Unfiltered Jon M. Gibson, Chris McDonnell, 2008 If Walt Disney's life and work evoke feelings of chaste princesses in gleaming white castles, then Ralph Bakshi's should conjure up ladies of ill repute camped out in dim back alleys. On par with the legendary animation auteurs of our time, Bakshi's name is synonymous with the grand tradition of American cartooning. Responsible for such memorable films and television shows as Fritz the Cat, the first X-rated animated feature film, Heavy Traffic, Coonskin, Mighty Mouse: The New Adventures, Wizards, and The Lord of the Rings, Bakshi's influence on American popular culture, as well as on artists and writers who came after him, is undeniable and extensive. *Unfiltered: The Complete Ralph Bakshi* is the first and only book chronicling the career of this animation pioneer, highlighting his early years, as well as each of his groundbreaking films, TV shows, and other projects. It contains brand-new Bakshi art created especially for this book, as well as hundreds of pieces of pre-production art, animation cels, and never-before-seen rough sketches, line drawings, and doodles, all culled from Bakshi's personal archives containing more than fifty years of his life's work.--Rabat de la jaquette.

Timing for Animation Harold Whitaker, John Halas, 2013-01-17 Written by two internationally acclaimed animators, this classic text teaches you all you need to know about the art of timing and its

importance in the animated film. This reissue includes a new foreword by John Lasseter, executive vice president of Pixar Animation Studios and director of 'Toy Story', 'Toy Story 2', 'A Bug's Life' and 'Monsters Inc.' He sets the wealth of information in this classic text in context with today's world of computer animation, showing how this is a must-have text if you want to succeed as a traditional drawn, or computer animator. Learn all the tips and tricks of the trade from the professionals. How should the drawings be arranged in relation to each other? How many are needed? How much space should be left between one group of drawings and the next? How long should each drawing, or group of drawings, remain on the screen to give the maximum dramatic effect? The art of timing is vital. Highly illustrated throughout, points made in the text are demonstrated with the help of numerous superb drawn examples. 'Timing for Animation' not only offers invaluable help to those who are learning the basis of animation techniques, but is also of great interest to anyone currently working in the field and is a vital source of reference for every animation studio. John Halas, known as the 'father of animation' and formerly of Halas and Batchelor Animation unit, produced over 2000 animations, including the legendary 'Animal Farm' and the award winning 'Dilemma'. He was also the founder and president of the ASIFA and former Chairman of the British Federation of Film Societies. Harold Whitaker is a professional animator and teacher.
