passed during the day. Sometimes she told them stories, sometimes they repeated poetry. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. The Complete Book of Cat and Dog Health Lise Hansen, 2019-10-18 Written by a qualified veterinarian, this is a complete and comprehensive guide to health care for cats and dogs, providing invaluable advice on essential aspects of care, such as diet and vaccinations, as well as a guide to holistic treatments. The first part of the book describes the main lifestyle choices every dog and cat owner makes, whether or not they are aware of them: settling in a new puppy or kitten, vaccination, neutering, diet, finding the right veterinarian, and caring for the ageing animal. The second part describes the main holistic modalities and their relevance when animals become sick. What they are, how they work, when they are useful, and how to find a practitioner. Also includes chapters on osteopathy, homeopathy, acupuncture, Bach's flower remedies, and herbal medicine. The third part of the book discusses a range of common health problems in dogs and cats, both from a conventional veterinary point of view and from an holistic perspective, and aims to help the owner understand the condition they are facing, as well as providing tips on how to supplement their veterinarian's advice and treatment.

Cats and Dogs Frania Shelley-Grielen, 2014 There are cat people, and there are dog people--and then there are cat and dog people. For those of us who love both, Cats and Dogs offers invaluable tips and strategies for living with pets and taking a look at the world from their point of view. Praise for Cats and Dogs Frania Shelley-Grielen combines personal affection for animals, a synthesis of a wide range of research in animal biology, and long experience as an animal behaviorist to give a unique and insightful account into the social and interactive lives of animals. She not only dispels common myths (cats are solitary) and answers important questions for humans seeking to share their lives with animals (how to choose the right match, how to introduce animals to your home, etc.); she also gives us a picture of the mental lives of animals and helps us to understand 'where they are coming from.' She addresses animal communication and indicates conclusively that not only are nonhuman animals capable of it, but that humans usually fail to pay heed to important ways that animals express their moods, dispositions, and desires.... This book combines vital practical information for improving the shared lives of human and nonhuman animals; it also peers behind the curtain of important cutting-edge research in animal mind and sociality to give us a glimpse of what amounts to no less than a renaissance in our human understanding of the matter. --Jeffrey Bussolini, BSFS, PhD, feline sociologist, co-director, Center for Feline Studies/ABMSC
