The Awesome Power of the Tongue Dr. Charles Fuller, 2012-10-19 It almost takes your breath away when you realize the tremendous power of the tongue. It can do things that are dastardly, destructive, degrading, and distressing. The tongue can lie. It can accuse. It can exaggerate. It can curse. It can deprave. It can slander. It can gossip. It's the match that lights the fire! But when the tongue is under Christ's control, it is mindboggling what it can do to the contrary. It can encourage. It can tell the truth. It can bless. It can speak love. It can bring hope! And the highest, most noble thing the tongue can do: it can praise Almighty God and proclaim redemption in Jesus Christ. This little body part that has the power to be so destructive when out of control, when under control has the power and the privilege of praising, adoring, exalting, and making known the living God.

The Dolphin Way Shimi Kang, 2014-05-01 In this inspiring book, Harvard-trained child and adult psychiatrist and expert in human motivation Dr. Shimi Kang provides a guide to the art and science of inspiring children to develop their own internal drive and a lifelong love of learning. Drawing on the latest neuroscience and behavioral research, Dr. Kang shows why pushy "tiger parents" and permissive "jellyfish parents" actually hinder self-motivation. She proposes a powerful new parenting model: the intelligent, joyful, playful, highly social dolphin. Dolphin parents focus on maintaining balance in their children's lives to gently yet authoritatively guide them toward lasting health, happiness, and success. As the medical director for Child and Youth Mental Health community programs in Vancouver, British Columbia, Dr. Kang has witnessed firsthand the consequences of parental pressure: anxiety disorders, high stress levels, suicides, and addictions. As the mother of three children and as the daughter of immigrant

parents who struggled to give their children the “best” in life—Dr. Kang’s mother could not read and her father taught her math while they drove around in his taxicab—Dr. Kang argues that often the simplest “benefits” we give our children are the most valuable. By trusting our deepest intuitions about what is best for our kids, we will in turn allow them to develop key dolphin traits to enable them to thrive in an increasingly complex world: adaptability, community-mindedness, creativity, and critical thinking. Life is a journey through ever-changing waters, and dolphin parents know that the most valuable help we can give our children is to assist them in developing their own inner compass. Combining irrefutable science with unforgettable real-life stories, *The Dolphin Way* walks readers through Dr. Kang’s four-part method for cultivating self-motivation. The book makes a powerful case that we are not forced to choose between being permissive or controlling. The third option—the option that will prepare our kids for success in a future that will require adaptability—is the dolphin way.

Subsequently, they continue their travels until they ultimately find Ozzy’s mother and father at the Midwest Animal Believers Convention. As the story progresses, the reader is thrilled as Alberta gives birth to twin ostriches who also pursue their purpose and mission in life. At this point and time, a letter will not suffice. As the story concludes, Ozzy comes full circle as he travels back to share the events of his life in person with Billy.

Awesome Flax O. P. Verma, 2015-01-04 Flaxseed- Miraculous Anti-ageing Divine Food What is Flaxseed and how can it benefit me? I was faced with this question when I started hearing about Flaxseed not long ago. It became a 'buzz word' in society and seems to be making great role in increased health for many. I wanted to join that wagon of wellness and so I researched until I felt satisfied that it could help me, too. Here are my findings. Flaxseeds are the hard, tiny seeds of *Linum usitatissimum*, the flax plant, which has been widely used for thousands of years as a source of food and clothing. Flaxseeds have become very popular recently, because they are a richest source of the Omega 3 essential fatty acid; also known as Alpha Linolenic Acid (ALA) and lignans. People in the new millennium may see flaxseed as an important new FOOD SUPER STAR. In fact, there's nobody who won't benefit by adding flaxseed to his or her diet. Even Gandhi wrote: Wherever flaxseed becomes a regular food item among the people, there will be better health. Flaxseed contains 30-40% oil (including 36-50% alpha linolenic acid, 23-24% linoleic acid- Omega-6 fatty acids and oleic acids), mucilage (6%), protein (25%), Vitamin B group, lecithin, selenium, calcium, folate, magnesium, zinc, iron, carotene, sulfur, potassium, phosphorous, manganese, silicon, copper, nickel, molybdenum, chromium, and cobalt, vitamins A and E and all essential amino acids. Other fatty acids, omega-6's, is abundant in vegetable oils such as corn, soybean, safflower, and sunflower oils as well as in the many processed foods made from these oils. Omega-6 fatty acids have stimulating, irritating and inflammatory effect while omega-3 fatty acids have calming and soothing effect on our body. Our bodies function best when our diets contain a well-balanced ratio of these fatty acids, meaning 1:1 to 4:1 of omega-6 and

omega-3. But we typically eat 10 to 30 times more omega-6's than omega-3's, which is a prescription for trouble. This imbalance puts us at greater risk for a number of serious illnesses, including heart disease, cancer, stroke, and arthritis. As the most abundant plant source of omega-3 fatty acids, flaxseed helps restore balance and lets omega-3's do what they're best at: balancing the immune system, decreasing inflammation, and lowering some of the risk factors for heart disease. One way that Omega 3 essential fatty acid known as Alpha Linolenic Acid ALA helps the heart is by decreasing the ability of platelets to clump together. Flax seed helps to lower high blood pressure, clears clogged coronaries, lowers high blood cholesterol, bad LDL cholesterol and triglyceride levels and raises good HDL cholesterol. It can relieve the symptoms of Diabetes Mellitus. It lowers blood sugar level. Flaxseed help fight obesity. Adding flaxseed to foods creates a feeling of satiation. Furthermore, flaxseed stokes the metabolic processes in our cells. Much like a furnace, once stoked, the cells generate more heat and burn calories. Flaxseeds are the most abundant source of lignans. Lignans are plant-based compounds that can block estrogen activity in cells, reducing the risk of Breast, Uterus, Colon and Prostate cancers. According to the US Department of Agriculture, flaxseed contains 27 identifiable cancer preventative compounds. Lignans in flaxseeds are 200 to 800 times more than any other lignan source. Lignans are phytoestrogens, meaning that they are similar to but weaker than the estrogen that a woman's body produces naturally. Therefore, they may also help alleviate menopausal discomforts such as hot flashes and vaginal dryness. They are also antibacterial, antifungal, and antiviral. Because they are high in dietary fiber, ground flaxseeds can help ease the passage of stools and thus relieve constipation, hemorrhoids and diverticular disease. Taken for inflammatory bowel disease, flaxseed can help to calm inflammation and repair any intestinal tract damage.
