Ike Heckler Jr

High Performance Robert C. Post, 2001 Providing a firsthand history of the sport, this book takes a detailed look at all aspects of drag racing: the sport, the business, and tracks the innovations that permitted racers to disprove the laws of physics. 147 halftones.

Drag Racing in the 1960s Doug Boyce, 2021-03-15 The 1960s were a fascinating decade on the race scene. Relive the memories today through this wonderful new book. Drag racing has a long and storied history. Many have said that the first drag race happened shortly after the second car was made. While that may or may not be true, racing prior to World War II was mostly centered around dry-lake activities and top-speed runs. After the war, drag racing became organized with the formation of the NHRA, and during the 1950s, many tracks were built across America to accommodate the racers. Technology in the 1950s centered on the manufacturers updating old flathead designs into newer overhead-valve designs, and the horsepower race really started to heat up. In many forms of racing, the 1960s brought technological evolution. The decade began with big engines in even bigger stock chassis and ended with purpose-built race-only chassis, fiberglass bodies, fuel injection, nitro methane, and blowers. Quarter-mile times that were in the 13-second range in the beginning of the decade were in the 7-second range by the end. New classes were formed, dedicated cars were built for them, and many racers themselves became recognized names in the sports landscape. In *Drag Racing in the 60s: The Evolution in Race Car Technology*, veteran author Doug Boyce takes you on a ride through the entire decade from a technological point of view rather than a results-based one. Covered are all the classes, including Super Stocks, Altered Wheelbase cars (which led to Funny Cars), Top Fuelers, Gassers, and more.

Drag Racing Alex Monnig, 2014-08-01 Though it is a short, straight 1/4 mile race, a drag race still manages to be entertaining! Young readers will love learning about the big motors, fast vehicles, talented drivers, and exciting races. This title takes a close look at the history, the vehicles, the events, and the stars who make drag racing unique. Complete with informative sidebars, a photo diagram, and much more. Aligned to Common Core standards and correlated to state standards. SportsZone is an imprint of Abdo Publishing, a division of ABDO.

Northern California Drag Racing Steve Reyes, 2022-05-02 Organized drag racing began in Northern California in 1949 thanks to World War II veterans with a need for speed. Towns like Redding, Lodi, Fresno, Bakersfield, and Fremont would host their own drag events featuring homebuilt jalopies. Anyone with a driver's license and a paid entry fee could participate, and as the cars got more sophisticated and faster, more and more spectators came to watch the local speed demons. By the 1960s, a metamorphosis began with the introduction of the slingshot-style dragsters. For the next 12 years, the slingshot dragster was the king of the quarter mile, and it made stars of Gary Ormsby, Frank Bradley, Dennis Baca, and James Warren. Meanwhile, in 1965, a funny new race car challenged The King as it gained popularity in Northern California. Leading this funny car charge was a Pennsylvania transplant named Russell James Liberman. However, the golden years of Northern California drag racing came to an end in the mid-1970s. Today, only 5 out of 17 drag strips are still open. Photographer Steve Reyes journeyed into the world of Northern California drag racing in 1963 as a 15-year-old kid. Upon seeing an advertisement from the Oakland Tribune that read, Come see the nitro powered 200mph slingshot dragsters, Reyes and his father made the 23-mile trek to the Fremont drag strip. With the noise of high-powered engines filling the air, Reyes was hooked and made it his duty to capture this one-of-a-kind world on film.

Match Race Mayhem Doug Boyce, 2017-06-15 Drag racing is a very regulated sport. In the history of the NHRA, IHRA, and other sanctioning bodies, many classes existed in an effort to make sure the cars racing against each other are as equal as possible. It is a noble, if not futile, pursuit. You have two cars facing off that have very similar statistics in terms of weight, transmission type, fuel type, estimated horsepower, and all other sorts of measurables. The byproduct is that often the races that were fair were not the races that the fans wanted to see. During the golden age of drag racing, fans didn't care as much about class racing as much as they wanted to see scores settled, rivalries battled, and interesting match-ups. There were the

manufacturer rivalries, Ford versus Chevy, Chevy versus Mopar, Mopar versus Ford, as well as numerous driver rivalries. Match races were also a great way to feature wildly popular cars that no longer had a class in which to compete, yet the fans still wanted to see them. So popular and intense were these races that many track promoters didn't bother to promote class racing at all. Instead, they used the match races as headliners, similar to the marquee at your local arena or a billboard in Las Vegas, all resulting in putting more fans in the stands. And the drivers loved it too. Although the prize money for national events was fairly average for the day, the extra appearance fees and prize money to lure the most popular match racers to events increased the driver's take exponentially. Many of the most popular pro drivers quit class racing altogether just to go match racing. Veteran drag race author Doug Boyce tells the tale of the history of match racing through the cars, the drivers, the events, the classes, the rivalries, and everything else that was fun about match racing during the golden era. It's all here, complemented by wonderful vintage photography provided by fans and professionals in attendance. If you are a fan of any class of drag racing, from any era, Match Race Mayhem is a fun addition to your racing library. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

Drag Racing's Rebels Doug Boyce, 2023-11-15 Learn the entire fascinating story of the American Hot Rod Association (AHRA) in this wonderfully illustrated color history. When the National Hot Rod Association (NHRA) was formed in 1951 by Wally Parks, the reasoning for the formation was to create order from chaos by instituting safety rules and performance standards that helped legitimize the sport of drag racing. Some organization was certainly necessary. A postwar boom in automotive enthusiasm was reaching new heights, and Hot Rod magazine and the NHRA were right in the thick of it. The NHRA hosted its first drag racing event in 1953, and in 1955, the organization staged its first national event, which was simply called The Nationals. The AHRA formed in 1956 as an alternative to the NHRA, where the drivers voted on the rules (rather than sanctioning bodies and tracks), and their influence on the sport was felt almost immediately. When the NHRA denied the use of nitromethane in 1957, the AHRA approved it. When the NHRA banned aircraft-powered dragsters in 1961, the AHRA welcomed them. When the NHRA said no to the emerging Funny Car in 1965, the AHRA said yes. When fans and racers screamed for a heads-up Super Stock category in 1968, the AHRA delivered. The AHRA was called a rebel association. Some say that it was more of an association that got things done—to the delight of fans and racers. The AHRA was on equal ground with the NHRA by the 1970s, drawing enormous crowds and racer entries.

In this fascinating history, veteran author Doug Boyce tells the story of the AHRA, the rise, the competition, the events, and the eventual downfall of the organization. After AHRA President Jim Tice passed away in 1982, internal fighting for control of the association resulted in its doom. Get the whole story here, and add this wonderful volume to your drag racing library.

After racing at NHRA tracks in the northeast and southeast for the past 10 years in a booming economy where securing sponsorships was relatively easy, Ike takes you on an exciting journey through 2010 and explains what it is like to uproot your personal life in order to pursue the goal of semi-pro drag racing. He quit the entertainment industry instead. This is the official story of Ivo's incredible life and racing career. Readers will follow "TV" Tommy as he becomes the most ambitious drag racer in the nation, building his own cars in the garage behind his Burbank home; becoming the first driver to pilot his dragsters to 170, 175, and 180 miles per hour and towing his cars to match races at small-town drag strips across the United States. Lost Drag Strips II Scotty Gosson,2016-04-15 Fresh on the heels of the best-selling book *Lost Drag Strips* comes a new look at other long-lost and forgotten drag racing facilities from the 1950s, 1960s, and 1970s. In the first volume, the author examined the birth of drag racing and its subsequent popularity that invaded every city and community across America. Unfortunately, after the initial explosion of popularity, it waned, and various drag strips closed for a myriad of reasons. Financial pressure for the real estate they occupied, suburban sprawl, and waning participation were all reasons for the change in fortunes for the small, and even not-so-small, racetracks. The first volume was great, but readers demanded more! *Lost Drag Strips II* picks up where the first volume left off, covering even more tracks with archival photos of racing in the tracks' heyday, the cars that ran there, and coverage of the tracks as they exist today. This volume also includes some of the tracks that survived, those that fought off the economic demons and the urban sprawl and continue to run today. Tracks in this volume include: Fort Wainwright/Racing Lions Motorsports Park, Avenue G Drag Strip, Fremont/Baylands Drag Strip, San Fernando Drag Strip, Fontana Drag City, Inyokern Drag Strip, Kahuku Air Strip, Las Vegas Speedrome, Continental Divide Raceways, SRCA Drag Strip, Southwest Raceway, Willow Run Raceway, Minnesota Dragways, KCTA Drag Strip, Detroit Dragway, Niagara Airport Dragstrip, New York National Speedway, York US 30 Drag-O-Way, South Mountain Raceway, La Place Dragway, Yellow River Drag Strip, Thunderbolt Dragway, and more.
