Einstein said, Imagination is more important than knowledge Imagination is the door to possibilities. It is where creativity, ingenuity, and thinking outside the box begin for child development. Imaginative and creative play is how children learn about the world. Art is creative expression that nurtures imagination, a way for children to work through emotions, make decisions, and express their ideas, provide a sense of freedom, encourages focus and concentration, build confidence because children gain a sense of mastery over materials resulting in a new creation. Creative time help to limit screen time also. Painting will encourage children to create something new and different, opens the mind, boosts children's confidence, skills that our children will need when they join the workforce of the future. Nurture and encourage creativity in your kid Give your child the gift to inspire them to enjoy creativity time, give them space for imagination and you'll be amazed at what they come up with. Certainly we don't want them writing on your walls.
