Reading in the Digital Age: Young Children's Experiences with E-books Ji Eun Kim, Brenna Hassinger-Das, 2019-07-23 This edited book focuses on affordances and limitations of e-books for early language and literacy, features and design of e-books for early language and literacy, print versus e-books in early language and literacy development, and uses of and guidelines for how to use e-books in school and home literacy practices. Uniquely, this book includes critical reviews of diverse aspects of e-books (e.g., features) and e-book uses (e.g., independent reading) for early literacy as well as multiple examinations of e-books in home and school contexts using a variety of research methods and/or theoretical frames. The studies of children's engagement with diverse types of e-books in different social contexts provide readers with a contemporary and comprehensive understanding of this topic. Research has demonstrated that ever-increasing numbers of children use digital devices as part of their daily routine. Yet, despite children's frequent use of e-books from an early age, there is a limited understanding regarding how those e-books are actually being used at home and school. As more e-books become available, it is important to examine

the educational benefits and limitations of different types of e-books for children. So far, studies on the topic have presented inconsistent findings regarding potential benefits and limitations of e-books for early literacy activities (e.g., independent reading, shared reading). The studies in this book aim to fill such gaps in the literature.

Extended Play John Corbett, 1994 In *Extended Play*, one of the country's most innovative music writers conducts a wide-ranging tour through the outer limits of contemporary music. Over the course of more than twenty-five portraits, interviews, and essays, John Corbett engages artists from lands as distant as Sweden, Siberia, and Saturn. With a special emphasis on African American and European improvisers, the book explores the famous and the little known, from John Cage and George Clinton to Anthony Braxton and Sun Ra. Employing approaches as diverse as the music he celebrates, Corbett illuminates the sound and theory of funk and rap, blues and jazz, contemporary classical, free improvisation, rock, and reggae. Using cultural critique and textual theory, Corbett addresses a broad spectrum of issues, such as the status of recorded music in postmodern culture, the politics of self-censorship, experimentation, and alternativism in the music industry, and the use of metaphors of space and madness in the work of African American musicians. He follows these more theoretically oriented essays with a series of extensive profiles

and in-depth interviews that offer contrasting and complementary perspectives on some of the world's most creative musicians and their work. Included here are more than twenty original photographs as well as a meticulously annotated discography. The result is one of the most thoughtful, and most entertaining, investigations of contemporary music available today.

The volume also offers essays by scholars who have been seeking answers to some of the most critical questions addressed by this research. It represents the interdisciplinary nature of research on children and television, and draws on many academic traditions, including communication studies, psychology, sociology, education, economics, and medicine. Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at

the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

How the Essay Film Thinks Laura Rascaroli, 2017-05-05 This book offers a novel understanding of the epistemological strategies that are mobilized by the essay film, and of where and how such strategies operate. Against the backdrop of Adorno's discussion of the essay form's anachronistic, anti-systematic and disjunctive mode of resistance, and capitalizing on the centrality of the interstice in Deleuze's understanding of the cinema as image of thought, the book discusses the essay film as future philosophy-as a contrarian, political cinema whose argumentation engages with us in a space beyond the verbal. A diverse range of case studies discloses how the essay film can be a medium of thought on the basis of its dialectic use of audiovisual interstitiality. The book shows how the essay film's disjunctive method comes to be realized at the level of medium, montage, genre, temporality, sound, narration, and framing-all of these emerging as interstitial spaces of intelligence that illustrate how essayistic meaning can be sustained, often in contexts

of political, historical or cultural extremity. The essayistic urge is not to be identified with a fixed generic form, but is rather situated within processes of filmic thinking that thrive in gaps.
